ABSENTEES :

1. Deep Shikha Gupta.

She has been absent from 20th Oct. 22. Without intimating in the department she went to her native. We have called her father on the same day and we came to know that her grand mother was not well. They informed us that she will be attending classes from 4/11/22.

2. Shikha Kumari. - letter is attached

Report of workshop on
"AutoML."

Date: 5th May 2023

About the workshop – Department of Mechanical Engineering had organized workshop on "AutoML." on 18th April 2023. The workshop intended to enhance the knowledge and skills of students & faculties. It gives exposure in the field of industrial automation.

Resource person:

AM Govind Kumar
Director
SeaportAi

No. of participants: 39

Program Outcome:

Students were able to understand Real-time industry application in Machine learning. Students got introduced to Basic Concepts behind Machine Learning & Deep Learning. Further, speaker also discussed about how mechanical engineering can be related to Machine Learning & Deep Learning

AutoML (Automated Machine Learning) is a growing field in machine learning that focuses on automating the process of building and deploying machine learning models. The goal of AutoML is to make it easier and faster to create effective models by automating many of the time-consuming and labor-intensive tasks involved in the process.

AutoML encompasses a range of techniques and approaches, from fully automated systems that require minimal input from users to more interactive systems that allow users to provide guidance and feedback as the model is being built. The basic idea behind AutoML is to automate the process of selecting and optimizing algorithms, feature engineering, hyperparameter tuning, model selection, and deployment.

Some of the concepts that were discussed are,

- Product Development and Business Development with a focus on Fraud Risk, Customer Experience & Intelligent Automation
- Crypto/Block chain

Report on Certificate Programme on "Microsoft Excel for Engineers"

About the programme: Department of Mechanical Engineering have organised Certificate Program on every Saturday for 5 weeks from 10th Dec 2022 to 7th Jan 2023

Target Audience: III & V semester Mechanical Engineering Students of RRIT.

Objective:

This Certificate Program aims to provide skills and knowledge which will allow the attendee to Learn MS Excel tools, Techniques and create lookup functions, set Excel working options, enhance charts, protect worksheet data, perform advanced data operations using summarising, PivotTables, data consolidations, goal seeking, and Solver, and create and use macros.

Outcome:

- Students are able to use advanced functions and productivity tools to assist in developing worksheets.
- Manipulate data lists using Outline, Auto filter and PivotTables
- Use Consolidation to summarize and report results from multiple worksheets

No. of participants: 38

Resource Persons

1. Day-1: Dr. Manjunatha G, Assoc. Professor, Dept. of Mechanical Engg.
2. Day-2: Mr. Kalburgi Bharath, Asst. Professor, Dept of Mechanical Engg.
3. Day-3: Mr. Murali G E, Asst. Professor, Dept of Mechanical Engg.
4. Day-4: Mr. Deepak A R, Asst. Professor, Dept of Mechanical Engg.
5. Day-5: Mr. Lohith Kumar, Asst. Professor, Dept of Mechanical Engg.

Summary of the Program with Photo Gallery:

The event started at 10am on 10.12.2022 and the Resource person for Day-1, Dr. Manjunatha G briefed the event and its significance. The speaker started the session with the introduction of "Microsoft Excel for Engineers" and its application in industries. Hands-on session was conducted to explain about the tools used in Industries. After the session the event concluded with thanks to the speaker on behalf of Department of Mechanical Engineering and RRIT.

Feedback analysis

Five days certificate programme on "Microsoft Excel for Engineers"

Event Date: 10th December 2022 to 7th January 2023

Time: 9.30 AM to 5.30 PM

Platform: Collected through google form.

Resources Persons:

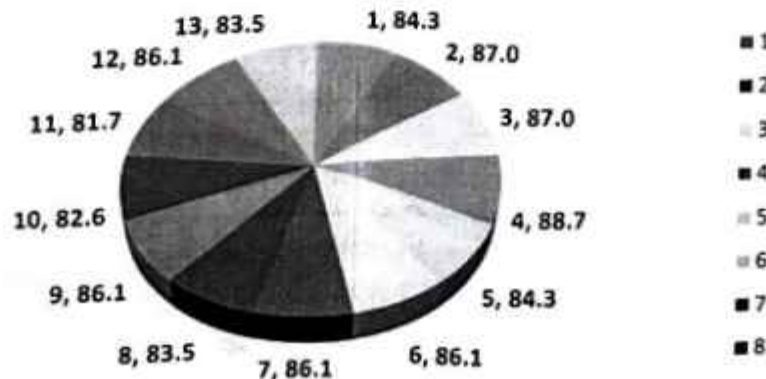

1. Dr. Manjunatha G, Assoc. Professor, Dept. of Mechanical Engg.
2. Mr. Kalburgi Bharath, Asst. Professor, Dept of Mechanical Engg.
3. Mr. Srinivas K R., Asst. Professor, Dept of Mechanical Engg.
4. Mr. Deepak A R, Asst. Professor, Dept of Mechanical Engg.
5. Mr. Lohith Kumar, Asst. Professor, Dept of Mechanical Engg.
6. Mr. Murali G E, Asst. Professor, Dept of Mechanical Engg.

Number of students Attended: 38

Number of students responded: 23

SL. NO.	Questions	SCORED
1	Understood the navigation of Excel	84.348
2	Understood the purpose of Excel	86.957
3	Engineers should have the knowledge of Excel sheet	86.957
4	Excels sheet saves money and time	88.696
5	Programme has met my expectations	84.348
6	Resource Persons were knowledgeable	86.087
7	The quality of instruction/presented was good	86.087
8	Session participation and interaction were encouraged	83.478
9	Adequate time was provided for questions and discussion	86.087
10	The Audio and Video facilities were clearly audible and visible	82.609
11	Materials distributed are useful	81.739
12	The programme was well paced with the allotted time	86.087
13	Overall programme was excellent	83.478

Report

Certificate programme on "Geometric Dimensioning and Tolerancing (GD & T)"

Geometric Dimensioning and Tolerancing (GD&T) is a system for defining and communicating engineering tolerances. It is used to ensure that parts are manufactured to the correct specifications and that they fit together properly. A training program was conducted on GD&T to improve the knowledge and skills of participants in this area.

The GD&T training program was designed to provide participants with a thorough understanding of the principles and applications of GD&T. The program covered the following topics:

1. Introduction to GD&T: This section provided an overview of the history and evolution of GD&T, the benefits of using GD&T, and the various applications of GD&T.
2. Symbols and Terminology: This section covered the symbols and terminology used in GD&T. Participants learned about geometric characteristics, tolerance zones, datum features, and other important concepts.
3. Dimensioning and Tolerancing: This section focused on the principles of dimensioning and tolerancing. Participants learned how to properly apply tolerances to engineering drawings and how to interpret engineering drawings that use GD&T.
4. Application of GD&T: This section covered the practical applications of GD&T. Participants learned how to use GD&T to improve the quality and accuracy of parts, how to reduce manufacturing costs, and how to improve communication between design and manufacturing teams.
5. Case Studies and Exercises: In this section, participants worked on case studies and exercises that helped them apply the concepts and principles they learned in the training program.

The GD&T training program was successful in improving the knowledge and skills of participants in this area. Participants reported feeling more confident in their ability to interpret

and apply GD&T to engineering drawings. They also reported an increased understanding of the importance of GD&T in manufacturing and the benefits of using GD&T.

In conclusion, the GD&T training program was effective in improving the knowledge and skills of participants in this area. The program covered a wide range of topics, including symbols and terminology, dimensioning and tolerancing, and practical applications of GD&T. Participants reported an increased understanding of the importance of GD&T in manufacturing and an improved ability to interpret and apply GD&T to engineering drawings. The program was a valuable investment in the professional development of participants and will contribute to improved quality and accuracy in manufacturing processes.

Date: 2.05.2023

Report of a SDP on "The Future with IOT & Cloud: A Hands-On Training Program" on 28th & 29th April 2023.

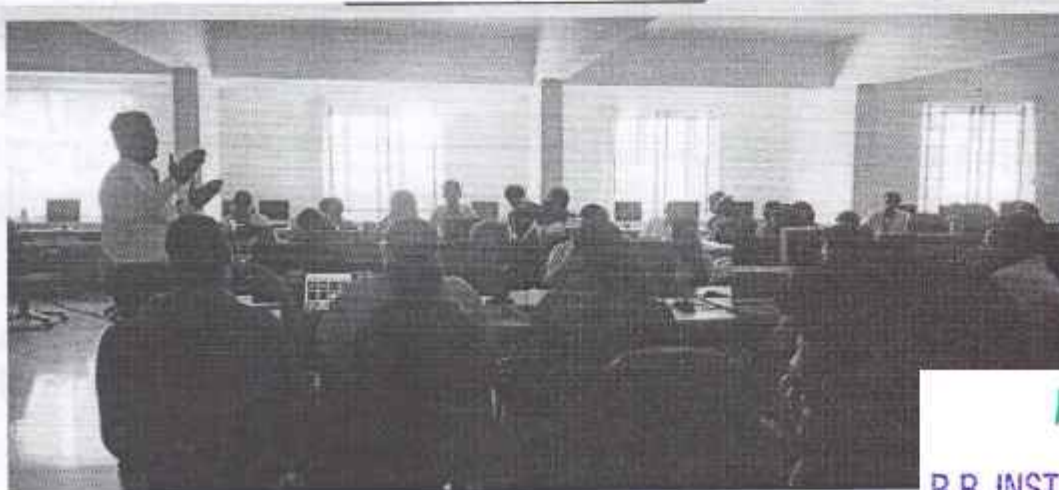

Department of ECE had conducted a workshop on "The Future with IOT & Cloud: A Hands-On Training Program" for 6th Semester ECE students on 28th & 29th April 2023. The session started at 9:30 am. The program was conducted at CAED Lab, RRIT and 14 students and two Faculty was participated. Mr. Shashikanth Reddy Head, R&D, ParvaM Consul-tech Pvt. Ltd and Mr. Mohit Santhosh, Technology Director and CTO, ParvaM Consul-tech Pvt. Ltd provided information regarding IOT.

- Objective:**
1. To bridge the gap between industry and academia.
 2. PO'S: PO5, PO6, PO12 & PSO'S: PSO1
 3. Target Audience: 6th Sem ECE students.

Outcomes:

- Students were able to learn about Virtual Platform: Thinker Cad and Arduino Interfacing. They got exposure to Aurdino Programming, Interfacing sensors with microcontroller, Java scripting and client-server connection for sensor data and understood PubNub and uploading sensor data to Cloud
- 14 participants were benefited from seminar
- Target audience: 6th Semester ECE students.
- PO'S: PO5, PO6, PO12 & PSO'S: PSO1

SKILL QUEST 2022

In association with CADD Centre,
Basaveshwarnagar, Bangalore.

Department of Civil Engineering organized SKILL QUEST 2022 on 23rd December 2021, 11.15 AM to 1.05 PM in association with CADD Centre Basaveshwar Nagar, Bangalore. This program helps to students of RRIT to get scholarships offered by CADD Centre. This program is the part of MOU with CADD Centre. Scholarship test was conducted by Prof. R S Patil, Prof. Gunasheela P, Prof. Sharmila H C, and representatives of CADD Centre.

CADD Skill Quest 2022 is a scholarship program which is conducted by CADD centre for engineering design courses throughout the country. The scholarship program provides an opportunity to the meritorious applicants to master their skill in CAD and help them grow in their core field be it Mechanical, Electrical, Industrial, architecture or civil. The CAD scholarship is provided to 20000 applicants across the country.

95 Students from 5th & 7th Semester Civil Engineering Department participated in the SKILLQUEST 2022 and students were selected for the next round of competition.

Report on Student Development Program.

SDP on "Career Guidance"

Date: 1st December 2021

Timings: 2 pm to 3.30 pm

Venue: Offline

Resources Person:

Mr. Ramesh P
Assistant Professor
ACE Engineering College
Bengaluru

Objective:

Seeking a challenging environment that encourages continuous learning and creativity that provides exposure to new ideas and stimulates and professional growth. To become a member of a team which does original and creative work.

Outcomes:

- 36 participants were benefited from seminar.
- Students were given an exposure on the career guidance in order to crack the competitive examinations like GATE, UPSC.
- Motivated the students to think about their future in the jobs which are based on the competitive examinations.

Summary

10.9 years of teaching experience for engineering professionals. Learning things in wide range of domains from Big data, Data analytics, Hadoop Ecosystem, Internet of Things, Environmental sciences, Cloud computing, Information Storage Management, Advanced Databases and Ruby/Python Programming. Keeps pondering on things which are very new in field of study.

Awards Received

1. Excellence award for creating an National level Outstanding project entry that finished in top 10% in software project category, **ThinkQuest Competition, Oracle Education Foundation**, 2012
2. **Cloud Champion Award** won this in AWS Cloud Literacy Month 2018 in the **co - ordinator category** for training more than 400+ students, held in the year 2018 by ICT Academy

Patents Published

1. Machine Learning Based System For Prediction Of Setup Security-Failure Of Artificial Lift
On 2nd February 2020 - 202011004965a
2. A Novel Deep Memory Net Model For Crop Protection Through Multi-Class Data Analytics
On 3rd July 2020 - 202041026014a

Certifications and Badges gained

1. Gained 2 badges on **Big Data Foundation** from **Bigdata university**, IBM on 18 February 2016
link <https://www.youracclaim.com/user/muthukrishnan-h>
2. Completed a training course on **NoSQL and DBaaS** from **Bigdata Univeristy**, IBM on 11 April 2016
3. Completed **AWS Technical Essentials** from **AWS** on 22 January 2018
4. Completed **AWS Architect Solutions** from **AWS** on 25 January 2018
5. Online course , **Outcome based pedagogy principles for effective learning** - NPTEL MHRD, IIT ,Kharagpur Sep 2018

Invited talks

Muthukrishnan

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY

Chikkabanavara, Bangalore - 560 090.

1. Delivered a speech on "Human Values and Ethical Values" for first year students in their orientation programme on 06.07.11 at Kongu Arts & Science College
2. Delivered a speech on AIRBONET for "Paper presentation 2011" on 29.01.11 at Kongu Fest
3. Invited as a resource person for handling a technical session on "Power Aware Network" on 14.06.2013 at KEC
4. Invited as resource person to provide hands on training for the students and research scholars in a workshop on Wireless Networks on 24.08.2013
5. Invited as resource person to provide tool based hands on training in GloMoSim simulator for the students and research scholars in a workshop on Wireless Networks & network simulators on 05.09.2014
6. Invited as a resource person to handle a technical session on System Softwares Bigdata tool at K.S.R. College of Engineering on Dec 2015
7. Delivered a guest lecture on "Hive and HBase Tools for Data Analytics" for UG and PG students at Vivekananda College of Engineering for Women on 10.11. 2018
8. Invited as a resource person to handle a technical session on "Building IoT for Beginners" at Kongu Engineering College in the month of September 2018
9. Delivered a guest lecture on "Big Data Analytics" at M.Kumarasamy College of Engineering and Technology, Karur on 16.03. 2019
10. Invited as a resource person to handle a technical session on "Web Designing for Advanced Learners" at Sri Krishna College of Engineering on 20.10.2019
11. Invited as a resource person to handle hands on session, DBT sponsored workshop on "Operating System and Linux Administration" at Kongu Arts and Science College on 05.12.2019.

Training Programs Conducted for Students

1. Student workshop on "Salesforce Business Administration Specialists" from 22.01.2018 to 25.01.2018 for 120 students
2. New India Student Championship, One day Learnathon from 02.02.2018 to 03.02.2018 through ICT Academy. The largest Learnathon of India, Sales Force Trial Head
3. One day Learnathon in joint with AWS Educate, Cloud Literacy Day was conducted for students. A massive event for students more that 450+ students participated and gained badges 2018 in the Month of October.
4. Cloud Literacy Day was conducted for students in 2019 for about 200+ students in the month of October 19th 2019 with AWS Academy.
5. NCSC 2020 National Level Stepathon in Collaboration with Hindu, conducted a communication skill development competition for 100 students.
6. Nation wide Learnathon 2020 during Pandemic was conducted for students to grab badges from Automation Anywhere, AWS, CISCO, Sales Force, Hindu for students in the month of May.

Report on Online Guest Lecture

The **Department of Electrical and Electronics Engineering** organized an online Guest Lecture on **“What industry really expects from the students after employment?”** on **28/05/2021** for the students of **4th sem, 6th sem and 8th sem.**

RESOURCE PERSON:

Prof. Muthukrishnan H

Assistant Professor (Senior Grade)
Department of Information Technology
Kongu Engineering College
Erode-638060, Tamil Nadu.

OBJECTIVE:

The online guest lecture was organized to give an idea to the students on how to upskill themselves perfectly for the expectation from the industry.

OUTCOME:

The following topics were explained by Prof. Muthukrishnan H:

- ✓ Types of industries.
- ✓ Industrial expectations such as communication skills, negotiation skills, Qualities of communication.
- ✓ Knowledge beyond text books, Critical thinking.
- ✓ Right understanding, right attitude and right skill.
- ✓ Being Optimistic.
- ✓ Economy and current situation.
- ✓ Other qualities such as tolerance, Adjustability, Understanding, being flexible, acceptance, controlling emotions and being active.

Muthukrishnan H.
PRINCIPAL

Page 1 of 18

- ✓ KAFEE framework.
- ✓ Preparedness- Presenting Technical papers at IITs, NITs; Doing certifications,
- ✓ Project to product (consultancy-based project).

106 participants were benefited from the Guest Lecture. The students found the session very informative and suggested to conduct more events like this. The session has also received overwhelming response and impressive feedback from the students.

Student feedback analysis for the online guest lecture on “what industry really expects from the students after employment?”

1. The programme met my expectation
52 responses

- Strongly disagree
- Disagree
- Neutral
- Agree
- Strongly agree

2. I will be able to apply the knowledge learned
52 responses

- Strongly disagree
- Disagree
- Neutral
- Agree
- Strongly agree

3. The Resource Person was knowledgeable
52 responses

- Strongly disagree
- Disagree
- Neutral
- Agree
- Strongly agree

Sub: Letter of Appreciation

Dear Sir,

Thank you very much for being a resource person for the online Guest Lecture on "What industry really expects from the students after employment?" held on 28/05/2021 at Department of Electrical and Electronics Engineering, R R Institute of Technology, Bengaluru.

Session was very informative and has received overwhelming response from the students. We have received very much impressive feedback about your session especially the way you interacted with the students. Looking forward for your continuous support.

Thanking You,

Melank

Report for awareness program on "Career opportunities & Awareness on Higher Studies"

29th Oct 2021

Department of CSE had conducted a Hands on awareness program on "Career opportunities & Awareness on Higher Studies" for students of Computer Science and Engineering on 29th Oct 2021. This webinar was open to other branch students and faculties as well. The Session Started at 11:00 am by welcoming the Management, Qac, Iqac, Principal, HOD, Students and Staff of RRIT.

The program was conducted in seminar hall with total number of 61 participants. Ms. Shashirekha, Destination Manager, Australia IDP Education, Bengaluru Karnataka and Ms. Sharmila, Destination Manager, UK IDP Education, Bengaluru gave one and half an hour awareness program on Career opportunities & Awareness on Higher Studies.

The program highlights:

- Introduction to Successful and effective career decision making.
- Discussed focuses to ascertain the significance of awareness about selection process in students' career choices.
- Demonstrated the usage significant relationship between awareness of selection and recruitment process and students' career decision making and career choices.
- Demonstrated the usage of career planning and how they would feel comfortable in approaching for career planning.
- Creating awareness of career planning is essential to graduate students to build their future and they are likely to approach their parents first for facilitate with career planning.

REPORT

It is a well-known fact that a student's competency and excellence play major roles with regard to obtaining the readiness to prove himself/herself in the job market and here comes the purpose of holistic education. It is mandatory for a student to get a job in his respective field as his position and salary in various companies or industries act as the deciding parameters of his level of competence and excellence in education. In this way, placement classes on various topics equating with industry needs are arranged in each and every semester for all the students. The placement classes of the 8th semester students for the academic year 2021-2022 (Even Semester) were conducted from 8th April 2022 to 23rd June 2022. The classes were arranged from 3:30 pm to 5pm.

Attendance were strictly monitored with a view to making all the students get benefitted by this programme and obtaining a very good job after the graduation. Totally the class duration was about 13 and half hours including both theory and practical sessions whereas the language lab was utilised for practical sessions. The syllabus was designed in a way of covering most of the key facets of communication under the banner Communication for Placement II, ranging from conversational skills, group discussion, interview questions and mock interview. It was made sure that the students must interact in each and every session so as to make the students more comfortable themselves in learning.

24th December 2021

REPORT

It is a well-known fact that a student's competency and excellence play major roles with regard to obtaining the readiness to prove himself/herself in the job market and here comes the purpose of holistic education. It is mandatory for a student to get a job in his respective field as his position and salary in various companies or industries act as the deciding parameters of his level of competence and excellence in education. In this way, placement classes on various topics equating with industry needs are arranged in each and every semester for all the students. The placement classes of the 8th semester students for the academic year 2021-2022 (Odd Semester) were conducted from 8th October 2021 to 24th December 2021. The classes were arranged from 3:30 pm to 5pm.

Attendance were strictly monitored with a view to making all the students get benefitted by this programme and obtaining a very good job after the graduation. Totally the class duration was about 13 and half hours including both theory and practical sessions whereas the language lab was utilised for practical sessions. The syllabus was designed in a way of covering most of the key facets of communication under the banner Communication for Placement I, ranging from designing the resume, presentation skills, non - verbal communication and communication etiquettes. It was made sure that the students must interact in each and every session so as to make the students more comfortable themselves in learning.

REPORT ON

" Yoga:Relax, Replenish, Revive"

Event Date: 1/01/22

Venue: CIVIL SEMINAR HALL

Resources Person :Dr. Geetharani A.
Director and Founder of
Swami Vivekananda Yoga Shala.

Objectives:

- To create awareness about the effectiveness of Yoga in prevention and cure of diseases among students
- To promote adoption of Yoga for physical, mental, emotional health benefits.

Outcome:

Students understood the importance of good health and to practice mental hygiene. They learnt to possess emotional stability and integrate moral values with them, so that they can attain higher level of consciousness. Demonstrate the ability to create and present various yoga sequences. Demonstrate an understanding of health-related fitness components. Assess current personal fitness levels. Improve personal fitness through participation in yoga, muscular, strength, and muscular endurance activities.

131 students and faculty attended this program.

Feedback Analysis :

Awareness Program on Yoga: Relax, Replenish, Revive

- The Programme met my expectations
- I will be able to apply the knowledge learnt to assess my health issues
- The Resource Person was knowledgeable
- The quality of instruction was good
- Class participation and interaction were encouraged
- Adequate time was provided for questions and discussion
- I really enjoyed the QIP
- The Audio and Video facilities were clearly audible and visible

Evaluation of Final Year Project Work

Evaluator: Prof Murali, Ex Joint Secretary, IETE, Bangalore

Sl No.	Title of the Project Work	Comments of the Evaluator
1	Natural Disaster Detection & Personalized notification System.	* How & where to use not clear. * Components specs not known.
2	Women Safety Device - Night Patrolling Robot.	* Title does not match. * How to make it practical in real life detecting.
3	Internet of things Enabled. Power theft detection.	* Not clear about where the devices are put & for what purpose & by whom.
4	Design and Implementation of Wireless Black Box for Vehicle Tracking and Accident Alert System using Arduino and GPS Module	* Title does not match. * How to implement?
5	Auto billing Shopping cart using Arduino	* ^{Auto} Billing is ok. * The other part not clear for implementation.

Report on Technical talk

on " 5G & thinking towards 6G & final year project demonstration"

Date: 20th June 2022

Timings: 10.00 am to 11.30 pm

Venue: RRIT Seminar hall

Resource person :

1. **Prof. C Murali**
IETE Distinguished Fellow and
Former vice president
IETE New Delhi.

Objectives:

- Introduction to 5G Wireless Communication & applications , requirements, challenges,
- Requirement for 6G Wireless communication .

Outcomes:

- 56 students from ECE department and Faculty were benefited from this technical talk.
- Got exposure to the next level Wireless communication
- Understood the opportunities, Design challenges and requirements.
- Asked questions related to technology and career opportunities.

REPORT

Date: 21/06/2022

Seminar on

"Career opportunities in VLSI and Embedded systems in industry"

Event Date: 20/06/2022

Venue: ECE seminar Hall

Resources Person: Mr. Arun John Mathias
Manager,
CoreEL Technology India Pvt Ltd

Overview:

- The Department of ECE had Organized a seminar on "Career opportunities in VLSI and Embedded Systems in industry" to enhance the Knowledge of VLSI and embedded systems and briefed about job opportunities on them in industries

Objective:

- Introduction to FPGA, ASIC and SoC and its design flows
- Designing FPGA/SoC flow using Xilinx software
- Career opportunities in VLSI and Embedded system industry

Outcome: -

The seminar enabled participants to understand the basics of VLSI field and Embedded Systems. The participants were briefed about the designing of FPGA/Soc flow in Xilinx software. The participants were involved and interacted with the resource person during the session.

The event was successful. We thank the management of RRIT for supporting and giving us the opportunity to organize the online event.

Total numbers of participants are 30.

Hands-on Training Session

On

Total Station

In association with Baseline Survey

18th to 22nd April 2022.

Department of Civil Engineering organized "Hands-on Session on Total Station" in association with Baseline Survey from 18th to 22nd April 2022. This program helps to students to gain the knowledge about modern instruments in civil engineering and as well as exposure to current usage of modern instrument.

The program was inaugurated by Professor and Head Dr. G Sankara, Department of Civil Engineering, RRIT, Bangalore. The program was compered by Prof. Ravi Patil, Prof. Girish G gave welcomed guests, participants and Vote of thanks delivered by Prof. Veerabhadragouda P Patil.

First day of the session begin with Mr. Hemanth M G. In his lecture explained components of total station, principle of total station, application and its usage and also give demo of the instrument.

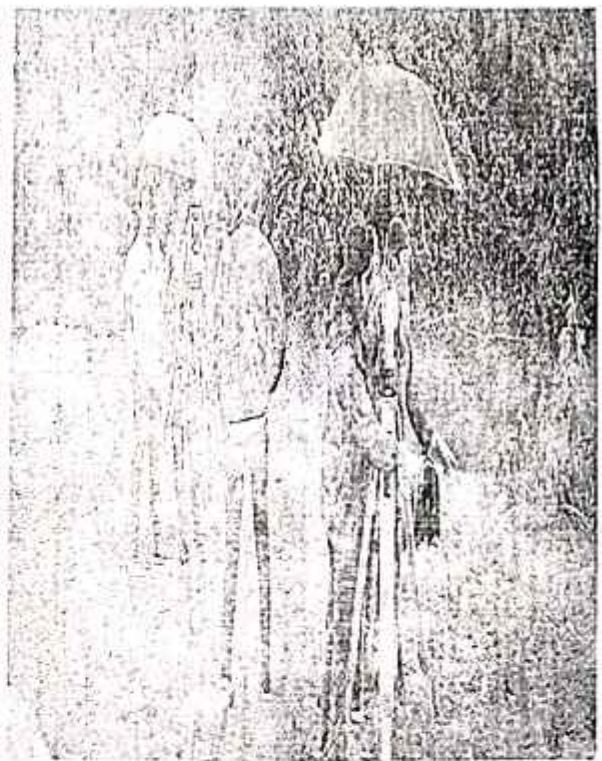

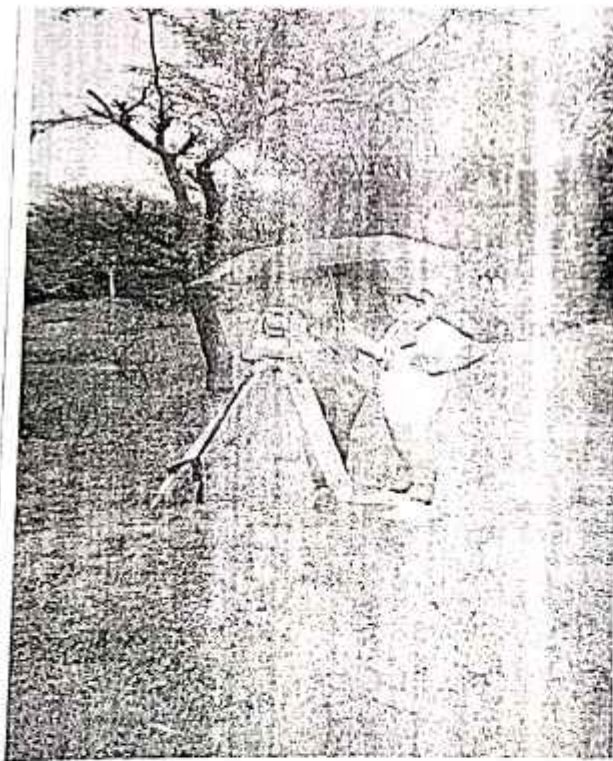

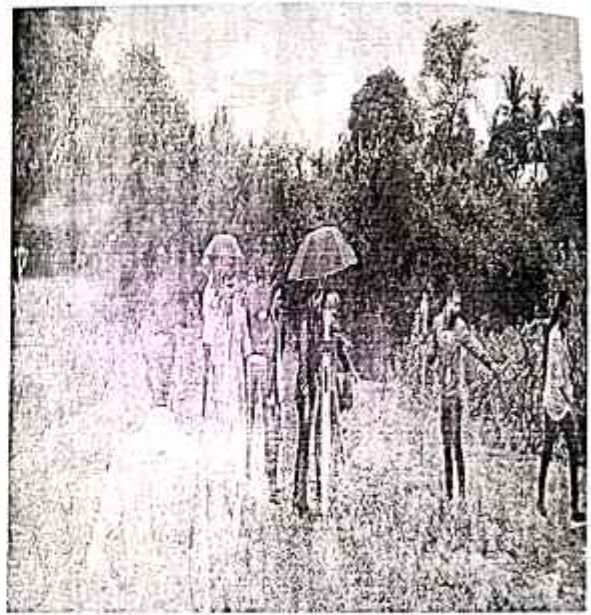

In second session Mr. Hemanth M G and his associates trained the students in the field with practical usage and also made students to understand the equipment, operate and explore.

Field training continued for five days from 18/04/2022 to 22/04/2022 with variety of problem approach, various doubts by the students was cleared by the trainers from Baseline Survey and faculty of civil engineering department.

Report On

"NSDC Certificate Programme on Junior Software Developer"

Event Date : 30-03-2022 to 11-06-2022

Venue: Offline in RRIT Campus

Resource Person: **1. Mr. Mohammad Suhail**
Trainer ,UTL Technologies

2. Ms. Vandana B
Trainer ,UTL Technologies

Overview:

The ERICA -Association of ECE and EEE in collaboration with UTL Technologies Ltd, Bangalore had Organized a Certification Programme in following areas **COMMAND LINE INTERFACE , GIT HUB, SCRUM, HTML, CSS, BOOTSTRAP, JAVASCRIPT, REACT JS, SQL, JAVASCRIPT**

Topics Covered:

Command-Line Interface (CLI) The CLI provides the most granular control over the platform through straightforward interaction with the operation system (ScreenOS).

1. Basics of Programming Like

- Variables
- Data types
- Functions
- Operators

Code Foundations

Mahesh
PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanasavara, Bangalore - 560 090.

2. Software Development Life Cycle (SDLC)

- SDLC Models
- Phases of SDLC
- Methodologies

3. Introduction to HTML and its Elements

- HTML
- HTML Tags
- HTML Structure
- HTML Elements
- DOM Structure
- Frond End Web Development

Dear Sir,

Subject: Submitting a report on TWO day workshop organized for the 4th semester students.

With reference to the above subject, the department of Electronics & Communication Engineering jointly with Electrical and Electronics Engineering department organized a TWO days workshop on "Creative Learning of Digital System Design using Advanced CAD Tool (Microwind Software)" on 10th and 11th JUNE, 2022 for the 4th Semester EEE and ECE Students.

The workshop was basically focused to provide hands on skill training to the 4th semester students on Microwind Tool used in the designing of VLSI ICs.

Sessionwise Activity Report:

10th June, 2022:

9:30 to 11:00AM: Introduction to the Digital System design and verification tools. Importance of designing tools, different types of commercial tools for Digital system design, Demonstration of Microwind tool for digital circuit design and simulation

11:15 AM to 1:00 PM: Hands on training to use the Microwind tool and to design simple gates and combinational circuits. Students could able to use the tool to construct and simulate the digital circuits

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

1:45PM to 4:30 PM: ~~train~~
Microwind software to design as per the specifications
11th June, 2022:

9:15 AM to 1PM: designing of various sequential circuits and simulation
1:45PM to 4:30 PM: Design competition. Students were asked to design innovative
circuits and to verify through simulation. Some of the circuit designed were:

- ❖ 4 bit Multiplier
- ❖ Magnitude comparator
- ❖ Railway signal Control system
- ❖ Complex Multiplexers using 2:1 Mux
- ❖ Encoders for different applications
- ❖ Decade Counters Using MSJK flipflops.

Target PO- PO5: Modern tool usage: create, select, and apply appropriate techniques,
recourses and modern engineering and IT tools including prediction and modelling to
complex engineering activities with an understanding of the limitations.

Organizing Committee:

Dr. Sunitha H D, Professor & HOD, EEE Dept.
Mallesha B Y, Assistant Professor, EEE Dept.,
Mohan Kumar, Assistant Professor, ECE Dept.

Speaker Introduction

Name : Mohan Shamanna.

Qualification: Diploma in mechanical engineering & B.E in mechanical engineering.

Designation: Founder and Chief Mentor.

Contact Details: Email: ceo@indoskill.in

Mobile: 9743396604 / 9738802359

Company: Aqmenz Automation Pvt Ltd, Edtech Training Tread mark: IndoSkill.

About Company: Aqmenz Automation Pvt Ltd is incorporated in the year 2018, By Mohan Shamanna and Mohammad Azhar. Aqmenz Automation Pvt Ltd team is taking a holistic approach towards personally assisted hands-on training on Real-time Industrial projects.

The advantage of one-on-one training allows students to interact directly with industrial experts through remote access control. Which enables them to shape their professional skills to meet industrial demands.

Aqmenz Automation Pvt Ltd has now trained around 10000+ students under various skill-oriented training programs.

Major Projects Handled:

1. **Company:** Precitec

Project Name: SARVA, 7-axis Milling Machine

Role: Design Engineer (Handled 3-axes)

Report of workshop on
"PYTHON CODING WITH APPLICATION PROJECTS &
SOLUTIONS"

Date: 18th Jan 2022

About the workshop – Department of Mechanical Engineering had organized workshop on "python coding with application projects & solutions" from 13th Jan 2022 to 15th Jan 2022 in association with AAPL - Aqmenz Automation Pvt. Ltd., Bangalore. The workshop intended to enhance the knowledge and skills of students & faculties. It gives exposure in the field of industrial automation.

Workshop was organized in association with AAPL - Aqmenz Automation Pvt. Ltd., Bangalore. All students benefited from this seminar.

Resource person:

Mohan Shamanna
CEO
IndoSkill

Mohammed Azhar Hussain.
Co-founder & CTO
IndoSkill

No. of participants: 26

Program Outcome:

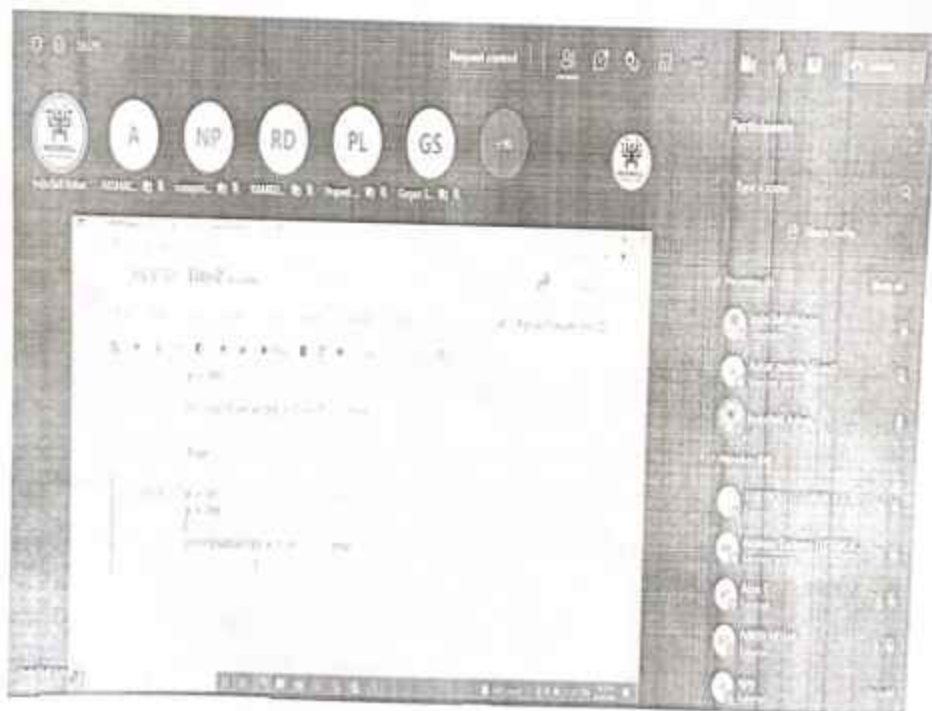

Students were able to understand some basics and significance of Python Programming. It included -Introduction to Anaconda Software and Installation, Python Program Basic Structure, Basic Programming Concepts, Data Types - Numbers, Strings, Lists, Tuples, and Dictionaries etc.,

Further students were made to understand and solve the Real-Time Industry Application Projects. Then students learnt Python Libraries & their Usage. Students got introduced to Basic Concepts behind Machine Learning & Deep Learning. Further, trainer also discussed about how mechanical engineering can be related to Machine Learning & Deep Learning

Three days Workshop on Internet of Things (IoT) & its applications

TOPICS TO BE COVERED

Day-1

1. Introduction to IoT, IoT hardware ,software and Applications
2. Introduction to Arduino IDE, Installing and setting up an IDE
3. Overview of Node MCU ESP8266, Fundamentals of
4. Programming and Hands-on with node MCU ESP8266
5. Introduction to Sensor and actuators, types of sensors and working of sensors.

Day-2

1. Introduction to ThingSpeak cloud and working with Thing Speak.
2. IoT based Soil moisture level indicator
3. IoT Temperature and Humidity monitoring system.
4. Introduction to Blynk IoT Server
5. IoT Air quality meter to measurement and monitoring Air quality.

Day-3

1. IoT home security system using PIR sensor
2. IoT Speed Control of and Induction motor (Blynk App)
3. Introduction to Raspberry Pi & GPO programs.

Report of workshop

15.12.21

3 days hands on workshop on "IOT & its applications"

Date: 22,23 & 24 December 2021

Timings: 09.30 am to 4.30 pm

Venue: Off line

Resource person :

1. Prof. Anil Kumar K. BE, M.Tech (Ph.D)
Assistant professor, Dept. of ECE, AleMS,
Resource person, Ambient Technologies,
Bangalore.

Objectives:

To train the Students of ECE, EEE, CSE & ISE with hands on IOT & its applications, creation of CLOUD, fundamentals of programming using aurdino IDE, installations and projects on IOT using SENSORS & GPIO using Raspberry Pi.

Outcomes:

- 28 students from ECE and lab instructors were benefited from this workshop.
- Students were given an exposure to IOT and Sensors like, Humidity sensor, Moisture control sensors, Soil testing, etc, and their technology with hands-on using BLYNK APP.
- Motivated the students to try their best to implement any similar projects using IOT and sensors.
- Test was conducted after the course completion and all students were actively participated in the test.

Resource person awarded two top scorers with IoT kit.

Top Scorers:

SL. NO	Name of the Student	USN	Branch
1	Kiran C B	1R118EC006	ECE
2	Gagan Kumar	1R118EE003	EEE
3	AbdulZelani-Special awardee (Based on his Performance)	1R118EE400	EEE

Report on Certification Course

8 days online Certification Course on "Embedded Systems with Micro Controller Real Time Applications"

Date: 9th May to 17th May 2022

Timings: 9.30 am to 1 pm

Venue: Offline

Resource Person:

1. **ECE & EEE faculties.**
RRIT, Bangalore.
2. **Mr. Vijay Mahantesh**
Technical Director
Cleverbit Solutions

Objectives:

- To motivate and provide a broader exposure of the application of microcontrollers beyond the conventional microcontroller 8051.
- To ignite the students to get interested in learning, understanding and using advanced microcontrollers like MSP430XX devices.

Outcomes:

- 30 participants were benefited from *the certification course.*
- Students were given hands on exposure on MSP430 kit.
- Industrial visit helped the students to know about the real time projects which are helpful to the society.

Department of Electronics & Communication Engineering

Day-1 (Session 1): Dr. Sunitha H D

Topic: Introduction to Embedded system with Microcontroller.

Brief introduction about the architecture of microcontroller and instruction sets were taught in the session.

Day-1 (Session 2): Prof. Sugnyani Patil

Topic: Introduction to MSP-430.

Students were taught about the architecture of MSP 430 and its instruction set.

Day-2 (Session 1): Prof. Sugnyani Patil

Topic: MSP-430 programs and applications.

Basic programs on assembly language were explained.

Day-2 (Session 2): Prof. Parimala Gandhi

Topic: Introduction to Arduino-Uno-Rev3 and Special Pin Function

Introduction about Arduino Uno and about the pins to be used for interfacing were discussed during the session.

Day-3: Prof. Chitharanjan Das V

Topic: Introduction to ARM-Cortex Microcontroller

Brief introduction about the ARM instructions and the architecture were taught.

Day-4: Prof. Chitharanjan Das V

Topic: ARM-Cortex MC and its real time application with programs

Students were given hands on exposure to STM32 kit. Interfacing with different peripherals was taught.

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

Students were taught about the usage of simulators and provided hands on training on the microcontroller.

Day-6: Prof. Mohan Kumar B N

Topic: Implementation and execution of Intelligent High Power LED Street Light Control System Model

Day-7: Prof. Mallesha B Y

Topic: Implementation and execution of Real Time Water Quality Measurement System based on GSM

Students were taken to the industrial visit for Knowx Innovations which is located at Vijayanagar, Bangalore. They were given exposure on real time projects.

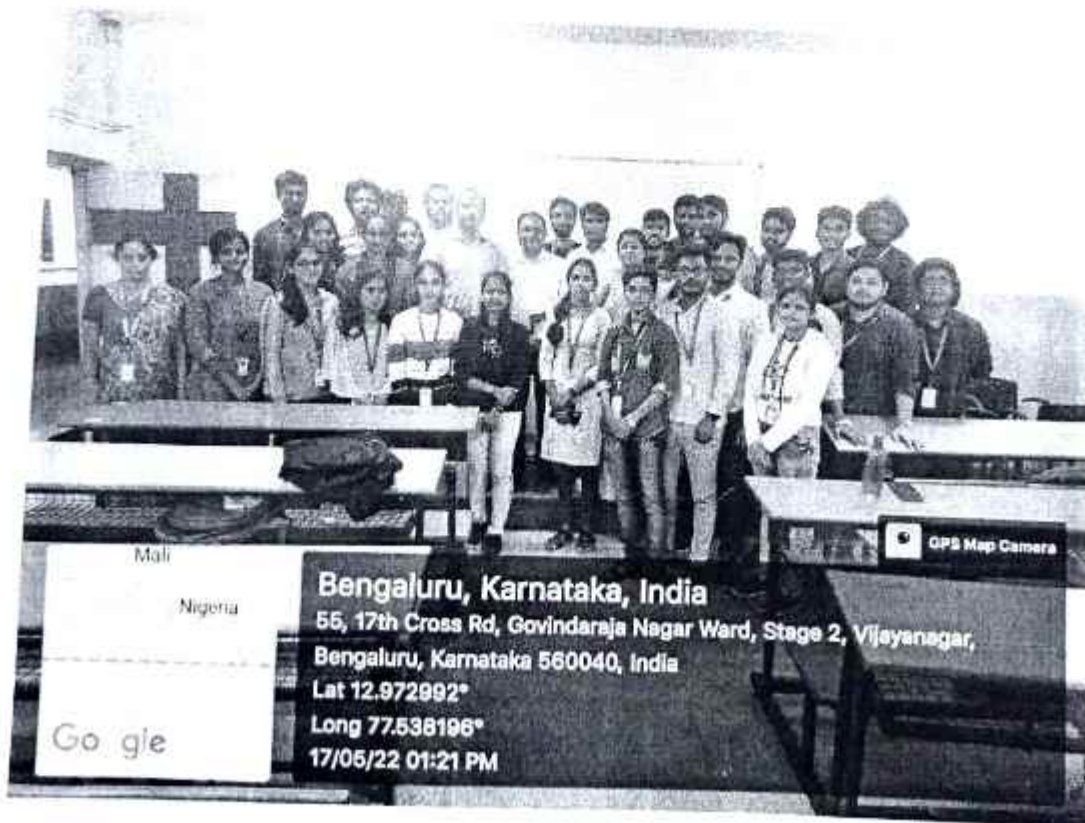

Mallesha B. Y.
PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

Day-8: Prof. Shadakshari

Topic: Implementation and execution of Automatic Room Light Intensity Based Window Blind Control System

In this session, students were given hands on exposure about real time projects. Resource person gave the glimpses of the usage of arduino board on tinkercad software.

Feedback Questions	Scored %
The Program met my Expectations	89.23
I will be able to apply the Knowledge i have learnt	87.69
The Resource person was Knowledge	87.69
The quality of Instructions was good	86.15
Adequate time was provided for questions and discussion	84.61
Hands on experience met my expectations	86.15
The programme was well paced with the allotted time	86.15
Overall Programme was Excellent	87.69
Overall Average Percentage	86.92

Feedback

- The Program met my Expectations
- I will be able to apply the Knowledge i have learnt
- The Resource person was Knowledge
- The quality of Instructions was good
- Adequate time was provided for questions and discussion
- Hands on experience met my expectations
- The programme was well paced with the allotted time

Report on Guest lecture "Enterprise Resource Planning-Systems Applications, and Products in Data Processing"

Event Date: 20-12-2021

Venue: Seminar Hall

Timing: 11:30 am-1:00 pm

Resources Persons:

- (1) Mahesh TS
Project Manager
Syslog Technologies
Bengaluru
- (2) K. ShashiKiran
Technical Head
Pragmatic Embedded Solutions
Bengaluru

Objectives:

1. To familiarize the students with "ERP-SAP" Technology
2. Guidance to develop the career on SAP Products
3. Guidance to projects in ML and Embedded product Design

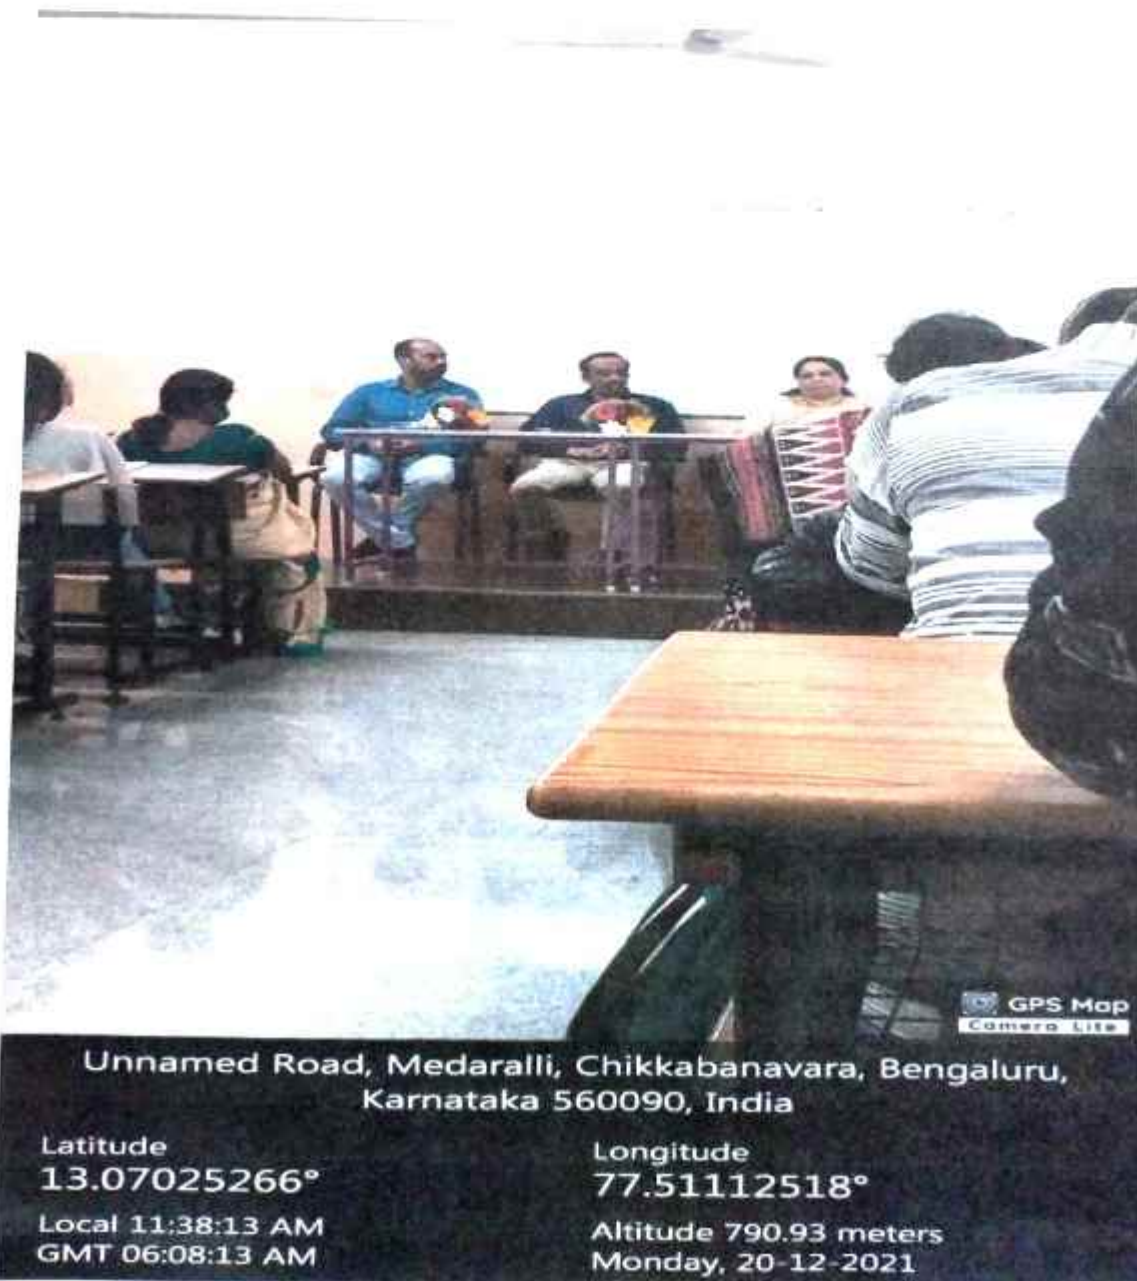

Outcomes:

- 48 participants were benefited from seminar.
- Students got a good exposure to ERP-SAP
- Motivated the students to try their best to start a career in SAP.
- Resource person was good in interacting with students. And the session was informative and helpful for the students.

Report on 30hrs Certificate program on

“Training Program on Analysis of RCC and Steel structures using STAAD Pro” 2021-22

Department of civil engineering conducted certificate program on “Training Program on Analysis of structure using STAAD Pro from 08/11/21 to 13/06/22” STAAD Pro is a structural analysis and design software which is widely used to analyse and design structures for bridges, towers, buildings, transportation, industrial and utility structures. The software has now its latest version, STAAD Pro with new and improved features. The STADD Pro can now analyze and design any engineering structure. The course is designed to offer students and professionals all the essentials to learn and use the STAAD Pro.

The course contains some of the most powerful modules to gain expertise in the tool. Some of the modules of the course are:

- Introduction to structural engineering
- Introduction to STAAD. Pro
- STAAD editor
- Geometry creation- Node, Beam
- Constants, Supports, and Specifications
- Model generation using translation repeat
- Defining and assigning properties
- Defining and assigning loads- floor load, wind load
- Analysis of simply supported beam and portal frame
- Frame structure model generation
- Load combination
- Creation of mesh
- Analysis of shear wall in frame structure
- Generation of report – Rendered view
- Member truss
- Water tank analysis
- Design of lift room
- Design of combined footing
- Steel Design
- Report generation

Week 1: Introduction to structural engineering, Introduction to STAAD Pro., Getting familiar with STAAD window Model generation using STAAD editor. (08/11/21 to 11/11/21)

Stands for Structural Analysis And Design Program All structural analysis software generally consists of three parts: ♣ Pre Processing: Generates the model, assembles and organizes all data needed for the analysis. ♣ Processing: Calculates displacements, member forces, reactions, stresses, etc. ♣ Post Processing: Displays the results. STAAD Pro Workflow Process:

Week 2: Introduction to Snap Node/Beam Editor, Model generation using node/ beam 29/11/21 to 02/12/21

Node	X ft	Y ft	Z ft
1	0.000	0.000	0.000
2	0.000	10.000	0.000
3	12.000	20.000	0.000
4	27.000	20.000	0.000
5	39.000	10.000	0.000

Report

Six days Certificate Programme on "Introduction to Java and its Applications"

Event Date : 13-11-2021 to 18-12-2021 (Only Saturday)

Venue: Offline

Resource Person: Ms. Sangeetha C

Alumina student (1RI13EC049)

Associate Consultant VLSI at VTU Extension Centre, UTL Technologies, Bengaluru.

Overview:

The programme is to provide basic knowledge of Java. The primary objective of Java programming language is to create portable, simple and secure programming language and also would help students in their placements

Topics Covered:

Day 1: 13-11-2021

Introduction to Java Programme

- ❖ What is Java?
- ❖ Java platforms, java applications, history of java

Day 2: 20-11-2021

Java Structure

- ❖ Features of java, internal details of programming, first program to print hello world
- ❖ Variable in Java
- ❖ Data Types in Java

Day 3: 27-11-2021

- ❖ Keywords in java
- ❖ Operations in Java
- ❖ Conditional statement in java

Day 4: 04-12-2021

- ❖ Java object class
- ❖ Encapsulation and inheritance
- ❖ polymorphism and abstraction

REPORT

Webinar on "Career opportunities in overseas Education"

Event Date: 23/12/2020

Time: 11 A.M

Platform: Microsoft Teams Meeting App

Resources Persons:

1. Mr. Prasanna Poojary
Managing Director,
Lokabh International India, Bengaluru.

Overview:

The Department of Electronics and Communication Engineering and Internal Quality Assurance Cell (IQAC) in Association with Lokabh International India, Bengaluru have organized a Webinar on "Career Opportunities on overseas Education" on 23rd December 2020 to give an insight into Process and Procedures involved to apply for overseas education and known about placement opportunities in abroad.

The sessions started by Welcoming the speaker and Audience by Prof. Parimala Gandhi G.IQAC Coordinator and the Speaker was introduced to the participants by Dr.Sonitha H.D, Professor and Head, Department of Electronics and Communications.

Topics Covered :-

- i. Education Applications Procedure to study in European Countries (UK/Germany/Italy)
- ii. Fee requirements & Scholarship schemes in various Universities.
- iii. Part time job available during study time.
- iv. On completion of the courses the Job opportunity in Overseas.

The few participants have raised the questions which was clarified by the Resource person.

Outcomes: -

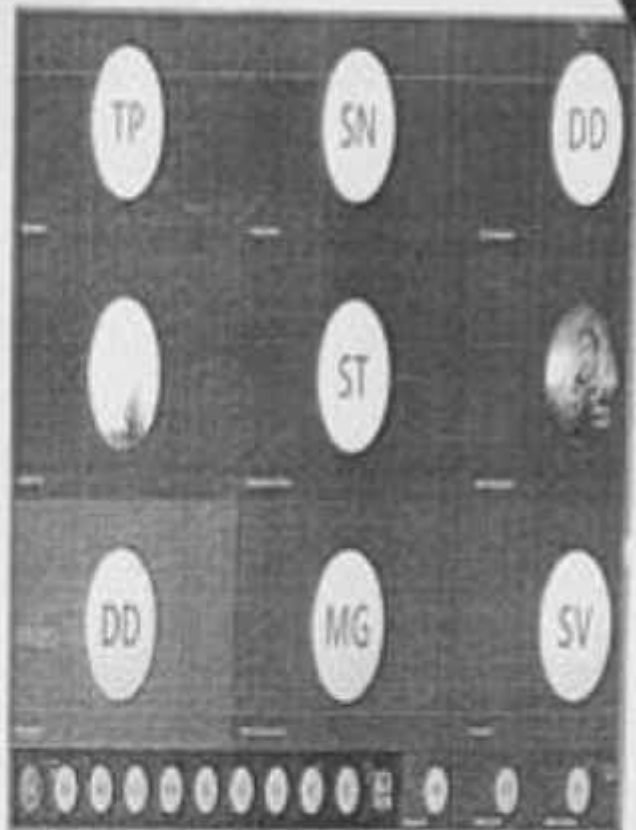

The program has given a clear guideline on overseas education and which encouraged participants to look for overseas opportunities to start their carrier after graduation.

Oral and Online feedback have collected from the participants and All the Participants have expressed that the session was more informative and useful. The participants have given a valuable suggestion to conduct more such programs in future.

Report for the Awareness Program on "Study Abroad Opportunities & Visa Guidance"

Department of CSE and ISE conducted Awareness Program "Study Abroad Opportunities & Visa Guidance" on 19th October 2020. Session Started at 3.00 pm by welcoming the Management, Qac, IQAC, Principal, HOD, Students, and staff of RRIT.

The awareness program was conducted through **Zoom App** with total **71** members which includes **05** Faculties and **66** students.

The awareness program highlights:

1. Experience more engaging & active learning style with a degree recognized worldwide.
2. Explore global perspective with real-time exposure to develop professional skills.

The Speaker **Ms. Shashirekha – Destination Manager–Australia** explained in detail about the Opportunities for Study abroad with professional skills and **Ms.Sharmila – Destination Manager–UK & Ireland** explained in detail about global perspective with real-time exposure to develop professional skills and towards their traditions. The Session ended around 5'o clock in the evening.

The questions asked by faculties and students in the program were well answered by the speaker. At the end of this awareness program the participants will were able to start understanding their goals & take proactive measures to enhance professional development and gradually they become Self-disciplined while facing new challenges in a foreign land.

Report on Awareness Programme “Career Pathway and Study Abroad Opportunities” on 21st May 2021.

Department of CSE in association with ISE had conducted Awareness Programme on “Career Pathway and Study Abroad Opportunities” for all 4th, 6th, 8th semester and pass out students of Computer Science and Information Science Students on 21st May 2021. The Session Started at 3 pm by welcoming the Management, Qac, Iqac, Principal, HOD, Students and Staff of RRIT.

The program was conducted through AECC Global, India–Student Services, Bangalore and 50 students were participated in the event. The program was conducted online under AECC Global platform and session focused on “Why should we consider studying abroad?” Prasad S, Asst. Manager, started the session on several top reasons for studying abroad, and some features of International Education Reimagined AECC Global.

The Awareness Program highlights:

- Study abroad opportunities – Australia, Canada, Ireland, New Zealand, UK and USA
- AECC GLOBAL Student services.
- Entry requirements for study abroad.
- Exams to be taken for study destinations – IELTS, PTE, TOEFL, GMAT, GRE.
- Scholarships and Career Opportunities in abroad.

Report of a Program on "Comprehensive Career Guidance and Exploration" on 9th June 2021

The Department of ISE, organized a Program on "Comprehensive Career Guidance and Exploration" on 9th June 2021. The purpose of this Program is to demonstrate a clearer understanding of the career exploration process and how their own skills and interests match up to a chosen major/career path. The event began at 10.45 am, by welcoming the Management, Qac, Iqac, Principal, HOD of ISE&CSE, Students and Staff of RRIT and also by welcoming the speaker Dr. Manjunath T.N by Prof Geetha.R. This program began with building the skills and interests in understanding the career path and continued with covering the syllabus of VTU and how the students can concentrate to get knowledge and to reach the goal.

Session 1:

Introduction to Engineering students Time lines, Entry, Exit and the Placements' This session was handled by Dr. Manjunath T.N Professor, Department of ISE, BMS Institute of Technology and Management, Bengaluru, number of attendees were 34. The event started at 10.45 and ended at 11.55. He discussed the expectations of the students in engineering. Project based Learning, Preparing to attend GATE/GRE/GMAT if planning for higher studies, Good project leads to get better placement and how to stay focused until you reach your goal.

Session 2:

The session 2 started at 12.10 and attendees were 34 in a meeting, session was started by Dr. Manjunath R, Department Head of CSE and ISE, RR Institute of Technology, Bengaluru a talk on How to plan for a career by understanding what you want to become in life, by knowing yourself, exploring the opportunities, decision making and taking actions. Session also went by informing the importance of GATE exam and also about importance of Computer and Information Technology occupations/employment along with the value of Computer and Information Science.

Department of Strategy corporate communication Report

R R institute of technology organized the Placement Activity on "**Career Progression & Development**" on 28/10/2020 at 10.00 AM through Zoom Platform for 3rd sem, 5th and 7th sem students.

The speaker for the day was **CAPT. A. Nagaraj Subbarao**. He is a Master Mariner and specialized in Navigation, Ocean Engineering and Harbour Construction. He also has an MBA and M.Phil. in Human Resource Management with a specialization in People Management from the University of Minnesota, Carlson School of Management (USA), and also a specialization in Leadership and Strategic Management from the University of Illinois at Urbana Champaign (USA). He carries two decades of experience in the shipping industry both in India and abroad and commanded highly specialized state of the art ships for close to a decade leading teams, often in extremely adverse conditions.

Over view of the:

Career management is a must if you expect to gain maximum success and happiness from the hours you invest in work. Developing your talents and skills will stretch your world and enable more of your unique contribution. This, in turn, can make your career successful.

Opportunities

Many people have not thought past their current study or the next promotion they'd like to receive. They need to broaden their short-term thinking. As students are promoted up the organization chart, yet continuing to grow skills and experience should still be a priority for people obtaining value from and adding value to their career.

Set goals and create a plan to achieve them.

Could your career development and management use help to gain momentum. People who are the most successful and satisfied in their careers have proactively determined what they want from work.

Develop a timeline, including milestones.

Bringing your boss and their sponsorship and mentoring into the picture will ensure that you have an internal mentor who will help you manage your career.

Utilize company programs.

Some companies have formal programs to help employees develop their careers. In others, you will need to informally pursue your career development. Companies with programs generally focus energy on helping employees develop and follow a career path.

A career can be defined as a person's progress within an occupation or series of occupations. However, a career is more than just a job, or working, or your occupation. It also includes your progress through life, your growth and development in vocational and avocational areas of life. Many of us think that there is only one occupation that is best suited for us, but there are really several that may be good choices. The secret is to identify those occupations in which you have a high probability for success and happiness. As a college student, whether your career goals are accounting, theatre arts, or environmental sciences, there are general skills which will be required regardless of the career you pursue.

Key points of Activity:

A guide to writing a human resources resume. How to describe your experience on a resume for Human Resources to get any position you want. If you miss this step, the executive might get interested by another HR candidate's social. Be professional: Dress as you would for an interview and maintain a professional demeanor. Find a good background:

the tips to write a career objective for your resume, below are

Malathi

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

- **Be truthful and transparent:**

Being transparent and honest about your ruthless is mutually valuable for you and your future employer. Through this way, it can help employers to figure out quickly how hardworking and aspired person you are and know how to formulate roles better suited for you, including contribution more modified learning and development opportunities and receiving you the most appropriate mentor.

- **Keep it short:**

A resume is a document which comprises of all the detailed information about you. And the objective section is one of them which is best suited at the top of all the information below the contact information. Making it short and appealing will oblige employers to find out what the rest of your resume has to present. It will be good if you compose it in 3 to 5 lines maximum and the point.

- **Make your resume objective specific to the job role:**

It is same as you modify your resume according to every organization and the position you apply for. Scripting career objective for each part requires some research and which can only be done when you prefer to do in-depth research about the company's size, value, mission & vision, their history etc.

- **Grammar Check:**

It may be a small piece of the section in your resume, but there shouldn't be any grammatical error or spelling mistakes in it. If in case, a recruiter catches some error then that could be a disappointment for you to lack behind due to minor mistakes. So make sure when writing the resume objective, it should be error-free with no wrong sentences or words phrases in it.

EVENT REPORT

Student Development Programme on "Career Series Talk - Expert Guidance for Higher Studies"

Date: 30/06/2021

The Department of Civil Engineering had organized student development programme on "Career series talk - Expert guidance for higher studies" for civil engineering students on 24/06/2021. The programme was conducted on virtual platform by using Google Meet app. We have invited Er. Sarode Rohit Vinayakrao, Assistant Structural Engineer, W S Atkins. Dr. Praseeda E delivered welcome speech. Dr. G. Sankara, HOD, Dept. of Civil Engineering delivered the significance of the career series talk. Vote of thanks was delivered by Prof. Nagarjun Gowda.

Highlights of SDP

- ❖ He introduces students to the nature and scope of the work done and explain about the skills necessary to perform certain job functions.
 - ❖ The talk also helped to excite and motivate students about their career options and opportunities available to them.
 - ❖ It also helped to equip students with the inspiration and information to make better-informed decisions about their future career paths
 - ❖ He also explained about the steps students should take in career exploration which help to guide in making positive, well informed educational and career decisions.
 - ❖ Speaker explained about the significance of Graduate Aptitude Test in Engineering (GATE).
 - ❖ He explained the importance of GATE exam and GATE score to students. He also explained that a valid GATE score is essential for obtaining financial assistance during Master's programs and direct Doctoral programs in Engineering/Technology.
- ❖ ENCLOSURES: Screen shots are available

Report of International seminar on
“CAREER PATHWAY and STUDY ABROAD OPPORTUNITIES”

Date: 15th July 2021

About the Seminar– Department of Mechanical Engineering had organized one day International seminar on **“CAREER PATHWAY and STUDY ABROAD OPPORTUNITIES”** on 15th July 2021. The seminar was intended to provide a platform for students to get to know about the opportunities present in different parts of the world for higher studies and jobs.

Webinar is organized in association with AECC Global. All the Students were benefited from this webinar. Livestorm was used to conduct seminar.

Objectives of the Seminar

- Opportunities to study in abroad.
- Essential requirements to study in abroad.
- Exams to be taken for study destinations.
- Scholarships and Career Opportunities in abroad.

Resource person:

Mr. JOEL NORONHO
Head of Operations,
Karnataka & Kerala
AECC Global

Program Outcome:

Students came to know about the opportunities present in abroad for higher studies and jobs. Career spotlight and importance of higher education. Also overcoming the challenges that studying abroad presents and thriving in new circumstances and improving their resilience.

No. of participants: 56

16th July 2021

REPORT

It is a well-known fact that a student's competency and excellence play major roles with regard to obtaining the readiness to prove himself/herself in the job market and here comes the purpose of holistic education. It is mandatory for a student to get a job in his respective field as his position and salary in various companies or industries act as the deciding parameters of his level of competence and excellence in education. In this way, placement classes on various topics equating with industry needs are arranged in each and every semester for all the students in an online mode. The placement classes of the 8th semester students for the academic year 2020-2021 (Even Semester) were conducted from 7th May 2021 to 16th July 2021. The classes were arranged from 3:30 pm to 5pm.

Attendance were strictly monitored with a view to making all the students get benefitted by this programme and obtaining a very good job after the graduation. Totally the class duration was about 13 and half hours including both theory and practical sessions whereas the language lab was utilised for practical sessions. The syllabus was designed in a way of covering most of the key facets of communication under the banner Communication for Placement II, ranging from conversational skills, group discussion, interview questions and mock interview. It was made sure that the students must interact in each and every session so as to make the students more comfortable themselves in learning.

REPORT

It is a well-known fact that a student's competency and excellence play major roles with regard to obtaining the readiness to prove himself/herself in the job market and here comes the purpose of holistic education. It is mandatory for a student to get a job in his respective field as his position and salary in various companies or industries act as the deciding parameters of his level of competence and excellence in education. In this way, placement classes on various topics equating with industry needs are arranged in each and every semester for all the students in an online mode. The placement classes of the 8th semester students for the academic year 2020-2021 (Odd Semester) were conducted from 14th September 2020 to 27th November 2020. The classes were arranged from 3:30 pm to 5pm.

Attendance were strictly monitored with a view to making all the students get benefitted by this programme and obtaining a very good job after the graduation. Totally the class duration was about 13 and half hours including both theory and practical sessions whereas the language lab was utilised for practical sessions. The syllabus was designed in a way of covering most of the key facets of communication under the banner Communication for Placement I, ranging from designing the resume, presentation skills, non - verbal communication and communication etiquettes. It was made sure that the students must interact in each and every session so as to make the students more comfortable themselves in learning.

IQAC & ICC

RRIT/ICC/2021-21/

Date: 30/03/2021

Report on "An Awareness Program on Gender Parity and Happiness Management"

An Awareness Program conducted on "Gender Parity and Happiness Management" was organized by Internal Complaint Committee (ICC) and Internal Quality Assurance Cell (IQAC) on March 10, 2021.

The Programme begin with welcoming the guest Bhavyata Jethva and Dr. Mahendra K V, Principal, RRIT by Prof. Anita Shettar along with plants as token of appreciation. ICC committee was represented by Mr. Girish.G with a note on significance of the day. Speaker takeover the hall with power point presentation.

The Objectives / Topics covered in Power Point Presentation and Activities:

1. Gender equality - the need of today
2. Responsibility
3. Happiness management*

Report on Session

Speaker was clear to the said topic and a good active interaction session held about 40min with students and faculty attended in the program. Positive responses and active participation have been seen in the programme hall. Finally session was end with RRIT memento as token of gratitude by Dr.Parimala Gandhi, Dept of E&C, RRIT.

Report on Online Awareness program on "Health fitness and Wellness"

Held on 29th December 2020

The Department of Computer Science and Engineering Conducted Online Awareness program on "Health fitness and Wellness" held on 29th December 2020. A special welcome was extended to Speaker and all the participants by Dr. Manjunath R, HOD of CSE & ISE.

Awareness about physical fitness exercise and health is essential for everyone. The aim of the current program was to get people aware of the physical fitness and healthy habits. The Speaker K P Martin explained about Physical activity (PA) is an important factor in health promotion and disease prevention, and physical inactivity is linked with many chronic diseases and their risk factors (1). Therefore, PA recommendations have been established in order to give information to people of what is, in general, a minimum amount of PA to improve health. Total 76 Participants have attended the awareness program.

- * Wellness is the integration of many different components (mental, social, emotional, spiritual, and physical) that expand one's potential to live (quality of life) and work effectively and to make a significant contribution to society.
- * Wellness reflects how one feels (a sense of well-being) about life as well as one's ability to function effectively.
- * Wellness, as opposed to illness (a negative), is sometimes described as the positive component of good health.

Quality of Life: A term used to describe wellness. An individual with quality of life can enjoyably do the activities of life with little or no limitation and can function independently. Individual quality of life requires a pleasant and supportive community.

Activity days: A self-rating of the number of days (per week or month) a person feels that he/she can perform usual daily activities successfully and in good health.

Illness: Illness is the ill feeling and/or symptoms associated with a disease or circumstances that upset homeostasis (Stable condition).

Health

- Good health is of primary importance to adults in our society
- A survey about important social values, 99 percent of adults in the United States identified "being in good health" as one of their major concerns.
- Two other concerns expressed most often were good family life and good self-image.
- Health varies widely depending on income, gender, age, and family origin.
- Self-ratings of health have been shown to be good general indicators of health status.
- It is evident that many more people in poor or near-poor income groups are considered to be fair or poor in health as opposed to good or excellent.
- Majority women are also likely to be classified as fair or poor in health
- There is good evidence that older adults are especially likely to report poor health and wellness.

Wellness is the positive component of optimal health

- Death, disease, illness, and weakening conditions are negative components that take away from optimal health.
- Death is the ultimate opposite of optimal health.
- Disease, illness, and weakening conditions obviously detract from optimal health.
- Wellness has been recognized as the positive component of optimal health as evidenced by a sense of well-being reflected in optimal functioning, a good quality of life, meaningful work, and a contribution to society.
- Wellness allows the expansion of one's potential to live and work effectively and to make a significant contribution to society.

Report SDP on

"Awareness on rural development" on 21st November 2020

Department of civil engineering organized an awareness program on Awareness on rural development on November 23rd 2020. The program was conducted to create an awareness among students about rural development. Rural development is a term that concentrates on the actions taken for the development of rural areas to improve the economy. However, few areas that demand more focused attention and new initiatives are:

- Education
- Public health and Sanitation
- Women empowerment
- Infrastructure development (electricity, irrigation, etc.)
- Facilities for agriculture extension and research
- Availability of credit
- Employment opportunities

Main Objectives of Rural Development was discussed:

The objectives composed by the government in the sixth five-year plan for rural development are:

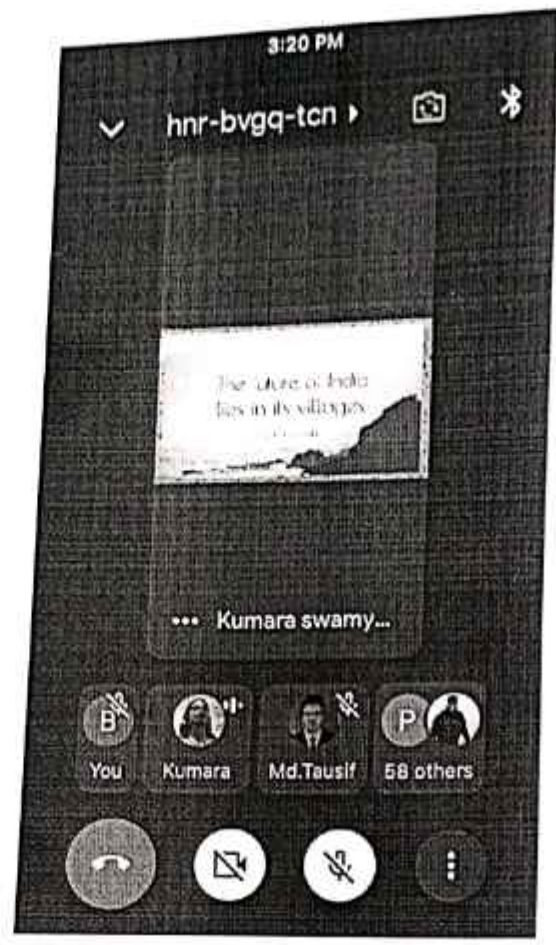

- To improve productivity and wages of rural people
- To guarantee increased and quick employment possibilities
- To demolish unemployment and bring a notable decline in underemployment
- To guarantee an increase in the standard of living of the underprivileged population
- To provide the basic needs: elementary education, healthcare, clean drinking water, rural roads, etc

Outcome:

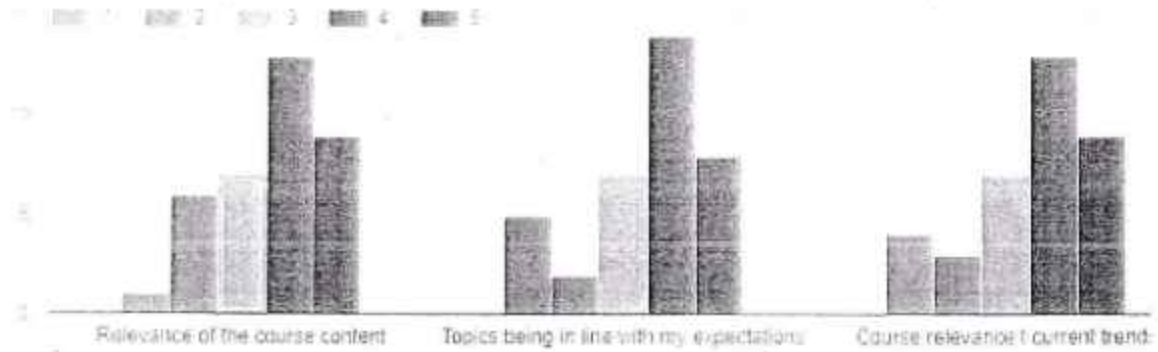

Cleanliness is very important whether it is our home, workplace , or public places. It is one of the very basic needs of a Civilized lifestyle. Mahatma Gandhi, the father of our nation gave the mantra ‘Cleanliness is Godliness’.

All the Participants expressed session was more helpful in learning the Basics of solar system events in future.

Two days workshop on "Hands on Web Development with Java Script"

On 22nd & 24th July 2021

RRIT organized Two days workshop on "Hands on Web Development with Java Script" was conducted by Department of Computer Science and engineering on 22nd & 24th July 2021. The session was well attended by students and faculties of R R Institute of Technology. The workshop started at 2:00 pm on 22nd July 2021 and 1:00 pm on 24th July 2021 by welcoming the speaker by Prof. Veena V on behalf of Management, Principal and HOD CSE & ISE to the workshop, which was held on 22nd July through Zoom meeting platform with total number of 45 participants including Faculties, Students

Highlights

- HTML tags and JavaScript Language programming concepts and techniques.
- Web page development
- Write, Test, and Debug web pages using HTML and JavaScript.

Report of a Student Development Program on "Insights into Cloud Computing" on 17th July 2021

The Department of ISE, organized a Student Development Program on "Insights into Cloud Computing" on 17th July 2021. The purpose of this Program is to determine the cloud computing adoption in a developing country context through the lens of the technology, organisation and environment framework. The event began at 1.00pm by welcoming the Management, Qac, Iqac, Principal, HOD of ISE&CSE, Students and Staff of RRIT and also by welcoming the speaker Mr. Dayananda N by Prof Geetha.R. This program began with the introduction of Cloud Computing Concept to ensure that the individuals and enterprises need not be limited by the applications on their desktops.

Session :

This session was handled by Mr. Dayananda N, Software Architect CGI India Bengaluru, number of attendees were 25. The event started at 1:00pm and ended at 2:30pm. He discussed the services, applications and utilities needed in the performance of the work can be simply hosted in the "cloud" or by the particular provider which needs an internet connection and a browser to access them. It encompasses everything from file synchronization to traditional desktop replacements to an entire IT infrastructure.

Nowadays, cloud computing is evolving at a dizzy speed and enterprises of all sizes are venturing into this technology. It is due to the use of software and hardware delivered as a service over the internet. Here are some key advantages of cloud computing:

- Highly Scalable,
- Storage Flexibility,
- Endless Potential,
- Enhanced Sharing,

Department of Information Science & Engineering

Streamlining Costs.

He also discussed about different levels of abstraction in cloud computing like

- Infrastructure as a Service (IaaS): Hardware for storage, network and similar functions, are delivered as a service.
- Platform as a Service (PaaS): Application platform components like databases, messaging infrastructure and application runtimes, are delivered as a service.
- Software as a Service (SaaS): Core business applications like CRM, ERP applications, HCM and email, are delivered as a service.

Three major cloud solutions:

- Public Cloud: It is available for anyone on the internet and shared by thousands of customers worldwide. It's the easiest and cost effective cloud strategy to employ.
- Private Cloud: It is only available for a specific group of consumers, typically an organization. The advantages of private cloud over the public cloud include: security vulnerabilities, legal concerns, no restrictions of network bandwidth.
- Hybrid Cloud: It is the mixture of above two. Its advantages include: reliable connectivity, cost saving, no vendor lock in, etc. It's the best among the three cloud solutions.

Cloud computing can change the entire IT industry, providing the latest solutions to run enterprises smoother.

Session got ended at 2.30pm by concluding the vote of thanks to the speaker.

Report on Online Guest Lecture

The Department of Electrical and Electronics Engineering organized an online Guest Lecture on "Easy Documentation, Execution and Presentation(PPT) using Jupyter Notebook" on 17/07/2021 for the students of 4th sem, 6th sem and 8th sem.

RESOURCE PERSON:

Mr. Arun Kumar N
Trainer and Developer
Skill Disk, Rajajinagar
Bengaluru.

OBJECTIVE:

The online guest lecture was organized on Jupyter Notebook for the students to make their presentations and documents related to college and career in a easy way.

OUTCOME:

The following topics were explained by Mr. Arun Kumar N:

- ✓ Introduction to Jupyter Notebook
- ✓ Creating documentation using Markdown Language
- ✓ Executing codes in the cell
- ✓ Converting the notebook to other formats
- ✓ Converting the document to presentation

46 participants have attended the Guest Lecture. The students found the session very informative. They are able to implement Jupyter Notebook to make PPT from document easily. The session has also received overwhelming response and impressive feedback from the students.

KEY SKILLS

- Software Development & Testing • Interface Designing • Data Analytics • Jetpack
- Mobile-based Application Development • UX/UI • Unit Testing • Android Architecture Component
- Cross-Vertical Team Leadership • Coding & Troubleshooting • Architecture Design

TECHNICAL SKILLS

- Programming Languages: C++, Java (JEE platform, Kotlin), Python, Dart
- Expert at Java SDK design functionality, including the full activity lifecycle
- C++ with Android NDK integration
- Knowledge of Flutter to develop cross platform application (android & IOS)
- Graphics and image-processing (OpenGL, Vulkan)
- Analytical skills - Firebase, MixPanel & Google Analytics
- Analytical user of GIT version control implementation
- Knowledgeable about back-end development and documentation
- Unit testing

PROFESSIONAL EXPERIENCE

Senior Software Engineer (SDE-II) - Founding Member

Jun '17 - Present

Open Appliances Private Limited

Bengaluru, IN

Open Appliances Private Limited is a company that operates with IoT at its core. The company designs, develops and sells revolutionary smart locks, its flagship product targeted at transforming devices into experiences and technology into value.

Application Development & Coding

- Assisting in developing flowcharts, layouts, diagrams, code comments, and clear code and documenting the same for the tech team
- Creating tools and S+ applications by producing clean & efficient code and supervising code testing & debugging
- Designing, developing & installing software solutions and developing high-quality software design and architecture

Tusk Smart Home (B2C) - <https://play.google.com/store/apps/details?id=com.openapp.tusk>

- Collaborating with vendors specialised in Smart home IoT devices across the country (China and U.S.)
- Integrating their SDKs and testing their devices to make sure devices are compatible with mobile applications and are up to Indian Standard markets.
- Collaborating with UX/UI designer to design screens of each device according to their use case.
- Assisting backend developers in creating APIs as per the features of the device.
- Develop android application from scratch after finalisation of device and design screen.
- Taking complete responsibility for launching a new product in android and IOS applications with QA testing and deploy in google play store and app store

Openapp Business (B2B) - <https://play.google.com/store/apps/details?id=com.openapp.app>

- Design, Develop and Deploy mobile(android & IOS) application for logistic verticals from scratch
- BLE smart padlock and GPS padlock integrated with the application including location based access(geofencing) and time based access.
- Develop custom solution for key clients such as Amazon, Sequel, Safe Express and Ecom Express
- Develop custom SDK for clients to use smart devices in their own mobile application.

Team Management

- Leading android application development team since beginning of project
- Build a entire tech team from the ground up, including operation team

Android Developer

Report for the Seminar "Smart Home Devices with Android Application" On 15th July 2021

Department of CSE in association with ISE had conducted Seminar on Smart Home Devices with Android Application on 15th July 2021. The Seminar started at 12.30 pm by welcoming the Management, Qac, Iqac, Principal, HOD, ISE & CSE, Students and Staff of RRIT. The Seminar was conducted for all 4th, 6th and 8th semester students. The main objective of the Seminar is to improve the quality of life and convenience in the home. Other goals are greater security and more efficient use of energy thanks to connected, remote-controllable devices. Home appliances, such as the washing machine, lights or the coffee maker, can be time-controlled.

The Program highlights:

- One of the main objectives of the smart home is to ease daily life by increasing user comfort. It does this by automating typical routines as well as giving home owners the power to manage their home systems remotely.
- By automating many aspects of daily living through remote technology, a smart home provides the ability to control electronics and appliances from a smartphone, tablet or laptop. It adds an extra level of convenience and comfort while eliminating the burden of manually maintaining home systems.
- Smart homes are outfitted with unobtrusive and noninvasive environmental and physiological sensors that include temperature, humidity and smoke in the home, as well as heart rate, body temperature, blood pressure and blood oxygen level.

The Session ended around 2.30 pm noon by answering to all the questions asked by the students.

Total number of students attended are 47

EDUCATION: B.E(Information Science), R.V College of Engineering, Bangalore.
MBA - Business Analytics
Tech Entrepreneurship Specialization, IIT Gandhinagar

PROJECTS and AWARDS:

1. Working as an IOT Consultant for a central government project related to Smart Tracking
2. Winner and World Finalist of Climate Launchpad 2018. Representing India In Scotland
3. Baggage tracking system for airports using rfid and IOT for airports - Funded by MHRD. (Ongoing Project)
4. Developed Impact Sensitive headgear - Top 10 innovations from around the world - Represented India in DUBAI etc

Domains

Trainer and Product Developer - **Artificial Intelligence, IOT and Blockchain**
Worked as a design Architect for various government and private projects

PATENTS (Filed):

"Impact Sensitive Head Gear" - An add on module for head gear capable of measuring the impact on head (if any, during mishaps) and capable of alerting emergency services with the location of the victim. Application Number - 201741034208

"Radio Frequency based asset tracking System"

Report for the Webinar on “Emerging Computer Skills in IT Industry for Employment” on 17th June 2021

Department of CSE had conducted a Webinar on “Emerging Computer Skills in IT Industry for Employment” for students of Computer Science and Information Science on 17th June 2021. This webinar was open to other college students and faculties as well. The Session Started at 3.00 pm by welcoming the Management, Qac, Iqac, Principal, HOD, Students and Staff of RRIT.

The program was conducted online through Zoom application with total number of 54 participants including faculties and students. **Mr. Supreeth Y S**, Founder of Tequed Labs, Bengaluru, gave one and half hour talk on emerging computer skills in IT Industry.

The Webinar highlights:

- What are the most important skills needed to succeed in the workforce of the future?
- Which of these skills can be taught effectively via online systems – especially those that are self-directed – and other nontraditional settings?
- Which skills will be most difficult to teach at scale?
- Will employers be accepting of applicants who rely on new types of credentialing systems, or will they be viewed as less qualified than those who have attended traditional four-year and graduate programs?

OBJECTIVE:

Seeking a position to utilize my skills and abilities in the fields of programming & designing, while being resourceful, innovative and flexible with my work that gives excellent exposure to grow professionally. I hope this opening will provide me a good opportunity.

WORK EXPERIENCE:

SL.NO	Work Experience Year	Company	Designation	Nature of work
1.	2005-2006	COSSET Electronics, Bangalore	Production supervisor	Inverter card design and PCB mounting
2.	6 months in 2007	B.H.E.L- EDN Bangalore (An ISO 9001, ISO 14001 & OHSAS 18001 certified).	Quality service	Quality check (QC) in BHEL-EDN, Bangalore
3	2012 - 2013	MSCNC ART Shop pvt. LTD, PEENYA.	Embedded Engineer	Process control engineering, Embedded programming and Electrical wiring of CNC machine
4	2013 to 2020 (Senior Consultant)	Eaglestone Electricals pvt ltd., Bangalore	Design Engineer	Design and validation of Electronic circuits, Sales of electric goods, Design of controllers and device drivers.
5.	2013 to 2020	RajaRajeswari College of engineering, Bangalore	Assistant Professor	Teaching students and training them on Industrial standard software's, Developing final year projects, Training students on embedded system design
6.	2021 to till date	CAIR, DRDO, Bangalore	Electronic Engineer	Working on Artificial intelligence and robotics, developing working codes

Report For The Workshop On "Essential Of Data Analytic Software And Extensive Contribution Of Power Bi In Data Analytics" On 12th June 2021

Department of CSE had conducted Workshop On "Essential Of Data Analytic Software And Extensive Contribution Of Power Bi In Data Analytics" for all 4th, 6th, 8th semester and faculties of Computer Science and Information Science Students on 12th June 2021. The Session Started at 2 pm by welcoming the Management, Qac, Iqac, Principal, HOD, Students and Staff of RRIT.

The program was conducted by Pavan kumar KR He is working in DRDO as an Electronic engineer with total number of 70 participants includes both faculties and students. The program was conducted online under Microsoft team platform and session focused on "why we want to Learn the concept of different software"

The Awareness Program highlights:

- Learning the concept of data analysis
- Entrepreneur opportunities in data analytics
- Different job opportunities in different domains using data analysis skills
- Understanding marketing opportunities in data analytics and importance of cryptodatas.

Report on Guest lecture,

Topic: "Evolution of Machine Learning and AI for medical diagnosis"

Event Date: 12-06-2021

Venue: Online

Platform : Microsoft Teams

Resources Person:

Prof. Thyagaraj T
Assistant professor, Dept. of ECE
BMSIT & M, Bangalore.

Objectives:

To brief the students about the application of Artificial Intelligence and Machine learning in medical diagnosis.

Outcomes:

1. 115 participants were benefited from seminar.
2. Students got a good exposure to AI & ML.
3. Resource person spoke about Introduction to ML & AI , applications of AI , innovations in medical engineering, ML in a nutshell, Representation, Evaluation, optimization, ML algorithms, Supervised learning, CNN, Neural networks, why to use ML , Industry interest in AI&ML in health care , benefits of AI.
3. Motivated the students to try their best to implement an architectural design for AI & ML for specified requirement, to solve the given societal challenge using AI.
4. Resource person was wonderful in interacting with students. The session was very informative and very much helpful for the students
5. Students were very much interactive with the Resource person and showed keen interest in working on ML& AI

REPORT

Guest Lecture on "Introduction to ML algorithms"

Event Date: 04/06/2021

Venue: Online using Microsoft Team

Resources Person: Dr. Ashwini K
Associate Professor
Global Academy of Technology
Bengaluru

Overview:

- The Department of ECE had Organized a Guest Lecture on "Introduction to ML algorithms" to enhance the Knowledge of basics of Machine learning algorithm and give the glimpse of basic understanding of KNN algorithm, Navie Bayes algorithm and decision tree.

Objective:

- Introduction of ML algorithm
- KNN algorithm to solve classification and regression problem
- Naive Bayes algorithm, in solving multi case prediction problem
- Decision tree

Outcome :-

The Guest Lecture enabled participants to understand the basics of Machine Learning . The participants were briefed about the KNN algorithm, Navie Bayes algorithm and Decision tree. The participants were involved and interacted with the resource person during the session.

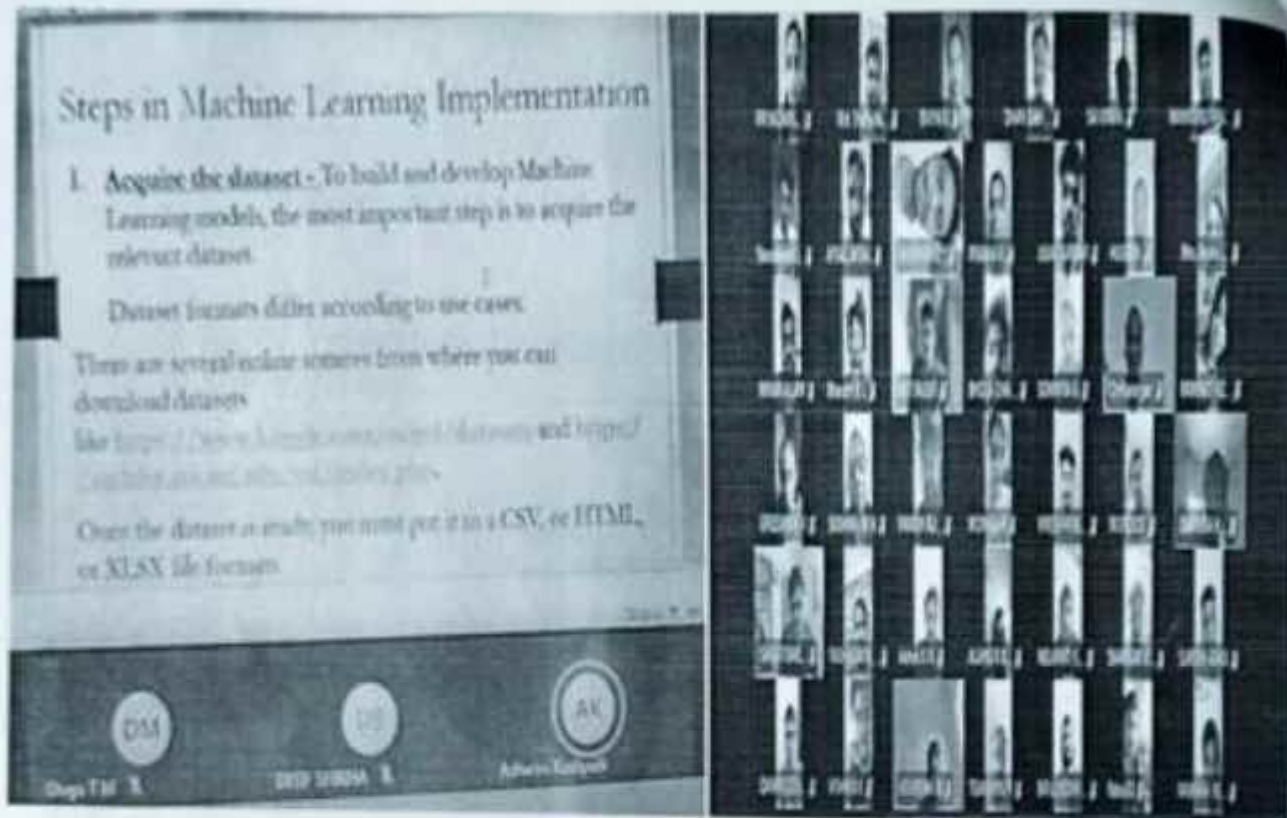

The event was successful. We thank the management of RRIT for supporting and giving us the opportunity to organize the online event.

Total numbers of participants are 94.

One Day Workshop

On

"Cyber Security & Ethical Hacking"

On 27th April 2021.

CHIEF GUEST

Sri. Y. Raja Reddy

Chairman, RRIT, Bangalore

GUEST SPEAKERS

Mr. Manoj Kashyap R

Technical Corporate Trainer
Classfly, Bengaluru

Mr. Ravi Chandra Reddy

Machine Learning Engineer
Classfly, Bengaluru

To be a premier Institute with excellence in the field of Engineering and Management

Mahesh

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY

Chikkabavenavara, Bangalore - 560 090.

Ravi Chandra Reddy

Machine Learning Engineer

ravichandrareddy88@gmail.com

+91 8093468711

Trying to be a career, Want to be in a new level everyday by working and learning continuously.

SKILLS

- Python
- MySQL
- SQLServer
- TensorFlow
- TensorFlow
- Flask
- Jupyter
- Android Java
- C++
- Django
- Angular
- OpenCV

BACHELOR OF ENGINEERING

**Siddaganga Institute of Technology
Tumkur**
2017-2021

EXPERIENCE

**Django Developer
Electronicity**
2020-2021

Worked on various projects using Django and Angular and worked on product development and testing program.

- Successfully completed CRM project for the company.

**Machine Learning Intern
Olcademy**
2021-01-2022

Working on various projects and completed recommendation system.

- Recommendation System(Collaborative Filtering) based on the user buy pattern of the courses.

**Data Analyst Intern
ClassFly**
2020-2021

Classfly is an online platform for educational community website.

- Successfully integrated google analytics api into the webapp.

PERSONAL PROJECTS

- PowerCarrom**
Multiplayer game through LAN. Developed by Unity3D.
- Learning Path Recommendation (Olcademy)**
A machine learning project to recommend the learning path for a student based on his current knowledge.
- Notifyfy**
A school administration app built for daily interaction between teachers and parents about children.
- Serverlog Analysing WebApp**
Built to read log files of server which contains virtual machine. To search and filter the files and each line in logs, to get the specific error.

ORGANIZATIONS

Intutes
Worked with intutes to do various projects in colleges like how to use an Python, Django and Machine Learning.

CERTIFICATES

- Data Analytics (SBDA)
- Machine Learning (SML)
- Artificial Intelligence Expert (SAIX)
- Android Developer

LANGUAGES

English Full Professional Proficiency	Kannada Full Professional Proficiency
Telugu Full Professional Proficiency	Hindi Intermediate Proficiency

INTERESTS

- Reading Physics
- Quantum mechanics
- Latest Research News

Mahesh
PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

MANOJ KASHYAP R

OBJECTIVE

Seeking the position to utilise my skills and ability in the industry that offers professional growth while being resource full innovative and choosing and to make a prosperous career

EXPERIENCE

Notify

2016-2017

Web designer (full stack developer)
Worked as full stack developer as intern

Tata interactive services

2017-2018

Tata Edge Coordinator
Maintaining servers and configuration,
Visiting to many location to fix the servers issues

IANT

2018-2020

Technical corporate trainer
Giving training on information and cyber security and descriptive technologies
Which includes IoT | IoT security

EDUCATION

K.E.A

2013

P.U.C
6.8

IIMT

2017

Bachelor of Electronics and communication
7.5

PROJECTS

Digital pin lock

Security is most important, there are many ways to protect the device and many ways to breach that as well,
Digital pin lock is a hardware security security lock that is predefined by the circuit using IC CD4017 counter IC

Udrone

It's a umbrella which has got the power to fly by its self near to the location of the phone by detecting the weather forecast from cloud API,

INTERESTS

- Hardware compose
- Circuit design

CONTACT

✉ manoj.marina@gmail.com

☎ 8861528756

📍 #13, G.K.W Layout Main road, 1st cross 1st main, peenya 2nd stage, Bangalore 560058

🌐 [linkedin.com/in/manojkashyap3333](https://www.linkedin.com/in/manojkashyap3333)

SKILLS

Cyber security
IoT and IoT Security
Web Design
Circuit Design
SEO
CTF | Pentest
Bug Bounty
Computer Forensic

ACHIEVEMENTS & AWARDS

Certified SCSJ Trainer Awarded as best technical trainer from STAR (US based company)

Successfully achieved by creating android game called POWERCARRON

Completed Arduino computation, Attended IETE(signal and system)

PERSONAL DETAILS

Date of Birth : 15/05/1994

Marital Status : Single

Nationality : Indian

ACTIVITIES

Given seminars on cyber security, in PUNE, and Many Bangalore universities

Arduino, raspberry pi programmer, Electronics Projects handling and many related to IoT

Web Development intern, Blackened development of a new portal using wamp,lamp,xamp stack

Manoj Kashyap R.
PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

- Creating own hacking devices

🕒 CERTIFICATION

- SYBGEN Cyber Science Boot camp (SG-307)
- SYBGEN Raspberry Pi Bootcamp (SG-343)
- SYBGEN P.C Programming Boot camp (SG-347)
- SYBGEN IoT Boot camp (SG - 321)
- Ethical Hacking
- Network plus
- Security plus

🕒 PUBLICATION

- Phishing page of gmail
People will always use tool to create or execute the phishing page.
But though of creating a simple phishing page for noobs to get into programming
- Post exploitation
Showed how post exploitation can be used to steal the windows password in my LinkedIn page

🕒 DECLARATION

- I hereby declare that the information furnished above is true to the best of my knowledge. I do hereby declare that above particulars of information and facts stated are true, correct and complete to the best of my knowledge and belief.

Report for the One Day Workshop On Cyber Security & Ethical Hacking”on 27th April 2021.

Department of CSE in association with ISE had conducted Two Days Workshop on Cyber Security & Ethical Hacking on 27th April 2021. First day started at 1.30 pm by welcoming the Management, Qac, Iqac, Principal, HOD, ISE&CSE, Students and Staff of RRIT. The purpose of ethical hacking is to evaluate the security of and identify vulnerabilities in target systems, networks or system infrastructure. The process entails finding and then attempting to exploit vulnerabilities to determine whether unauthorized access or other malicious activities are possible. The second day started at 1.30 pm by addressing of Ethical Hacking. Ethical Hacking is part of Cyber Security, which mainly deals with finding vulnerabilities in a system and solving them before any malicious or black-hat hacker exploits them.

The Program highlights:

- Cyber Security is the process of testing and validating the system to discover the weaknesses present in it and inform the organization about all those weaknesses. Later, the organization will hire some Cyber Security professionals to recommend measures that will help prevent the data from any kind of theft or fraud.
- Ethical Hacking is the process of bypassing the security system of an organization to find loopholes in the system and resolve them. .
- Cyber Security is a vast subject that includes a lot of network and information security mechanisms, such as data security, digital forensics, Ethical Hacking, and much more. Therefore, we can say that Ethical Hacking is a subpart of Cyber Security.

The Session ended around 3 pm noon by answering to all the questions asked by the students.

There was total participation of 65 participants which included 61 students and 4 faculties .

Assistant Professor,

Dept. of Information Science & Engineering,

BMSIT&M, Yelahanka, Bengaluru-560064

Brief Biodata

Mr. Gireesh Babu C N is associated with Information Science and Engineering department of BMS Institute of Technology and Management. Having Close to 10 Years of experience includes Teaching, Research and Consulting. His research work is published in Springer and web of science Journals.

He is a preferred Corporate Trainer for Larsen & Toubro Limited. He is passionate to work on BigData, AI & IoT and He has conducted workshops and delivered lectures at various FDPs. He has received Bachelor of Engineering and Master of Technology in Computer science and Engineering from Visvesvaraya Technological University and pursuing Ph.D. in Computer Science and Engineering at Visvesvaraya Technological University.

Report for the Technical seminar on "A Practical Approach to Data Science" on 29th April 2021

Department of CSE had conducted a Technical seminar on "A Practical Approach to Data Science" for students of Computer Science and Information Science on 29th April 2021. This Seminar was open to students and faculties as well. The Session Started at 2.00 pm by welcoming the Management, Qac, Iqac, Principal, HOD, Students and Staff of RRIT.

The program was conducted online through Google meet application with total number of 47 participants including faculties and students. Prof Gireesh Babu C N, Department of Information science, BMSIT, Bengaluru gave one and half hour talk on emerging computer skills in IT Industry.

The Seminar highlights:

- > What are the most important skills needed to succeed in the workforce of the future?
- > Which of these skills can be taught effectively via online systems – especially those that are self-directed – and other nontraditional settings?
- > Which skills will be most difficult to teach at scale?
- > Will employers be accepting of applicants who rely on new types of credentialing systems, or will they be viewed as less qualified than those who have attended traditional four-year and graduate programs?

To be a premier globally recognized Institute with ensuring Academic Excellence, Innovation & Fostering
Research in the field of Engineering

Biography of Dr. Pavithra G.

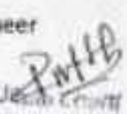

Dr. Pavithra G. was born in Bangalore, Karnataka, India on Sep. 8, 1984 & received the B.E. Degree (Bachelor of Engg.) in Electronics & Communication Engineering stream (ECE) from Acharya Institute of Technology. (VTU, Belgaum) in the year 2006, M.Tech. Degree in ECE branch with specialization in RF Communications from the prestigious Jain University in the year 2012 with first rank gold medal and obtained her doctorate - Ph.D. in the field of *Bio-Medical Image Processing (Electrical & Electronic Engg. Sciences)* in the field of *"detection of glaucomatic diseases in humans"* from the prestigious Visvesvaraya Technological University (VTU Belgaum) in the year Feb. 2020 respectively. She has got a teaching (academic), research experience of more than 15* years in various engineering colleges in the Karnataka state. She has worked in the levels of Lecturer-Asst. Prof. (15*) in the colleges where she was a faculty in the Dept. of Electronics & Communication Engg. apart from having some industrial experience gained during her UG/PG project & internship tenures. Currently, she is working as an Associate Professor in the Dept. of ECE of Dayaranda Sagar College of Engg., Bangalore. Her topic of research, i.e., Ph.D. in VTU was, "Design & development of novel algorithms for diagnosis of glaucoma in different types of images using advanced image analysis techniques". Till date, she has published more than more than one dozen papers in various National, International journals (Scopus indexed, web of science, UGC, impact factors) and Conferences in India & abroad. She is a valued member of IEEE since 6 years. She has given a couple of guest lectures / expert talks and seminars in couple of institutions across the country, attended CEP / DEP courses, seminars, workshops, conferences, symposiums, FDPs & training programmes besides conducting a few courses in the institutions where she had worked/working. She has got a number of prizes in various competitions. On few occasions she acted as a resource person, chaired few sessions in conferences, acted as volunteers on few occasions, attended more than a dozen workshops & conferences presenting the research papers. She has developed few lab manuals w.r.t. autonomous VTU curriculum. She also got the best paper award in couple of conferences where she went as a paper presenter to present her research papers. Her areas of special interest are - DSP, Fundamentals of IP, Biomedical Image Processing, Signals & Systems, Basic Electronics, Network Analysis, Field Theory, Wireless Sensor & Mobile Networks, Circuits & Networks, Matlab, Research Methodologies, Networks & circuits, Advanced Communications, RF & Microwaves, Satellite Communications, Basic Electrical Engg., Analog & Digital Communications, etc.....

Report for the Technical Seminar on "Recent Advances in Artificial Intelligence & Robotics – From Macro to Micro to the Nano" on 27th May 2021

Department of CSE in association with ISE had conducted a Technical Seminar on "Recent Advances in Artificial Intelligence & Robotics – From Macro to Micro to the Nano" for students of Computer Science and Information Science on 27th May 2021. This webinar was open to other college students and faculties as well. The Session Started at 3.30 pm by welcoming the Management, Qac, Iqac, Principal, HOD, Students and Staff of RRIT.

The program was conducted online through Google Meet application with total number of 142 participants including faculties and students. **Dr. Pavithra G**, Associate Professor of Electronics and Communications Engineering Department from *Dayananda Sagar college of Engineering*, gave one and half hour talk on recent advances in Macro, Micro and Nanotechnology.

The Technical Seminar highlights:

- Brief introduction to Macro, Micro and Nano robotics was given.
- Different applications currently working in different sectors were discussed.
- Future of Artificial intelligence and Machine learning Robotics was discussed.
- The usage of Nano technology used in health sectors was showcased through videos.
- Advances done in Nanorobotics were also discussed with a few videos.
- Top ten Artificial intelligence and Machine learning trends that might impact business in 2020 – 2030 were also discussed.

Report

Six days Certificate Programme on "Introduction to Python and its Applications"

Event Date : 21-12-2020 to 28-12-2020

Venue: Online

Platform : Google Meet

Resource Person: 1) Prof. Chandran Venkatesan

Assistant Professor

Department of ECE,

KPR Institute of technology,

Coimbatore, Tamilnadu

2) Dr. Nageswara Gupta

Head IQAC, Senior Associate Professor

School of Computing Science and Engineering

VIT Bhopal University

Overview:

The main objective of the programme was to provide the basic knowledge of Python and to understand why Python is useful scripting language for developers.

Topics Covered.

1) Prof. Chandran Venkatesan

Day 1: 21-12-2020

- ◆ Session started with an introduction to Python, its applications and job opportunities available in the market by Prof. Chandran Venkatesan.
- ◆ Working on python was elaborated and students were made to practice python commands in idle mode.

Day 2: 22-12-2020

- ◆ Introduction to Python Structure
- ◆ Python structure. Dictionary keys, values, Zipping and unzipping dictionary methods were discussed.
- ◆ Students were made to write a programme using dictionary and list in idle mode and execute.

Department of Education and Communication

Day 3: 23-12-2020

- ❖ Introduction to Tuples
- ❖ Tuples structure- Accessing values , updating tuples, delete tuple elements, indexing , slicing, functions like (Len(), Max(),Min(),Tuplof) are discussed.
- ❖ Students were made to write a programme using Tuples and functions in idle mode .

Resource Person: Dr. Nageswara Gupta

Day 4 : 24-12-2020

- ❖ Session was handled by Dr. Nageswara Gupta in continuing the Functions and modules of python structure.
- ❖ In the functions: Defining a function , calling a function, function argument, default argument , return statement ,global vs local variables, import statement are discussed
- ❖ Students were made to write a programme using function calls and import functions in idle mode.

Day 5: 26-12-2020

- ❖ Introduction to GUI- Programming using python
- ❖ In GUI, relation between Python and GUI ,ways of creating GUI with python components, displaying a welcome message ,widgets and methods like Label, line edit ,push button ,radio button ,form check boxes, event handlings, working with date and time were discussed.
- ❖ Students were made to write a programme on GUI creation and function call using import function-project templates in idle mode and excute .

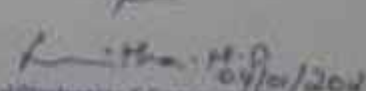

Resource Person: Prof. Chandran Venkatesan

Day 6: 28-12-200

- ❖ Introduction to Working on IOT and one real time project with GUI
- ❖ Problem statement was given to the students and were supported to execute
- ❖ An online test was conducted based on the topics covered during 6 days and e-certificate Was released only to the students who attempted the test

43 ✓
60 students got benefitted and certificates were released (60% eligibility)

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

The dictionary data structure

- Dictionaries are *unordered*, *changeable* (*mutable*), and *indexed* collections of data
- In Python, a dictionary is mapping between a set of indices (*keys*) and a set of *values*
 - The items in a dictionary are *key-value pairs*

```

{
  'name': 'Alice',
  'age': 25,
  'city': 'New York'
}

```

List Constants

- List constants are surrounded by square brackets and the elements in the list are separated by commas.
- A *list* element can be any Python object - even another list
- A *list* can be empty

```

>>> print [1, 24, 76]
[1, 24, 76]
>>> print ['red', 'yellow', 'blue']
['red', 'yellow', 'blue']
>>> print ['red', 24, 98.5]
['red', 24, 98.50000000000001]
>>> print [1, [5, 6], 7]
[1, [5, 6], 7]
>>> print []
[]

```

Using the *range* function

- The *range* function returns a *list of numbers* that range from zero to one less than the *parameter*.
- We can construct an index loop using *for* and an integer *iterator*.

```

>>> friends = ['Joseph', 'Glenn', 'Sally']
>>> print (len(friends))
3
>>> print (range(len(friends)))
range(0, 3)

```

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

To be a premier Institute with excellence in the field of Engineering and Management

Karunadu Technologies Private Limited

Head Office: #17, ATK complex, 2nd and 4th Floor, Acharya College Main Road, Beside Karuvysya Bank,
Gattehasveshwaranagar, Chikkabanavara, Bengaluru, Karnataka - 560090

Profile of the trainer

Mr. Harish. N B.E, M.Tech, (Ph.D)

CTO

Mr. Harish currently serving as a CTO at Karunadu Technologies Pvt Ltd. He has a Teaching experience of decades in various Engineering colleges in various positions and Technical Consultant, Technical advisor to different embedded industries. He worked in various domains like IoT Systems, RF Communications, Micro strip Patch Antenna, and Machine Learning. He has published various IEEE papers and other journals. He has worked on many industrial projects to provide sustainable design and expertise. Currently he works on python, Rasberry-Pi, Artificial Intelligence, Texas Instruments Boards, Advanced controllers, Image, Video Processing and Mat lab. His Vision is to Empower Unskilled Individual with knowledge, skills and technical competencies in the field of Information Technology and Embedded engineering which assist them to escalate as integrated individuals contributing to company's and Nation's growth. His vast expertise and Innovative thought process made to nurture a company along with Mr Mahesh Deginal in the year 2017.

Mr. Mahesh Deginal B.E, M.Tech (VLSI Design and Embedded system) (Ph.D)

Managing Director

Mr. Mahesh Deginal currently serving as a Managing Director at Karunadu Technologies Pvt. Ltd. He served in both Industries and Educational Institutions. He worked as a Assistant Professor and Senior Embedded engineer and various roles in industries. He has 7 plus year experience and he is expertise in domains such as Embedded System, IoT, Robotie engineering etc. He has published IEEE papers and other International journals in his credits. He has worked on many industrial projects and upgraded older systems to newer technologies. Currently he works on python, rasperry pi, Texas Instruments Boards, Advanced controllers and Matlab. His Vision is to Empower Unskilled Individual with knowledge, skills and technical competencies in the field of Information Technology and Embedded engineering which assist them to escalate as integrated individuals contributing to company's and Nation's growth. His Innovative and creative thinking made to nurtured a company in the year 2017.

Report on Two Days Workshop on "IoT based Smart Building Automation Using Tinker cad and its applications" on 17th and 18th Dec 2020

Department of CSE had conducted Two Days Workshop on "IoT based Smart Building Automation Using Tinker cad and its applications" on 17th and 18th December 2020. Day Started at 10 am by welcoming the Management, Qac, Iqac, Principal, HOD, ISE&CSE, Students and Staff of RRIT including all the participants involved in the workshop.

The Workshop was conducted through **GoToMeeting** with total members of **59** which includes Faculties and students. The two days of Workshop was focused on IoT and its concepts. IoT describes a system that contains many things that are existing in the real world, along with sensors attached to them or embedded in these things, and connected to the Internet through a networked structure both as wireless or wired media to gain the target of it in development and evolutionary way.

The Two Days of Workshop highlights:

- IoT enables many aspects of the real world to be "observed" at a previously unattained level of detail and at negligible cost.
- IoT concepts make understanding of the underlying processes with more efficient control and management.
- The ability to react to events in the physical world in an automatic, rapid and informed manner not only opens up new opportunities for dealing with complex or critical situations, but also enables a wide variety of business processes to be optimized.
- Arduino boards are able to read inputs-light on a sensor, a finger on a button, or a Twitter message-and turn it into an output-activating a motor, turning on LED, publishing something online.

The Workshop ended around 4 pm noon by answering to all the questions asked by the students.

The two days workshop will be having both theory and practical concepts.

Here with attaching the screenshots of the event conducted, and report for your kind perusal

digitalWrite(pin no, pin state)

digitalWrite function helps in Writing a Digital value to the Arduino Output Pin

`digitalWrite(pin, pin state)`

pin: The Arduino pin number.
value: HIGH or LOW.

Ex:

```
digitalWrite(2, LOW); // Makes the output voltage on pin 2, 0V
digitalWrite(2, HIGH); // Makes the output voltage on pin 2, 5V
```

EXPERIENCE

Research scholar (Thesis Submitted)

B.M.S. College of Engineering

Feb. 2016 - July 2020

Bengaluru, Karnataka

- Development of novel techniques to improve the classification accuracy of decision tree using vertical partitioning approaches for high dimensional datasets.
- Introduced framework to handle decision tree complexity in terms of its structure.
- Improved the performance of decision tree classifier for imbalanced (unbalanced) datasets with the support of vertical partitioning.

Project Fellow

B.M.S. College of Engineering

March 2015 - Feb. 2016

Bengaluru, Karnataka

- Built models for teacher recruitment datasets using machine learning algorithms (CART, C4.5 and C5.0 Decision trees)
- Involved in data pre-processing techniques using R packages.
- Generated association rules to recommend policies for teacher recruitment process using arule package in R.

SAP ABAP Consultant

Nabros System Pvt. Ltd

April. 2013 - Jan. 2015

Hubballi, Karnataka

- Handled Invoice modifications based on the client request.
- Generation of monthly report.
- Mentoring junior developers.

PAPER REVIEWER FOR CONFERENCE

- TENCON2019, IEEE international technical conference, 17-20 October 2019 at Hotel Grand Hyatt, Bolgatty, Kochi, Kerala, India
- rtp2r2018, The Second International Conference on Recent Trends in Image Processing and Pattern Recognition, December 21-22, 2018.
- CoCoNet 2015, International Conference on Computing and Network Communications, December 16-19, 2015, Trivandrum, Kerala.

PAPER REVIEWER FOR JOURNAL

- Indonesian Journal of Electrical Engineering and Computer Science, Scopus Indexed Journal (June 2019- Present)
- Array (Elsevier publications), (August 2019- Present)
- IEEE Access (June 2019- Present)

INVITED TALKS

LIFE PHILOSOPHY

"Understand the inner peace to blossom."

MOST PROUD OF

Won Best paper award at international conference

FOSSEE Text book companion project
I have participated in National Mission on Education through Information and Communication Technology (ICT)

Profile

Name: Santosh Kumar J

Mail_ID; Mobile: 09035636616

Working as Software Consultant at VHU Technologies & Solutions. One Year Trained on Big data analytics tools Hadoop Mapreduce Pig, Hive, Spark Big data engineering PGP from NIT Rourkela in association with Edureka. Worked at IBM for 2.9 years on IBM Mainframe platform. Worked as a Software Engineering (Analyst Programmer) for SYNTEL PUNE(2.10 Yr)from 2010 to 2013. Worked on Insurance and Banking projects for reputed clients like Humana and FDGS, Experience includes Coding and Testing using COBOL, JCL, VSAM, DB2 and CICS on IBM OS/390. Also 9 Years of Teaching experience. Also working as a Associate professor in KSSEM, Bengaluru

Post Graduate Program (PGP)in Big data Engineering from NATIONAL INSTITUTE OF TECHNOLOGY ROURKELA. M.Tech (Computer Science) From VTU, Belgaum in 2007,B.E (Electronics & Communications) From PDA engineering VTU, Belgaum in 2004.

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

Speaker Profile

Mr.Hemanth Kumar is working as a Data Scientist at Rubixe Technologies Pvt. Ltd. Bengaluru

He is also AI expert Panelist for Modo Edulabs, an Ed-tech company, Bengalore

He is a cofounder of AirDraw.co.in, a startup based in Mysore. A company which works on Language Technology.

He is also Technical consultant for CampusHiring.com, a campus recruitment company, Mysore

And technical consultant for AIMIT corporate,Mysore.

His areas of Interest include Machine Learning, Text Mining, Deep Learning, Deep learning techniques for processing Natural Language.

As part of His Ph.D work, Mr. Hemanth Kumar is carrying out his research in the field of Natural Language Processsing, developing Predictive Models for Regional languages.

He is also associated with (Central Institute of Indian Language Development,Mysore, Govt. of India) and helped them developing Parts of Speech Tagger for 10 different Indian Scheduled Languages like kannada, tamil, telugu, bengali , hindi etc.

He has also contributed language datasets to kaggle.com, leading datascience website.

He is a speaker,educator and trained more than 5000 candidates across india.

PRINCIPAL

R.R. INSTITUTE OF-TECHNOLOGY

Chikkabanavara, Bangalore - 560 090.

Dr. Vandana Jha obtained her Bachelor of Engineering in CSE in 2003 and her Masters of Technology in CSE with first rank and a gold medal in 2009. She obtained her PhD, CSE in 2018 from Bangalore University. She has been awarded as "Best Thesis Award 2018" in GraTE'7 event organised by IEEE. She has presented research papers in various International Conferences held at India and USA. She has published research articles in refereed International Journals like Springer and Elsevier. She is working as a reviewer for various International Journals published by Elsevier like Knowledge Based Systems, Applied Computing and Informatics etc. She has been serving as Chair for several IEEE international conferences and workshops.

Currently, she is working as an Associate Professor in the Department of Computer Science and Engineering, KSSEM, Bangalore. Her research interests include Data Mining, Sentiment Analysis and Opinion Mining, Machine Learning and Natural Language Processing.

R.R. INSTITUTE OF TECHNOLOGY

Chikkabanavara, Bangalore - 560 090.

Speaker Profile

Dr. Umadevi V

Associate Professor and Head

Department of CSE

B.M.S. College of Engineering, Bangalore, India

Email: umadevi.cse@bmsce.ac.in

Tell me and I forget, teach me and I may remember, involve me and I learn.

Benjamin Franklin

Dr. Umadevi V was born in Kolar, Karnataka, India. Obtained her B.E in Computer Science and Engineering from Bangalore University in 1998. She received M.Tech in Computer Science and Engineering with 3rd Rank from Visvesvaraya Technological University, Belguam in 2002. Her M.Tech study was supported by MHRD (Ministry of Human Resource Development) scholarship for one and half years at BMS College of Engineering, Bangalore. She completed her Ph.D program from IIT Madras, Chennai. Her PhD work was supported by HTRA (Half-time Research Assistantship) Scholarship for five years at IIT Madras. Earlier she worked at Dayananda Sagar College of Engineering, Dr. T. Thimmaiah Institute of Technology and Kuppam Engineering College. Since September 2012, she has been with BMS College of Engineering, Bangalore in the Department of Computer Science and Engineering as Associate Professor.

In her credit, she has fifteen journal publications and fourteen international conference publications. She has presented her papers in person at Beijing and Kuala Lumpur with travel grants support from IIT Madras. She received Best Teaching Assistant Award twice from the Department of Computer Science and Engineering, IIT Madras. She has been invited as a resource person for conduction of workshop on Latex and Deep Learning to faculty members of various engineering colleges. She received a grants from TEQIP-II (BMS College of Engineering) and Amoudi Scientific Research Foundation of Majmaah University, Kingdom of Saudi Arabia to conduct research in the area of Medical Thermography.

Department of Computer Science & Engineering

Date: 01/12/2020

Report of online Ten days Certificate Program on "Machine learning techniques and applications for beginners" from 21st November to 30th November 2020.

Ten days Certificate Program on "Machine learning techniques and applications for beginners" was organized by the Department of Computer Science and Engineering from 21st November to 30th November 2020 at 2.00pm. 105 Participants attended the program through Google meet. Today's Artificial Intelligence (AI) has far surpassed the hype of block chain and quantum computing. This is due to the fact that huge computing resources are easily available to the common man. The developers now take advantage of this in creating new Machine Learning models and to re-train the existing models for better performance and results. The easy availability of High Performance Computing (HPC) has resulted in a sudden increased demand for IT professionals having Machine Learning skills. In this, you will learn in detail about:

- What is the crux of machine learning?
- What are the different types in machine learning?
- What are the different algorithms available for developing machine learning models?
- What tools are available for developing these models?
- What are the programming language choices?
- What platforms support development and deployment of Machine Learning applications?
- What IDEs (Integrated Development Environment) are available?
- How to quickly upgrade your skills in this important area?

Machine Learning – What Today's AI Can Do?

When you tag a face in a Facebook photo, it is AI that is running behind the scenes and identifying faces in a picture. Face tagging is now omnipresent in several applications that display pictures with human faces. Why just human faces? There are several applications that

detect objects such as cats, dogs, bottles, cars, etc. We have autonomous cars running on our roads that detect objects in real time to steer the car. When you travel, you use Google Directions to learn the real-time traffic situations and follow the best path suggested by Google at that point of time. This is yet another implementation of object detection technique in real time. Let us consider the example of Google Translate application that we typically use while visiting foreign countries. Google's online translator app on your mobile helps you communicate with the local people speaking a language that is foreign to you. There are several applications of AI that we use practically today. In fact, each one of us use AI in many parts of our lives, even without our knowledge. Today's AI can perform extremely complex jobs with a great accuracy and speed. Let us discuss an example of complex task to understand what capabilities are expected in an AI application that you would be developing today for your clients. Example We all use Google Directions during our trip anywhere in the city for a daily commute or even for inter-city travels. Google Directions application suggests the fastest path to our destination at that time instance. When we follow this path, we have observed that Google is almost 100% right in its suggestions and we save our valuable time on the trip. You can imagine the complexity involved in developing this kind of application considering that there are multiple paths to your destination and the application has to judge the traffic situation in every possible path to give you a travel time estimate for each such path. Besides, consider the fact that Google Directions covers the entire globe. Undoubtedly, lots of AI and Machine Learning techniques are in-use under the hoods of such applications. Considering the continuous demand for the development of such applications, you will now appreciate why there is a sudden demand for IT professionals with AI skills. In our next chapter, we will learn what it takes to develop AI programs.

Machine Learning – Traditional AI

The journey of AI began in the 1950's when the computing power was a fraction of what it is today. AI started out with the predictions made by the machine in a fashion a statistician does predictions using his calculator. Thus, the initial entire AI development was based mainly on statistical techniques. In this chapter, let us discuss in detail what these statistical techniques are. Statistical Techniques The development of today's AI applications started with using the age-old

frauds and analyzing customer's ability to pay. Deep learning techniques are also applied to the field of medicine to create new drugs and provide a personalized prescription to a patient. The possibilities are endless and one has to keep watching as the new ideas and developments pop up frequently.

What is Required for Achieving More Using Deep Learning? To use deep learning, supercomputing power is a mandatory requirement. You need both memory as well as the CPU to develop deep learning models. Fortunately, today we have an easy availability of HPC – High Performance Computing. Due to this, the development of the deep learning applications that we mentioned above became a reality today and in the future too we can see the applications in those untapped areas that we discussed earlier. Now, we will look at some of the limitations of deep learning that we must consider before using it in our machine learning application. Deep Learning -Disadvantages Some of the important points that you need to consider before using deep learning are listed below:

- Black Box approach
- Duration of Development
- Amount of Data
- Computationally Expensive

Machine Learning has a very large width and requires skills across several domains. The skills that you need to acquire for becoming an expert in Machine Learning are listed below:

- Statistics
- Probability Theories
- Calculus
- Optimization techniques
- Visualization

Machine Learning – Implementing Machine Learning

To develop ML applications, you will have to decide on the platform, the IDE and the language for development. There are several choices available. Most of these would meet your requirements easily as all of them provide the implementation of AI algorithms discussed so far.

If you are developing the ML algorithm on your own, the following aspects need to be understood carefully: The language of your choice – this essentially is your proficiency in one of the languages supported in ML development. The IDE that you use – This would depend on your familiarity with the existing IDEs and your comfort level. Development platform – There are several platforms available for development and deployment. Most of these are free-to-use. In some cases, you may have to incur a license fee beyond a certain amount of usage. Here is a brief list of choice of languages, IDEs and platforms for your ready reference. Language Choice Here is a list of languages that support ML development:

- Python
- Matlab
- Octave
- Julia
- C++
- C

This list is not essentially comprehensive; however, it covers many popular languages used in machine learning development. Depending upon your comfort level, select a language for the development, develop your models and test. IDEs Here is a list of IDEs which support ML development:

- R Studio
- Pycharm
- iPython/Jupyter Notebook
- Julia
- Spyder
- Anaconda
- Rodeo
- Google-Colab

accuracy (say 80 to 90%) you can stop further training the machine. Now, you can safely use the machine to do the predictions on unknown data points, or ask the machine to predict Y for a given X for which you do not know the real value of Y . This training comes under the regression that we talked about earlier. Classification You may also use machine learning techniques for classification problems. In classification problems, you classify objects of similar nature into a single group. For example, in a set of 100 students say, you may like to group them into three groups based on their heights - short, medium and long. Measuring the height of each student, you will place them in a proper group. Now, when a new student comes in, you will put him in an appropriate group by measuring his height. By following the principles in regression training, you will train the machine to classify a student based on his feature - the height. When the machine learns how the groups are formed, it will be able to classify any unknown new student correctly. Once again, you would use the test data to verify that the machine has learned your technique of classification before putting the developed model in production. Supervised Learning is where the AI really began its journey. This technique was applied successfully in several cases. You have used this model while doing the hand-written recognition on your machine. Several algorithms have been developed for supervised learning. You will learn about them in the following chapters.

Unsupervised Learning In unsupervised learning, we do not specify a target variable to the machine, rather we ask machine "What can you tell me about X ?". More specifically, we may ask questions such as given a huge data set X , "What are the five best groups we can make out of X ?" or "What features occur together most frequently in X ?". To arrive at the answers to such questions, you can understand that the number of data points that the machine would require to deduce a strategy would be very large. In case of supervised learning, the machine can be trained with even about few thousands of data points. However, in case of unsupervised learning, the number of data points that is reasonably accepted for learning starts in a few millions. These days, the data is generally abundantly available. The data ideally requires curating. However, the amount of data that is continuously flowing in a social area network, in most cases data curation is an impossible task.

Reinforcement Learning Consider training a pet dog, we train our pet to bring a ball to us. We throw the ball at a certain distance and ask the dog to fetch it back to us. Every time the dog does this right, we reward the dog. Slowly, the dog learns that doing the job rightly gives him a reward and then the dog starts doing the job right way every time in future. Exactly, this concept is applied in "Reinforcement" type of learning. The technique was initially developed for machines to play games. The machine is given an algorithm to analyze all possible moves at each stage of the game. The machine may select one of the moves at random. If the move is right, the machine is rewarded, otherwise it may be penalized. Slowly, the machine will start differentiating between right and wrong moves and after several iterations would learn to solve the game puzzle with a better accuracy. The accuracy of winning the game would improve as the machine plays more and more games.

Machine Learning – Deep Learning

Deep Learning uses ANN. First we will look at a few deep learning applications that will give you an idea of its power. Applications Deep Learning has shown a lot of success in several areas of machine learning applications. Self-driving Cars: The autonomous self-driving cars use deep learning techniques. They generally adapt to the ever changing traffic situations and get better and better at driving over a period of time. Speech Recognition: Another interesting application of Deep Learning is speech recognition. All of us use several mobile apps today that are capable of recognizing our speech. Apple's Siri, Amazon's Alexa, Microsoft's Cortana and Google's Assistant – all these use deep learning techniques. Mobile Apps: We use several web-based and mobile apps for organizing our photos. Face detection, face ID, face tagging, identifying objects in an image – all these use deep learning. Untapped Opportunities of Deep Learning After looking at the great success deep learning applications have achieved in many domains, people started exploring other domains where machine learning was not so far applied. There are several domains in which deep learning techniques are successfully applied and there are many other domains which can be exploited. Some of these are discussed here: Agriculture is one such industry where people can apply deep learning techniques to improve the crop yield. Consumer finance is another area where machine learning can greatly help in providing early detection on

traditional statistical techniques. You must have used straight-line interpolation in schools to predict a future value. There are several other such statistical techniques which are successfully applied in developing so-called AI programs. We say "so-called" because the AI programs that we have today are much more complex and use techniques far beyond the statistical techniques used by the early AI programs. Some of the examples of statistical techniques that are used for developing AI applications in those days and are still in practice are listed here:

- Regression
- Classification
- Clustering
- Probability Theories
- Decision Trees

we have listed only some primary techniques that are enough to get you started on AI without scaring you of the vastness that AI demands. If you are developing AI applications based on limited data, you would be using these statistical techniques. However, today the data is abundant. To analyze the kind of huge data that we possess statistical techniques are of not much help as they have some limitations of their own. More advanced methods such as deep learning are hence developed to solve many complex problems. As we move ahead in this tutorial, we will understand what Machine Learning is and how it is used for developing such complex AI applications.

Machine Learning – What is Machine Learning?

Consider the following figure that shows a plot of house prices versus its size in sq. ft. After plotting various data points on the XY plot, we draw a best-fit line to do our predictions for any other house given its size. You will feed the known data to the machine and ask it to find the best fit line. Once the best fit line is found by the machine, you will test its suitability by feeding in a known house size, i.e. the Y-value in the above curve. The machine will now return the estimated X-value, i.e. the expected price of the house. The diagram can be extrapolated to find out the price of a house which is 3000 sq. ft. or even larger. This is called regression in statistics.

Particularly, this kind of regression is called linear regression as the relationship between X & Y data points is linear.

Machine Learning – Categories of Machine Learning

Machine Learning is broadly categorized under the following headings:

Machine learning evolved from left to right as shown in the above diagram. Initially, researchers started out with Supervised Learning. This is the case of housing price prediction discussed earlier. This was followed by unsupervised learning, where the machine is made to learn on its own without any supervision. Scientists discovered further that it may be a good idea to reward the machine when it does the job the expected way and there came the Reinforcement Learning. Very soon, the data that is available these days has become so humongous that the conventional techniques developed so far failed to analyze the big data and provide us the predictions. Thus, came the deep learning where the human brain is simulated in the Artificial Neural Networks (ANN) created in our binary computers. The machine now learns on its own using the high computing power and huge memory resources that are available today. It is now observed that Deep Learning has solved many of the previously unsolvable problems. The technique is now further advanced by giving incentives to Deep Learning networks as awards and there finally comes Deep Reinforcement Learning.

Let us now study each of these categories in more detail. Supervised Learning Supervised learning is analogous to training a child to walk. You will hold the child's hand, show him how to take his foot forward, walk yourself for a demonstration and so on, until the child learns to walk on his own. Regression Similarly, in the case of supervised learning, you give concrete known examples to the computer. You say that for given feature value x_1 the output is y_1 , for x_2 it is y_2 , for x_3 it is y_3 , and so on. Based on this data, you let the computer figure out an empirical relationship between x and y . Once the machine is trained in this way with a sufficient number of data points, now you would ask the machine to predict Y for a given X . Assuming that you know the real value of Y for this given X , you will be able to deduce whether the machine's prediction is correct. Thus, you will test whether the machine has learned by using the known test data. Once you are satisfied that the machine is able to do the predictions with a desired level of

SPEAKER PROFILE

Mr. Ashok Kumar K.
Director, XONlabs, Bangalore

- Mr. Ashok Kumar K. having 11 years of experience in an MNC.
- Speaker handled numerous workshops on java, Bigdata, Cloud computing, Machine learning, IoT, Web development in various colleges.
- He guided 800+ student's teams for their academic project work over the past 5 years.
- He authored a text book titled "An Elementary and Constructive Approach on Java/J2EE" as per VTU syllabus.
- He graduated in 2010 from VTU. Gold medalist from the college.

Report for the Student Development Program on "Application Development using Java-EE & Web"

Department of CS&E conducted Student Development Program On "Application Development using Java-EE & Web" on 17th and 18th November 2020. Session Started at 3.00 pm by welcoming the Management, Qac, IQAC, Principal, HOD, Students, and staff of RRIT.

The SDP was conducted through **Zoom App** with total of **103** students were participated.

The SDP highlights:

1. The application developed will be an easy-go user interface which captures the data at the enterprise level and assists the individual and the institution on a whole in various administration, reporting and tracking activities
2. About their product and also the program mainly concentrates on easing and reducing the manual efforts that have been currently put by both the faculty and students combined by automating various aspects of the institutions
3. Programs highlights currently webs based application and are looking to sync into a mobile based application as well. SDP help the students with live end term projects by engaging them into their pilot projects and also initiate to start a knowledge based portal which helps students to share ideas, job opportunities or any curriculum related activities if any.

The Speaker has explained in detail about the Development using Java-EE & Web.

The Session ended around 5'o clock in the evening.

The questions asked by faculties and students in the program were well answered by the speaker.

OBJECTIVE

My objective as an experienced teacher in a technical educational institution would be to bring my knowledge, experience and expertise to the organization in all aspects and to use my teaching and research skills for the overall advancement of the engineering organization.

EDUCATION

Ph.D. – Jawaharlal Nehru Technological University, Hyderabad

December 2017

Area: Designing the Coverage and Connectivity Mechanisms to Enhance the Life Time in Wireless Sensor Networks

MTech – AAIDU, Allahabad

August 2005

Area: Information Technology

B.E. – Siddaganga Institute of Technology, Tumkur

August 1998

Area: Instrumentation and Electronics

EXPERIENCE

Assistant professor | Presidency University, Bengaluru
July 2018 – Till Date

Assistant professor | Acharya Institute of Technology, Bengaluru
June 2008 – July 2018

Assistant professor | Sapthagiri College of Engineering, Bengaluru
June 2007 – June 2008

Lecturer | Sri Siddhartha Institute of Technology, Tumakuru
October 2001 – June 2007

Lecturer | HMSIT, Tumakuru
October 1998 – October 2001

Report

Two days Hands on "Data Visualization Techniques in Python" 6th and 7th November 2020

Two days Hands-On workshop on "Data Visualization Techniques in Python" was conducted on 6th and 7th November 2020 by ISE department in collaboration with CSE. The session was kick-started with welcome speech by Dr. Naveen M. Later the session was handed over to the speaker Dr. Deepak S Sakkari Assistant Professor Presidency University Bangalore. The speaker gave a brief introduction about Data Visualization and its importance in our world today. The speaker also highlighted the need for data science, and demand for data science. Further explanation on data analysis, machine learning, data visualization, and data warehousing was done. The details of work done by data scientist were explained. Then the speaker contributed the use of Python programming tool in data science. Thus the first day session was concluded.

The second day session was hands-on on Python. All the participants were shown how to install Python tool on their systems. Lots of modules of application were allowed to be created by the participants using python. Later queries of the participants were solved by the speaker. Thus the second day session was concluded. A total of 85 (research scholar = 01, faculties = 18, students = 66) participants actively participated in this two day hands-on on "Data Visualization Techniques in Python". The participants were from RRIT, other colleges and universities from India and Abroad. Later feedback from the participants was collected through online and certificates to the participants were issued.

REPORT ON

Seminar on "Scope of Machine Learning for ECE"

Event Date: 10-11-2020

Platform: Google Meet

1) **Resources Person: Mr. Abhishek R Patil** – Founder & CEO – Zeientia Labs

Overview:

The ERICA -Association of ECE in association with Be Practical and Skill at Will Solutions had organized an one day Seminar on "Scope of Machine Learning for ECE". The main objective of this seminar was to brief the students about the technological aspects of Machine learning, advantages and job opportunities for ECE students.

Topics Covered:

- ❖ What is Machine Learning?
- ❖ What is the Scope of Machine Learning?
- ❖ Applications of Machine Learning?
- ❖ Career opportunities for ECE students in Machine Learning?

Number of Participants: 50

Outcome:-

The Seminar enabled the participants to understand the fundamentals of Machine Learning and motivated the students to understand the latest technologies for the next decade and how those technologies affect their career and how to choose structured career path and understanding of machine learning. The session also motivated the faculties as to how they have to keep in touch with technologies for next decade. So that they can do better in their profession. The participants felt that the session was informative.

Mail_ID; Mobile: 09035636616

Working as Software Consultant at VHU Technologies & Solutions. One Year Trained on Big data analytics tools Hadoop Mapreduce Pig, Hive, Spark Big data engineering PGP from NIT Rourkela in association with Edureka. Worked at IBM for 2.9 years on IBM Mainframe platform. Worked as a Software Engineering (Analyst Programmer) for SYNTEL PUNE(2.10 Yr)from 2010 to 2013. Worked on Insurance and Banking projects for reputed clients like Humana and FDCS, Experience includes Coding and Testing using COBOL, JCL, VSAM, DB2 and CICS on IBM OS/390. Also 9 Years of Teaching experience. Also working as a Associate professor in KSSEM, Bengaluru

Post Graduate Program (PGP)in Big data Engineering from NATIONAL INSTITUTE OF TECHNOLOGY ROURKELA. M.Tech (Computer Science) From VTU, Belgaum in 2007.B.E (Electronics & Communications) From PDA engineering VTU, Belgaum in 2004.

EXPERIENCE

Research scholar (Thesis Submitted)

B.M.S. College of Engineering

Feb. 2016 – July, 2020

Bengaluru, Karnataka

- Development of novel techniques to improve the classification accuracy of decision tree using vertical partitioning approaches for high dimensional datasets.
- Introduced framework to handle decision tree complexity in terms of its structure.
- Improved the performance of decision tree classifier for imbalanced (un-balanced) datasets with the support of vertical partitioning.

Project Fellow

B.M.S. College of Engineering

March 2015 – Feb. 2016

Bengaluru, Karnataka

- Built models for teacher recruitment datasets using machine learning algorithms (CART, C4.5 and C5.0 Decision trees)
- Involved in data pre-processing techniques using R packages.
- Generated association rules to recommend policies for teacher recruitment process using arule package in R.

SAP ABAP Consultant

Nabros System Pvt. Ltd

April, 2013 – Jan. 2015

Hubballi, Karnataka

- Handled Invoice modifications based on the client request.
- Generation of monthly report.
- Mentoring junior developers.

PAPER REVIEWER FOR CONFERENCE

- TENCON2019, IEEE international technical conference, 17-20, October 2019 at Hotel Grand Hyatt, Bolgatty, Kochi, Kerala, India
- rtip2r2018, The Second International Conference on Recent Trends in Image Processing and Pattern Recognition, December 21-22, 2018.
- CoCoNet 2015, International Conference on Computing and Network Communications, December 16-19, 2015, Trivandrum, Kerala.

PAPER REVIEWER FOR JOURNAL

- Indonesian Journal of Electrical Engineering and Computer Science, Scopus Indexed Journal, (June 2019- Present).
- Array, (Elsevier publications), (August 2019- Present).
- IEEE Access (June 2019- Present)

Report of Online Two days Online Workshop "Big Data Spark and Computing" On 16th and 17th October 2020.

Two days Online Workshop "Big Data Spark and Computing" was organized by the Department of Computer Science and Engineering on 16th and 17th October 2020 at 3.00 pm to 4.30pm.

81 students attended the program through Zoom App. Prof Arpitha Martin, welcome the speaker, Mr. Santosh Kumar J, Software Consultant, VHU Technologies & Solutions and Mr. Shankri Guggari, Data Engineer, Query Data Systems Pvt. Ltd., Bangalore. She introduced the chief guest to the students and spoke about significance of the Program. The trainer on an activity based mode in addition to lectures and video clippings. Big Data Spark and Computing With the size of data increasing each day, the traditional methods of data processing have become inefficient and time consuming. Today, Facebook, Google, Twitter are generating Petabytes of data each day. This large amount of data is given the term 'Big Data'. To overcome this inefficiency, the processing of Data can be performed using Apache spark. Apache Spark is a fast, in-memory processing of large amount of data. In this research paper, the author discusses an efficient way of analyzing Big Data stored in Hadoop Distributed File System HDFS using Apache Spark framework, and its advantages over Hadoop MapReduce framework.

Data is growing faster than the computation speeds. Various sources of data are Public web, social media, business applications, data storage, machine log data, sensor data, archives, documents, and media, and the sources are growing. Big data analytics is the process of examining large amount of data to determine hidden patterns, unknown correlations and useful information that can be used for making better decisions. The traditional analysis tools like UNIX shell commands, Pandas, and R get inefficient with huge data, as they work on a single machine, and a single machine can no longer process or even hold all of the data that we want to analyze. HDFS solves this problem by holding large amount of data up to petabytes of data and provide faster access to it. Data is stored by distributing it over clusters. Files are stored across

R.R. INSTITUTE OF TECHNOLOGY

Chikkabanavara, Bangalore - 560 090.

To be a premier Institute with excellence in the field of Engineering and Management

Invitation for Three days Workshop on "Mega BlockChain"

rafi chinna <rafichinna97@gmail.com>
To: RRIT CSE <cse@rrinstitutions.com>

Sat, Oct 17, 2020 at 10:39 AM

Speaker 1

Harman Puri
Blockchain Trainer
EnestHub

A quirky Blockchain evangelist who can provide comprehensive services in the Blockchain Space. From consultancy to development, mentoring, or content creation, you can reap the benefits of my expertise whatever your requirements are. I am a Corda certified Blockchain developer and have expertise in Corda, Hyperledger, and Ethereum. When I am not working, I am probably writing about Blockchain, watching FRIENDS, or listening to Coldplay with an espresso in my hand.

Reach out to Harman :
hspuri26@gmail.com
Website: <https://harmanpuri.in/>

Speaker 2

Sharath k
CEO at EnestHub

Sharath is instrumental in setting up the strategic direction of the company, defining company's priorities, driving the mission and company's work culture.

He strongly feels that industry interfaces in professional education makes learning more accessible and students more equipped to require new roles and jobs.

Reach out us <https://www.enesthub.com/>

Thanks & Regards

Team EnestHub

Date: 11/11/2020

Three days Online Workshop on "MEGA BLOCKCHAIN" dated 21st to 23rd October 2020

Three days online workshop was conducted on **MEGA BLOCKCHAIN** from 21st to 23rd October 2020 by the department of CSE. The session was kick started with inaugural speech by Prof. Shruthi S, Asst. Professor, department of CSE. After that the session was handed over to the resource persons, **Mr. Harman Puri**, Block chain Trainer and **Mr. Sharath K.** CEO, EnestHub, Bengaluru.

The workshop covered the in and out of Blockchain technology like, if you have been following banking, investing, or crypto currency over the last ten years, you may be familiar with "block chain," the record-keeping technology behind the Bit coin network. And there's a good chance that it only makes so much sense. In trying to learn more about block chain, you've probably encountered a definition like this: "block chain is a distributed, decentralized, public ledger." If this technology is so complex, why call it "block chain?" At its most basic level, block chain is literally just a chain of blocks, but not in the traditional sense of those words. When we say the words "block" and "chain" in this context, we are actually talking about digital information (the "block") stored in a public database (the "chain").

Each computer in the blockchain network has its own copy of the blockchain, which means that there are thousands, or in the case of Bitcoin, millions of copies of the same blockchain. Although each copy of the blockchain is identical, spreading that information across a network of computers makes the information more difficult to manipulate. With blockchain, there isn't a single, definitive account of events that can be manipulated. Instead, a hacker would need to manipulate every copy of the blockchain on the network. This is what is meant by blockchain being a "distributed" ledger.

BRIEF PROFILE

Mr. Mahantesh C. Angadi, received his Bachelor's Degree Information Science and Engineering in 2013, and Post-graduation in 2015 from Visvesvaraya Technological University, Belgaum, Karnataka

Mr. Mahantesh C. Angadi is having an IT experience of 5+ currently working as Principal Software Engineer at SakhaTech IT Systems Pvt. Ltd., Bengaluru. He has published research in International Journals and National Conferences. He has conducted workshops and delivered lectures at various colleges. Currently he is working on Big Data, Machine Learning, AWS, Azure, Java and Python. His interests include Cloud Computing and Data Analytics.

Report of Online Technical Seminar on "Message Services in Big Data Applications" on 31st August 2020

Online Technical Seminar on "Message Services in Big Data Applications" was organized by the department of Information Science and Engineering on 31st August 2020 at 11:00 am. 86 participants attended the program through Zoom App. Prof Arpitha Martin, welcome the speaker, Mr. Mahantesh C Angadi Software Engineer, SakhaTech Information Systems Pvt. Ltd., Bengaluru. She introduced the chief guest to the students and spoke about significance of the Program. The purpose of this technical seminar is to expose the students/faculty members/research scholars to an exciting growing field of big data analytics. This course introduces the tools required to manage and analyze big data like Hadoop, NoSQL Map Reduce.. The feedback obtained from the participants revealed that:

- The program was useful to all of them.
- Helps in enhancing their skills that will help them to solve complex real-world problems in for decision support.
- They need programs of this kind to be conducted at regular intervals.

Big data is a field that treats ways to analyze, systematically extract information from, or otherwise deal with data sets that are too large or complex to be dealt with by traditional data-processing application software. Data with many cases (rows) offer greater statistical power, while data with higher complexity (more attributes or columns) may lead to a higher false discovery rate. Big data challenges include capturing data, data storage, data analysis, search, sharing, transfer, visualization, querying, updating, information privacy and data source. Big data was originally associated with three key concepts: volume, variety, and velocity. When

we handle big data, we may not sample but simply observe and track what happens. Therefore, big data often includes data with sizes that exceed the capacity of traditional software to process within an acceptable time and value.

Current usage of the term *big data* tends to refer to the use of predictive analytics, user behaviour analytics, or certain other advanced data analytics methods that extract value from data, and seldom to a particular size of data set. Big data has increased the demand of information management specialists so much so that Software AG, Oracle Corporation, IBM, Microsoft, SAP, EMC, HP and Dell have spent more than \$15 billion on software firms specializing in data management and analytics. In 2010, this industry was worth more than \$100 billion and was growing at almost 10 percent a year: about twice as fast as the software business as a whole.

Government

The use and adoption of big data within governmental processes allows efficiencies in terms of cost, productivity, and innovation, but does not come without its flaws. Data analysis often requires multiple parts of government (central and local) to work in collaboration and create new and innovative processes to deliver the desired outcome.

CRVS (civil registration and vital statistics) collects all certificates status from birth to death. CRVS is a source of big data for governments.

International development

Research on the effective usage of information and communication technologies for development (also known as ICT4D) suggests that big data technology can make important contributions but also present unique challenges to International development. Advancements in big data analysis offer cost-effective opportunities to improve decision-making in critical development areas such as health care, employment, economic productivity, crime, security, and natural disaster and resource management. Additionally, user-generated data offers new opportunities to give the unheard a voice. However, longstanding challenges for developing

A related application sub-area that heavily relies on big data, within the healthcare field is that of computer-aided diagnosis in medicine. One only needs to recall that, for instance, for epilepsy monitoring it is customary to create 5 to 10 GB of data daily. Similarly, a single uncompressed image of breast tomosynthesis averages 450 MB of data. These are just few of the many examples where computer-aided diagnosis uses big data. For this reason, big data has been recognized as one of the seven key challenges that computer-aided diagnosis systems need to overcome in order to reach the next level of performance.

Education

A McKinsey Global Institute study found a shortage of 1.5 million highly trained data professionals and managers and a number of universities including University of Tennessee and UC Berkeley, have created masters programs to meet this demand. Private boot camps have also developed programs to meet that demand, including free programs like The Data Incubator or paid programs like General Assembly. In the specific field of marketing, one of the problems stressed by Wedel and Kannanis that marketing has several sub domains (e.g., advertising, promotions, product development, branding) that all use different types of data. Because one-size-fits-all analytical solutions are not desirable, business schools should prepare marketing managers to have wide knowledge on all the different techniques used in these sub domains to get a big picture and work effectively with analysts.

Media

To understand how the media utilizes big data, it is first necessary to provide some context into the mechanism used for media process. It has been suggested by Nick Couldry and Joseph Turow that practitioners in Media and Advertising approach big data as many actionable points of information about millions of individuals. The industry appears to be moving away from the traditional approach of using specific media environments such as newspapers, magazines, or television shows and instead taps into consumers with technologies that reach targeted people at optimal times in optimal locations. The ultimate aim is to serve or convey, a message or content that is (statistically speaking) in line with the consumer's mindset. For example, publishing

regions such as inadequate technological infrastructure and economic and human resource scarcity exacerbate existing concerns with big data such as privacy, imperfect methodology, and interoperability issues.

Healthcare

Big data analytics has helped healthcare improve by providing personalized medicine and prescriptive analytics, clinical risk intervention and predictive analytics, waste and care variability reduction, automated external and internal reporting of patient data, standardized medical terms and patient registries and fragmented point solutions. Some areas of improvement are more aspirational than actually implemented.

The level of data generated within healthcare systems is not trivial. With the added adoption of mHealth, eHealth and wearable technologies the volume of data will continue to increase. This includes electronic health record data, imaging data, patient generated data, sensor data, and other forms of difficult to process data. There is now an even greater need for such environments to pay greater attention to data and information quality.

"Big data very often means 'dirty data' and the fraction of data inaccuracies increases with data volume growth." Human inspection at the big data scale is impossible and there is a desperate need in health service for intelligent tools for accuracy and believability control and handling of information missed. While extensive information in healthcare is now electronic, it fits under the big data umbrella as most is unstructured and difficult to use. The use of big data in healthcare has raised significant ethical challenges ranging from risks for individual rights, privacy and autonomy, to transparency and trust.

Big data in health research is particularly promising in terms of exploratory biomedical research, as data-driven analysis can move forward more quickly than hypothesis-driven research. Then, trends seen in data analysis can be tested in traditional, hypothesis-driven follow-up biological research and eventually clinical research.

environments are increasingly tailoring messages (advertisements) and content (articles) to appeal to consumers that have been exclusively gleaned through various data-mining activities.

- Targeting of consumers (for advertising by marketers)
- Data capture
- Data journalism: publishers and journalists use big data tools to provide unique and innovative insights and infographics.

Channel 4, the British public-service television broadcaster, is a leader in the field of big data and data analysis.

Insurance

Health insurance providers are collecting data on social "determinants of health" such as food and TV consumption, marital status, clothing size and purchasing habits, from which they make predictions on health costs, in order to spot health issues in their clients. It is controversial whether these predictions are currently being used for pricing.

Internet of Things (IoT)

Big-data and the IoT work in conjunction. Data extracted from IoT devices provides a mapping of device inter-connectivity. Such mappings have been used by the media industry, companies and governments to more accurately target their audience and increase media efficiency. IoT is also increasingly adopted as a means of gathering sensory data, and this sensory data has been used in medical, manufacturing and transportation contexts.

Kevin Ashton, digital innovation expert who is credited with coining the term, defines the Internet of Things in this quote: "If we had computers that knew everything there was to know about things—using data they gathered without any help from us—we would be able to track and count everything, and greatly reduce waste, loss, and cost. We would know when things needed replacing, repairing or recalling, and whether they were fresh or past their best."

➤ Information technology

Especially since 2015, big data has come to prominence within business operations as a tool to help employees work more efficiently and streamline the collection and distribution of information technology (IT). The use of big data to resolve IT and data collection issues within an enterprise is called IT operations analytics (ITOA). By applying big data principles into the concepts of machine intelligence and deep computing, IT departments can predict potential issues and move to provide solutions before the problems even happen. In this time, ITOA businesses were also beginning to play a major role in systems management by offering platforms that brought individual data silos together and generated insights from the whole of the system rather than from isolated pockets of data

Speaker Profile

Mr. Bharatesh Chakravarthi

Mr. Bharatesh Chakravarthi is currently working as a research scholar at Virtual Environments Lab, Chung-Ang University, Seoul, South Korea. He is working on a research project "Proxemics based pervasive Interactions for the wide-area, high-speed serial motion recognition", supported by Institute of Information & communication technology planning and Evaluation grant funded by the Republic of Korea government. He was previously working as an academician at Engineering Institutes with five years of teaching experience. He has conducted various hands-on workshops and has delivered technical talks. He also has made contributions to open-source projects and has published technical papers at various conferences and journals.

Report for the "International Seminar on "Human Computer Interaction in Virtual Environments" on 17th August 2020.

Department of ISE in association with CSE had conducted International Seminar on "Human Computer Interaction in Virtual Environments" on 17th August 2020 for ISE, CSE students, staff and for other colleges faculties, students also. Day Started at 11.00 am by welcoming the Management, Qac, Iqac, Principal, HOD, ISE&CSE, Students, staff of RRIT and other colleges faculties, students. The workshop was conducted through Zoom App with total 124 members which includes 55 Faculties, 69 students and others. The event was continued with the introduction to the Resource Person Mr. Bharatesh Chakravarthi, Research Scholar, Virtual Environments Lab, Chung-Ang University, Seoul, South Korea, by Prof Swetha K B, Dept. of ISE, RRIT. The Session included both Theory and Practical videos in it and the event ended around 12'o clock in noon. The questions asked by faculties and students in the event was well answered by the resource person.

The session stated what computers will be able to accomplish by 2030. The session talk about Human Motion Capture Systems (MoCap) was explained with which the practical videos were shown and well explained. The workshop was very much useful for all since it is a current trend and many researchers working on virtual reality concepts. This was also a real research project which the resource person and team are working on. Overall it was a good satisfactory session for those attended. The key content of the Course was about

- To acquire knowledge about Human Computer Interaction in Virtual Environments.
- To Identify and describe various HCI methodologies and virtual Reality environments.
- Articulate the co-dependency of the user and the HCI technologies in VR.

Department of Information Science & Engineering

- Analyze how the study of interface / Interactivity / interaction influences the design of an HCI system.
- Develop basic prototypes with a range of interaction styles and technologies.

At this end of this course the participants will were able to:

- Describe typical Human Computer Interaction Models and Virtual Reality aspects.
- Analyze and identify user models, user support, socio-organizational issues, and stakeholder requirements of HCI systems.
- Analyze and discuss HCI issues in groupware, virtual reality and multimedia environments.

Here with attaching the screenshots of the event conducted through Zoom, and report for your kind perusal.

Thank you for your kind support and guidance.

Yours faithfully,

P. N. H. B.

Report On Online Technical Seminar "Trends In Data Analytics"

A seminar entitled "Trends in Data Analytics" was organized by department of Information Science and Engineering on 18th August 2020 at 11:00 AM through Google Meet. Prof. Arpitha Martin, Asst. Professor, ISE welcome the speaker.

Mr. Manjunath T N, Dean and Professor, Dept of ISE, BMSIT&M, Also welcome the Staff and Students. The speaker highlighted the topic, **The Trends in Data Analytics**, 90% of the world's data has been created in just the past few years. Faced with overwhelming amounts of data, organizations are struggling to extract the powerful insights they need to make smarter business decisions data in new and innovative ways. Data Analytics is done to analyze the data for taking future decisions. The different steps in data analytics was overviewed with real world examples. The overall participants were 71, in that faculty strength was 16, student strength was 44 and Research Scholar was 1

Dr. Manjunath T N ISE is presenting

BMS INSTITUTE OF TECHNOLOGY AND MANAGEMENT

Analytics Life Cycle (Cont...)

1. Problem Identification

The Problem is a situation which is judged to be corrected or Solved problems can be identified through:

1. Comparative / Benchmarking studies
2. Performance Reporting
3. Asking few basic questions
 - a. Who are affected by the problem?
 - b. What will happen if problem is not solved?
 - c. When and Where does the problem occurs
 - d. Why is the problem occurring?
 - e. How are the people are currently handling the problem?

Meeting details

Dr. Manjunath T N ISE is presenting

BMS INSTITUTE OF TECHNOLOGY AND MANAGEMENT

Analytics Life Cycle (Cont...)

4. Data Exploration

- a. Importing data
- b. Variable Identification
- c. Data Cleaning
- d. Summarizing data
- e. Selecting subset of data

5. Model Building

Building a model is a iterative process because there is no such thing as final and perfect solution

Many of the machine learning and statistical techniques are available in traditional technology platform.

Education

1. Master of Technology in Computer Science and Engineering from Acharya Institute of Technology, VTU, Belgaum, India, Year 2011-2013 with 77.83 %.
2. Bachelor of Engineering in Information Science and Engineering from Channabasaveshwara Institute of Technology, VTU, Belgaum, India, Year 2005-2009 with 62.88%.

Objective

I aim to work in a reputed organization and make the best of my functional / technical skills as an individual by being resourceful to the employer and beneficial to the organization at the same time. I also intend to contribute towards the organization's growth and personal growth by continuously improving my skills. I pledge to work as a dedicated person to get the tasks done with focus, commitment, and dedication.

Experience

17th July 2017 to till date.

• Assistant Professor • BNM Institute of Technology

23rd July 2013 to 14th July 2017

• Assistant Professor • Acharya Institute of Technology

20th February 2010 to 16th June 2011

• Lecturer • Channabasaveshwara Institute of Technology

10th August 2009 to 18th February 2010

• Assistant Engineer • M.V. Instruments

Keep abreast of developments in the field by reading current literature, talking with colleagues, and participating in professional organizations and conferences. Motivated and dynamic educator with an advanced degree and 9+ years of classroom experience. Proficient with popular educational hardware (tablets, desktops, laptops, Smartboards) and software (Online Coaching). Advanced coordinator with a visionary leadership style in conducting events and online courses. Supervise undergraduate or graduate teaching, internship, and research work.

Workshops Organized

Organized a workshop to create awareness on "Open-Source Software" held in Acharya Institutes in the year 2017.

Invited Talk

Delivered concepts of Data Structures as resource person for the Three Days "Expert Lecture Series", on "Concepts of Data Structures: One should know", scheduled from 05/11/2020 to 07/11/2020 at EWIT, Bengaluru.

Delivered concepts of Algorithms as resource person for the Four Days "Expert Lecture Series", on "Accelerate your Concepts in Design & Analysis of Algorithms", scheduled from 02/07/2020 to 06/07/2020 at EWIT, Bengaluru.

Projects

Bachelor of Engineering

1. Extendible Hashing on File Structures
2. Job Portal on J2EE

Master of Technology

1. DWT-Lifting Scheme for Image Compression.
2. Palm Print Recognition using Biometrics.
3. FEC Techniques for Reliable Data Transmission using BP decoding Algorithm.

PRINCIPAL

Positions held in the present organization,

1. Department NBA, NAAC file in charge.
2. Spoken Tutorial Online Course Coordinator.
3. Deputy Chief Superintendent (External) at BMS Evening College of Engineering, Bangalore from 24-06-2019 to 20-07-2019 for the conduction of June/July 2019 B.E. examinations of VTU, Belagavi

Membership of Professional Bodies

1. I.S.T.E: Indian Society of Technical Education from 2014 (LM NO: 102954).
2. IAENG: International Association of Engineers (LM NO: 150035).
3. IACSIT: International Association of Computer Science & Information Technology (LM NO: 80349938).
4. AIAA: The American Institute of Aeronautics and Astronautics (LM NO: 517941).

Publications**Journal**

1. Published a paper entitled "Semi-Automated System for Filtering Objectionable Content Using Video Metadata" in IJSTR, March 2020, Volume 9, Issue 3.
2. Published a paper entitled "Detecting Zero Day Malware" in IJERT, May 2019, Volume 8, Issue 5.
3. Published a paper entitled "An Efficient, Secure Deduplication Data Storing in Cloud Storage Environment" in IJRET, April 2015, Volume 4, Issue 4.

Conferences

1. Presented a paper entitled "FEC Techniques for Reliable Data Transmission using BP Decoding Algorithm" and received "GRET Citation Award" in International Conference on Computer Science and Engineering organized by IRNet in the year 2013.
2. Presented a paper entitled "FEC Techniques for Reliable Data Transmission using BP Algorithm" in National Conference on Recent Advances in Technology and Engineering organized by T. John Institute of Technology, Bangalore, in the year 2013.
3. Presented a paper entitled "Image Compression using DWT" in National Level Students Technical Paper Symposium held in H.M.S. Institute of Technology in the year 2012.

Workshops / Short term course attended

1. Participated in the "EK BHARAT SHRESHTHA BHARAT - NATIONAL LEVEL E-QUIZ ON UTTARAKHAND" organized by BNM Institute of Technology in the year 2020.
2. Participated in the webinar on "MENTAL DISORDER DIAGNOSIS USING MACHINE LEARNING: OPPORTUNITIES AND CHALLENGES" organized by EWIT in the year 2020.
3. Participated in five-day International FDP on "EMERGING TRENDS IN COMPUTER SCIENCE AND ENGINEERING" organized by the DSU-SoE.
4. Participated in a webinar on "EMPLOYABILITY SKILLS IN CURRICULUM DESIGN" organized by Audishankara college of Engineering and Technology in the year 2020.
5. Participated in "SPITTING KILLS" campaign during April-May 2020 to prevent spread of COVID-19 organized by Narayana Health.
6. Participated in one-week FDP on "RESEARCH AND INNOVATION FOR GROWTH" held in BNM Institute of Technology in the year 2020.
7. Participated in one-day workshop on "BUSINESS COMES ALIVE 2019" organized by Intel, held in ITC Gardenia, Bengaluru in the year 2019.

M. R. R.
PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

8. Participated in one-week workshop on "FACULTY SKILL ENHANCEMENT PROGRAM ON C" held in eBox Academy, Amphisoft Technology, Bengaluru in the year 2019.
9. Participated in one-week FDP on "DATA ANALYTICS" held in BNM Institute of Technology in the year 2019.
10. Participated in two-days FDP on "CYBER SECURITY" held in Cognizant, Bengaluru in the year 2018.
11. Participated in one-week FDP on "INTERNET OF EVERYTHING" held in BNM Institute of Technology in the year 2017.
12. Participated in one day workshop on "MATLAB EXPO 2017" organized by MATLAB & SIMULINK, held in Park Plaza, Bengaluru in the year 2017.
13. Participated in Pre-Conference Tutorial of "INTERNATIONAL CONFERENCE ON TRENDS IN AUTOMATION, COMMUNICATION & COMPUTING TECHNOLOGIES" held in Acharya Institute of Technology in the year 2015.
14. Participated in "FACULTY PEDAGOGICAL DEVELOPMENT PROGRAMME" FDP held in Acharya Institute of Technology in the year 2014.
15. Participated in "MULTICORE ARCHITECTURE, MULTITHREADING & PROGRAMMING" Workshop held in Acharya Institute of technology in the year 2014.
16. Participated in "RESEARCH METHODOLOGIES" two days workshop held in Acharya Institute of Technology in the year 2013.
17. Participated in "FORMAL MODEL & PROGRAM VERIFICATION" two days Workshop held in Acharya Institute of Technology in the year 2012.
18. Participated in "RENEWABLE ENERGY RESOURCES" Workshop held in Channabasaveshwara Institute of Technology in the year 2010.

Awards / Appreciation

1. Received appreciation certificate from IIT Bombay for spreading awareness and holding Software Training workshop at BNM Institute of Technology, Bangalore for 2 years 2017-2019. The phenomenal success of Spoken Tutorial Based software training program in BNM Institute of Technology, Bangalore in the year 2019.
2. Recognized as "**SILVER Partner Faculty**" under Inspire-The Campus Connect Faculty Partnership Model for contributions towards Campus Connect during Jan-Dec 2017.
3. Received appreciation certificate from IIT Bombay for spreading awareness and holding Software Training workshop at Acharya Institute of Technology, Bangalore for 4 years 2013-2017. The phenomenal success of Spoken Tutorial Based software training program in Acharya Institute of Technology, Bangalore in the year 2017.
4. Received "**Graduate Research in Engineering and Technology**" Citation award from IRNet in International Conference in the year 2013.

Internship

Worked in CIERA SOFTECH for 6 Months as intern in development of FEC terminology to make use of reliable data transmission without any packet loss in the year 2013.

Consultancy Work

Mentor of the R&D Project entitled "**I SEE YOU**" for SASKEN Communications, Bangalore from August 2016 to May 2017.

Online Course

Completed online course "Master the Coding Interview: Data Structures and Algorithms" on 12th April 2020 from Udemy.

REPORT

Date: 09/12/2020

Guest Lecture on "Applications in Data Structures" 7th December 2020

Guest Lecture on "Applications in Data Structures" was organised by department of Information Science & Engineering for students of ISE and CSE department. Dr. Naveen M welcomed the speakers Prof. Manjunath G S BNMIT Bangalore.

The session was later taken over by the speaker Prof. Manjunath G S. The speaker gave a brief introduction to Data Structures with examples. The speaker explained the advantages of using Data Structures like Efficient usage of memory, Reusability, Abstraction, and in Software Development. The usage of Data Structures in real-time was also explained by the speaker with examples for Stack, Queue, Graphs in social media, Google maps, and Searching and Sorting. The uses of Data Structures and Algorithms in real-time was also discussed by the speaker for Chatbots, Stock Market, Artificial Intelligence, Machine Learning, Automotive Design, Robotics, Gaming, Routing, and Engineering Design.

At the end of the session explanation was given in details with examples for Linked List. The session was concluded with answers to the queries from the students. A total of 33 students participated in the event.

Subject: Request to organize a guest lecture on "Job Opportunities in India & Abroad" on 31/8/2019.

The department has planned to organize a guest lecture on "Job Opportunities in India & Abroad on 31/08/2019. This will be beneficial for 5th and 7th semester students. The main objective is to brief the students about higher education, job opportunities and industry expectations in India and Abroad. The session clarifies career related doubts about choosing public sector and IT/core jobs. Hence, we request you kindly to permit us to conduct the same and oblige.

Thanking you,

Your's faithfully

Report on Guest lecture

ERICA-The department of Electronics and Communication association had organized a guest lecture on "Job Opportunities in India & Abroad" on 31/08/2019 for the final and pre-final year students.

Objective: This lecture was organized to give an insight on the various job opportunities and opportunities for higher studies in India and abroad in the field Electronics and Communication Engineering.

Resource Person: Mr. B A Ranganathan, Associative professor, department of civil engineering, RRIT, Bangalore (CV enclosed with the report)

In his lecture Mr. B A Ranganathan discussed the job opportunities in India and abroad and also introduced the students to many exclusive examples and challenges in the world. He also briefed about the higher studies opportunities in India and abroad.

Outcome: The session was informative and provided information on all the areas of Electronics and Communication Engineering field.

Subject: Proposal for conduct student development program on "COMPETITIVE EXAM PREPARATION FOR JOBS IN PUBLIC SECTORS AND QUALIFYING FOR GATE" - 23rd September 2019, reg

To enhance the job opportunities ^{for students} in the public sectors and qualifying for the GATE examination, department of civil engineering is planned ^{ing?} on 23rd September 2019 at main seminar hall, RRIT. Kindly request you to give permission to do the same. All the expenditure will be borne from KARTHURU (student association of civil engineering department). We are submitting all the documents in seriatim.

• Objectives and outcome of the program:

Objectives:

- ✓ To make the student for the preparation on the competitive examination
- ✓ To know the pattern of the examination.
- ✓ Time allotment for the each subject
- ✓ Reference books and web sites

Outcomes:

- ✓ As our students are not aware of the competitive examination
- ✓ Minimum GATE qualification is required for all the public sectors job and also multinational companies

For higher studies in premium universities / colleges requires GATE qualification. GATE qualified students will get 18,000 /- rs per month as sty fund for higher education.

Details of budget: Separate sheet enclosed

- Acceptance letter by resource persons: Separate sheet attached
- Draft on feedback forms (PO's & PSO's): Rating from 1 to 5 (in ascending order)

- 1) Was program useful?
- 2) Length of each session was enough time was provided
- 3) Experiments conducted were clear and understood
- 4) Infrastructure facilities provided is good
- 5) Knowledge on each experiment were clearly explained
- 6) Able to handle equipments in confidently
- 7) Food facilities provided is good.
- 8) Sufficient knowledge on equipments gained
- 9) Knowledge on materials and chemicals
- 10) Tutor was able to explain clearly and given enough trials of experiment to understand.

- Draft feedback form from to be filled by resources person: NA

ACTIVITIES AND ACHIEVEMENTS

- ✓ Secured All India rank of 6059 in Civil Engineering stream in GATE-2019.
- ✓ Secured All India rank of 5025 in Civil Engineering stream in GATE-2018.
- ✓ Secured All India rank of 6057 in Civil Engineering stream in GATE-2017.
- ✓ Attended PMI conference 2013 in IIT-M.
- ✓ Secured All India rank of 3051 in Civil Engineering stream in GATE-2012.

EXPERIENCE

- ✓ Worked as ASSISTANT PROFESSOR for duration of 2.5 year (28th July 2017 to Till date) at THE OXFORD COLLEGE OF ENGINEERING, Bengaluru, Karnataka-560068.
- ✓ Worked as ASSISTANT PROFESSOR for duration of 2 year (1st August 2015 to 20th July 2017) at EAST POINT COLLEGE OF ENGINEERING AND TECHNOLOGY, Bengaluru, Karnataka-560049

ACADEMIC PROJECTS

- ✓ PROJECT TITLE: "Time Cost Optimization of Construction Projects Using Activity Constraints" Under the guidance of Dr. C B Kameswara Rao during my Post Graduation
- ✓ PROJECT TITLE: Analysis & Design of Multi Storey Building, under the guidance of Mr. Mahantesh N B (Asst. Prof.) during my Under Graduation.

REPORT ON ONE DAY SDP PROGRAM

23rd September 2019

“COMPETITIVE EXAM PREPARATION FOR JOBS IN PUBLIC SECTORS AND QUALIFYING FOR GATE”

The Department of Civil Engineering has organized one day SDP on “COMPETITIVE EXAM PREPARATION FOR JOBS IN PUBLIC SECTORS AND QUALIFYING FOR GATE” for 5th and 7th sem Civil Engineering students at civil block seminar hall on 23rd September 2019 from 11.00AM to 1.00PM. Prof. Gunasheela P, Asst Prof of civil department welcomed the guest and staff members, Dr. G Sankara Head of civil department and Prof. Ranganathan, Associate prof in Civil Engineering department spoke about the importance of writing GATE. Prof. Mahesh Kumar S, Chief guest delivered the lecture about the preparation for competitive exam and preparation GATE.

High light of the seminar

- Importance of higher studies
- Top ranking universities /colleges
- Importance of GATE exam
- Stipends available
- Important of research
- Jobs opportunities in public and private sector

We thank the management of RRIT, Principal- RRIT, HOD of civil department for supporting and giving us the opportunity to organize the event.

March 4th 2020

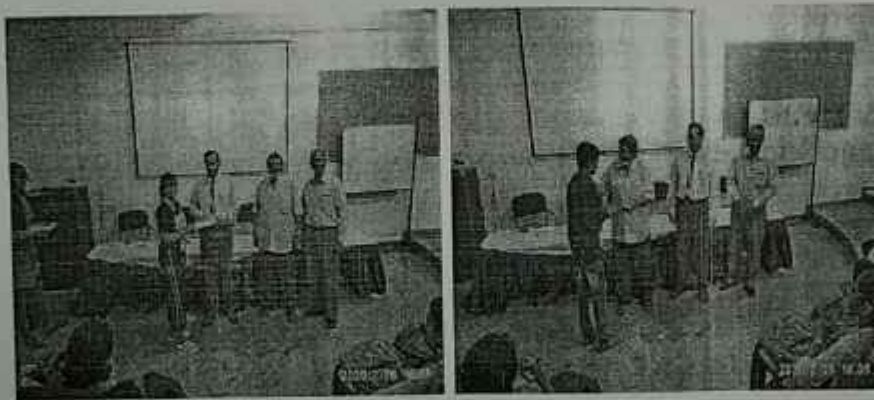

REPORT OF NATIONAL SCIENCE DAY

National Science day will be celebrated on 28th February throughout Country every year on the eve of Birthday of Sir C V Raman who received Nobel Prize in Physics for the discovery of Raman Effect in 1938. Department of Basic Sciences celebrated the National Science Day on 28th Feb 2020 with two activities: one is Science Quiz and the other is Event on IQ development through Puzzles.

In the morning session, we conducted Science quiz test for 1 year students, 51 students took enrollment actively. The winner for Science quiz is Ms. Aditi Saho and runner is Mr. Dheeraj K.

Photos of IQ development with puzzles By Prof Rahim S A

The 'IQ development through Puzzles' was conducted in the afternoon session by Prof Rahim S A, Rtd Principal, Govt Polytechnique College, Bangalore for I year students. Ms. Harshita welcomed the gathering and Ms. Meghashri introduced resource person. Prof Rahim conducted the event through various Puzzles of mathematics, in which students took active participation. To solve puzzles Prof Explained various tricks, which measures IQ of student and practice of such puzzles will increase IQ. He gave away prizes for the students who answered quiz questions during the entire session. Students enjoyed throughout the session and were immensely benefited. Dr Anita R Shettar proposed vote of thanks.

STUDENT INDUCTION PROGRAMME-II PHAASE II SEMESTER, 2019-20

BRIEF REPORT ON PERSONALITY DEVELOPMENT conducted on 18-02-2020 at
RRIT, Bangalore-90

PERSONALITY DEVELOPMENT BY MR. VIJAY G. PUBLIC RELATION, NAV YUGA CONSTRUCTION

Mr Vijay G Explained the following terms of Personality Development

- **Be Good:** It is vital not just to pretend to be a helpful person; you genuinely have to do that to be that person. For instance, you realized that someone is in need, you can guide and say that I feel if you go to that person, he can be of help to you. Or you can give small piece of advice. Satisfactions that you get after helping someone is amazing and believe me that will reflect on your face and personality development.
- **Do you really need to change:** Come let's understand when it's time for you to change? Suppose, you are talking with someone and that person, is nodding but not interested in you or your topic! The person is looking at his watch while speaking to you. The person, suddenly hop on to some other person and speak for hours with that person. There is sudden silence in the room as soon, as you enter. So, come out of your cocoon and see the world with unbiased eyes. Soon, you will realize that you need to adapt to new environment.
- **Work on Inner beauty:** We all work on external appearance, but when you speak everything get reflected, weather you are arrogant, dominating, self-centered or not concerned. From your actions and way to behave and speak it all gets reflected. So make sure that you work on

The effects of electrical current through the human body vary according to:

- The voltage
- The time the current flows
- The value of the current
- The frequency of the network
- The pathway of the current
- The ability of the person to react

Electrical installations with voltages up to 30 V, in dry places, and up to 25V, in wet or humid places (AC) and up to 120 V in DC are considered safe in what concerns direct and indirect contacts. The duration of the fault must be limited by the action of protection relays and devices. Below is a given table which shows the different values of current and its effect on human body. Keep in mind that it is the average value and not meant to be same for everyone as it depends on different factors. Increase of frequency decreases the danger of current through the human body. The called "industrial frequencies" (50 Hz or 60 Hz) are the more dangerous.

AC or DC, Which one is dangerous?

Keep in mind that both the AC and DC voltages and Currents are dangerous & hazardous.

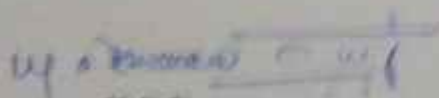

But AC with 50 or 60Hz frequency is more dangerous than the same voltage of level for DC

Prevention of Electric Shock(Hazards).

1. Never mix water and electricity
2. Pay attention to what your appliances are telling you.
3. Install Ground Fault Circuit Interrupters (GFCI).
4. Make sure you're using the right size circuit breakers and fuses.
5. Protect kids with outlet covers.
6. Avoid cube taps and other outlet-stretching devices.
7. Replace missing or broken wall plates.
8. Keep electrically powered yard-care tools dry.
9. Match the light bulb's wattage rating to the lamp.
10. Be kind to you cords.

The first year B.E. Students can Understand the concept of electric shock and prevention technique is usefulness in his life.

At the end of the session all the students gave feedback on Google form about session.

Report of Online Workshop on "Personality Development & Resume Writing" on 30/06/2020

One day online Workshop on "Personality Development & Resume Writing" was organized by the department of Computer Science and Engineering on on 30th June 2020 at 3.00 pm to 4.30pm. 100 students attended the program through Zoom App. Dr. Naveen M. welcome the speaker, Mr. Mohammed Habbeb Technology Director, CTO, ParvaM Consul-tech Pvt Ltd, Bangalore. He introduced the chief guest to the students and spoke about significance of the Program. The trainer on an activity based mode in addition to lectures and video clippings. Group discussions were also held to make students learn to think collaboratively and also work under competition. All the students participated actively in all the activities. The feedback obtained from the students revealed that:

- The program was useful to all of them.
- Helps in enhancing their communication and leadership skills
- They need programs of this kind to be conducted at regular intervals.

"Personality is that pattern of characteristic thoughts, feelings, and behaviours that distinguishes one person from another and that persists over time" "It is the sum of biologically based and learnt behaviour which forms the person's unique responses to environmental stimuli"

The Big Five personality traits, also known as the five factor model (FFM), is a model based on common language descriptors of personality (lexical hypothesis). These descriptors are grouped together using a statistical technique called factor analysis (i.e. this model is not based on scientific experiments). This widely examined theory suggests five broad dimensions used by some psychologists to describe the human personality and psyche. The five factors have been

Department of Computer Science & Engineering

defined as openness to experience, conscientiousness, extraversion, agreeableness, and neuroticism, often listed under the acronyms "OCEAN". Dimension of Personality High Level Low level Openness to experience Inventive, Curious Cautious, Conservative Conscientiousness Efficient, Organised Easy going, Careless Extraversion Outgoing, Energetic Solitary, Reserved Agreeableness Friendly, Compassionate Competitive, Outspoken Neuroticism Sensitive, Nervous Secure, Confident These five factors are assumed to represent the basic structure behind all personality traits. They were defined and described by several different researchers during multiple periods of research. Employees are sometimes tested on the Big Five personality traits in collaborative situations to determine what strong personality traits they can add to a group dynamic. Businesses need to understand their people as well as their operations and processes. Understanding the personality components that drive the employee behavior is a very useful informational data point for management.

➤ The Five Dimensions of Personality:

- a. Openness to experience: (inventive/curious vs. consistent/cautious): Openness to experience describes a person's degree of intellectual curiosity, creativity, appreciation for art, emotion, adventure, unusual ideas, curiosity, and variety of experience. It is also described as the extent to which a person is imaginative or independent, and depicts a personal preference for a variety of activities over a strict routine. High openness can be perceived as unpredictability or lack of focus. Moreover, individuals with high openness are said to pursue self-actualization specifically by seeking out intense, euphoric experiences, such as skydiving, living abroad, gambling, etc. Conversely, those with low openness seek to gain fulfilment through perseverance, and are characterized as pragmatic and data driven—sometimes even perceived to be dogmatic and closed-minded. Some disagreement remains about how to interpret and contextualize the openness factor.

training

Cloud computing Arduino	AWS training would be more helpful for us, as most of the companies uses AWS. If we Helpful
Data Java script and java training	This session is very good This session brings positive impact on students. I being pleased and thankful to the staff of RR college to hire such interactable teacher to i support you nd very good at all and you can very useful n informative session
technically python,java, blockchain	
Java	Try to conduct more sessions on the technology which is in scope
Python, cyber Webinar	Nice Good
VLSI design About electronics	Good session Very motivating and useful
Any	Very informative
Python	Good
Machine learning in Python, java	Thank you for providing this valuable workshop good
internship activities	internship activities
IoT	It was really an helpful session, the speaker was being realistic and it helped me to realise
embedded	Nice session but I would be good if u share the ppt
Python (machine Artificial intelligence	No comments Thankyou -
Verilog	No more suggestions
Internship	Good
IoT/ web/full stack	Tq for this workshop. It was very helpful. Thank sir

Visi

Android app	Superb session
PYTHON	please Conduct some training regarding PYTHON
Programmin g	Nothing I have no suggestions
Python Higher languages	Examples discuss I would love to learn to create a software using all computer languages. I would want to learn it such a way that if someone tells me to do a certain Programme I may be able to do it... I would strongly suggest to make
Embedded systems	No comments
Ai	It was a nice session
Java	Keep up the good work
Artificial intligence	Sir we have understand...ur each and evey words. in. todays workshop. and we will...use the same ..thing in. our life ...that we shld...try until. We get succed...and we shld..invent new thing by using the...todays

17th April 2020

REPORT

It is a well-known fact that a student's competency and excellence play major roles with regard to obtaining the readiness to prove himself/herself in the job market and here comes the purpose of holistic education. It is mandatory for a student to get a job in his respective field as his position and salary in various companies or industries act as the deciding parameters of his level of competence and excellence in education. In this way, placement classes on various topics equating with industry needs are arranged in each and every semester for all the students in an online mode. The placement classes of the 8th semester students for the academic year 2019-2020 (Even Semester) were conducted from 14th February 2020 to 17th April 2020. The classes were arranged from 3:30 pm to 5pm.

Attendance were strictly monitored with a view to making all the students get benefitted by this programme and obtaining a very good job after the graduation. Totally the class duration was about 13 and half hours including both theory and practical sessions whereas the language lab was utilised for practical sessions. The syllabus was designed in a way of covering most of the key facets of communication under the banner Communication for Placement II, ranging from conversational skills, group discussion, interview questions and mock interview. It was made sure that the students must interact in each and every session so as to make the students more comfortable themselves in learning.

REPORT

It is a well-known fact that a student's competency and excellence play major roles with regard to obtaining the readiness to prove himself/herself in the job market and here comes the purpose of holistic education. It is mandatory for a student to get a job in his respective field as his position and salary in various companies or industries act as the deciding parameters of his level of competence and excellence in education. In this way, placement classes on various topics equating with industry needs are arranged in each and every semester for all the students. The placement classes of the 8th semester students for the academic year 2019-2020 (Odd Semester) were conducted from 9th August 2019 to 18th October 2019. The classes were arranged from 3:30 pm to 5pm.

Attendance were strictly monitored with a view to making all the students get benefitted by this programme and obtaining a very good job after the graduation. Totally the class duration was about 13 and half hours including both theory and practical sessions whereas the language lab was utilised for practical sessions. The syllabus was designed in a way of covering most of the key facets of communication under the banner Communication for Placement I, ranging from designing the resume, presentation skills, non - verbal communication and communication etiquettes. It was made sure that the students must interact in each and every session so as to make the students more comfortable themselves in learning.

Report of a National level invited talk on "COVID-19 Awareness"

Online National level invited talk, COVID-19 AWARENESS was conducted on 24/7/2020 at 4.00 PM - 5PM. Prof. Parimala Gandhi welcomed the gathering and Dr Anita R Shettar introduced Dr Milon Mitragotri Assistant Professor, Karnataka Institute of Medical Sciences, Hubballi to the gathering.

Speaker Dr Milon Mitragotri spoken extensive talk covered Corona virus outbreak: Myths and facts which is affecting us. Initially he provided information about virus as, infections agents with both living thing and non-living things characteristics, ability to reproduce in living things, able to mutate and virus can infect animals plant and microorganism. Virus is simple package of RNA or DNA viewed through electron microscope. CORONA enters cells (lung cells) and body starts responding and large cytokines released along with killing cells of lungs. This causes acute respiratory illness. Only thing is preventing is entering cells can be done to avoid covid because there is no curative treatments. He discussed elaborately preventive methods with scientific explanations. He discussed about drugs which are used in the process. Plasma therapy was also mentioned as curative measures. Discovery of drug is in phase-1, yet to be wated for final phase.

AWARNESS PROGRAM – RRIT

11th March 2020

REPORT ON AWARENESS PROGRAM ON “CORONA-VIRUS: PRECAUTIONARY MEASURES”

R R institute of technology organized an awareness program on corona virus ; precautionary measures on 11/03/2020 in R R I T seminar hall for all the teaching and nonteaching faculties of R R institutions.

About 110 members participated in the event. The event started at 3.00 PM, Prof. Gunasheela P delivered welcome speech and the session was continued by the speaker Dr. Vathsala N. Speakers spoke about corona virus, do's and don'ts in the situation, how to prevent the spread of COVID-19. Following are the few Highlighted points which was discussed in the Awareness program:

- Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water.
- Maintain at least 1 metre (3 feet) distance between yourself and others
- Avoid going to crowded places
- Avoid touching eyes, nose and mouth
- Make sure you, and the people around you, follow good respiratory hygiene
- Stay home and self-isolate even with minor symptoms such as cough, headache, mild fever, until you recover
- If you have a fever, cough and difficulty breathing, seek medical attention, but call by telephone in advance if possible and follow the directions of your local health authority.
- To protect yourself and others against COVID-19, clean your hands frequently and thoroughly.
- Use alcohol-based hand sanitizer or wash your hands with soap and water.

Report on "SVASTHYA and JAGRUTHI"

> Overview and Significance

A free Medical Health Check-up camp was organised by RRIT in collaboration with Sapthagiri Institute of Medicinal science and research center, Prakriya Hospital and Microlabs on 30-09-2019.

The objective of the camp was to provide health report regarding healthy diet, exercise, blood pressure, blood sugar, weight control, stress management etc.,. Free medicines have been provided as per the advice of doctor and to whom were diagnosed with health issues and advised them to follow up with their local doctors or Public Health Centers on a regular basis. Program has been started with check up and issue of free medicines were done on the day of health camp. At the end of day Walkathon "Jagruthi" was organized to give awareness among the neighbouring community to keep themselves protected that arises due to monsoon. Around 200 students and staff from various department have taken part in rally.

> Brief about Programme

The function started as planned, Guests and Management assembled at venue and graced the occasion. Students team were made and Master of Ceremony were done by Miss Pooja R of 4th year CSE. Prof. Madhumathi K of Civil Engineering welcomed the guest and introduced the Chief Guest Dr.Somanath Chatterjee, Consultant Anaesthetist & Head of Department Medical Director, Prakriya Hospital, Dr Abrar Poonekar, P.G in Dept of psychiatry, Sapthagiri Institute of medical science and research I and Prof Azad from R R college of Pharmacy. prayer for invocation was done by Vaanyashree of 4th year CSE and followed by Lamp lighting by our chief guest. After welcoming the Chief Guests Prof. Parimala Gandhi G, IQAC coordinator Dept of ECE has briefed about the Significance of the day. Chief Guest, they gave a speech regarding the Health Camp named SVASTHYA and shared few thoughts, motivational words and process to be followed to stay healthy. Presidential Address was delivered by Dr Srinivas G Bhat, Principal RRIT. The programme ended with vote of thanks by Prof. Nethra M V O of Computer Science Engineering department.

At the end of the program refreshment was served to all the participant and volunteers.

REPORT ON GIRLS MENSTRUAL HYGEINE AT NISARGA VIDYANIKETHANA, SEDEDAHALLI BANGALORE

On 21st September 2019 ICC committee organized an awareness program on Girl's Menstrual Hygeine at Nisarga Vidhayanikethana, Sededahalli Bangalore .About 100 girl students from 6th- 10th std were assembled in their seminar hall at 10 am and the program started by introduction to the speakers and scope of the day. Prof. Madhumathi K, Prof. Gunasheela .P & Mrs. Kavitha Chachadii from the department of Civil Engineering spoken about the above topic and distributed sanitary napkins to the students. Students eagerly listened to the speech and were very happy and the session to be very informative. The students also had their own sets of quires which were addressed by the speakers. The program was concluded with a vote of thanks and a memento of RRIT was handed over to the Principal of Nisarga Vidhayanikethana, sededahalli Bangalore. Through the oral feedback received from students then team were asked to organize many more such events in future targeting to rural schools.

We thank the management of RRIT for supporting and giving us the opportunity to organize the event.

Respected Sir,

Subject: Permission to organize one day Technical seminar on "Java Programming" on 7th March 2020

Handwritten signature and date: 03/03/2020

With reference to above subject, the department is planning to organize a seminar on "Java Programming" on 7th March 2020 to improve the CSE & ISE students skills such as coding, programming, disruptive technologies and testing tools . In this regard we request to provide the permission to organize this event for CSE students.

Thanking You

Report on One day Technical Seminar on entitled "Java Programming" on 7th March 2020

One-day Technical Seminar on entitled "Java Programming" on 7th March 2020 was organized by department of Computer Science and Engineering at 10.00am in the main block seminar hall. Prof. Manjunath R HOD-CSE & ISE, welcome the speaker, Mrs. Sripriya Mathan, Founder & Chief Instructor, Shriati Technology, Bangalore, staff and students. Also introduced the chief guest to the students and spoke about significance of the topic. About the Java Programming is widely used general-purpose, fastest growing high-level programming language which supports multiple programming paradigms. It's used for web development, scientific research, system administration etc. Its design philosophy emphasizes code readability and the syntax allows programmers to express concepts in fewer lines of code. Java supports a dynamic type system, automatic memory management and has a large comprehensive standard library. Java interpreters are available in multiple operating systems. This Seminar aims to explore Java Programming from Fundamentals to Advanced Topics. The Resource person gave brief explanation about how to implement object-oriented designs with Java and to identify Java language components and how they work together in applications. He also explained to design and program stand-alone Java applications and to design a graphical user interface (GUI) with Java Swing.

REPORT

Seminar on "Career opportunities in VLSI & AI"

Event Date: 20-06-2020

Platform: Microsoft Team

Resources Person: 1) GS KRISHNA -- Semiconductor industry professional. SOC level understanding of the applications

2) SRI GANESH --. Data scientist, Machine learning expert

Overview:

The ERICA -Association of ECE in collaboration with INOHMIC Technology had Organized a 1 day Seminar on "Career opportunities in VLSI & AI". The main objective of this Seminar is to brief the impact of AI and expert systems on VLSI, specially applying machine learning in VLSI Chip design.

Topics Covered:

- ❖ What is VLSI?
- ❖ What is AI?
- ❖ Applications of VLSI & AI
- ❖ What is SOC in VLSI ?
- ❖ VLSI Design Flow
- ❖ Job Opportunities

Number of Participants: 50

Outcome:-

The Seminar enabled the participants to understand the fundamentals of current technology and motivated the students to try their best to take AI/VLSI as their career. The session also motivated the faculties as to how they have to keep in touch with cutting edge technologies like AI/VLSI, so that they can do better in their profession. The participants felt that the session was informative.

**DR KRISHNA
DR GANESH**

Agenda:

- Important terminologies
- What is AI?
- What is SOC in VLSI?
- Applications of AI
- Applications of VLSI
- VLSI DESIGN FLOW
- AI & VLSI
- AI
- Artificial Intelligence & Intellectual properties for training
- AI & VLSI - Overview of the field, how multiple skills supportive of the analytical methodologies, how
- AI & VLSI - Applications look at traditional design
- Connecting VLSI & AI - Inohmic Training Platform approach
- AI & VLSI - Training programs
- Course details
- Video presentation
- Contact us
- Q&A

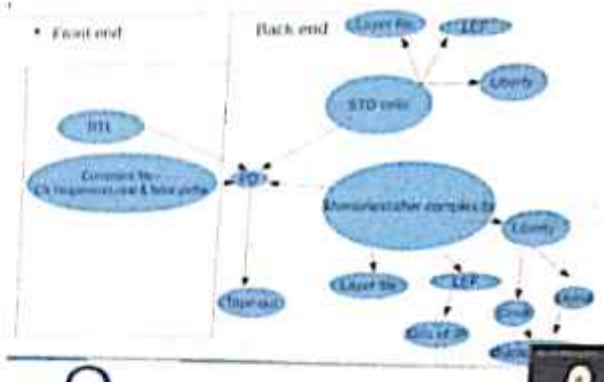

Applications of AI

Application	Brief explanation of the application
Data center	Marketing
Automotive	Navigator
NTV/RTN TV	Super Image resolution
Voice	Natural Language Processing
Mobile	Facial lock, super image, SC self optimization

RTL to GDS & IP overview requires make SOC.

The diagram illustrates the design flow from RTL to GDS & IP. It is divided into Front end and Back end. The Front end includes RTL, Constraints (e.g., timing, area, and logic), and other inputs. The Back end includes Layer file, LCP, and other outputs. A central SOC (System on Chip) block connects the Front end to the Back end. The SOC block also includes a block for 'Showcase/other complex IP'.

Connecting VLSI & AI - Inohmic Training Platform approach.

- **Empire Training Platform** look at training with same seriousness of developing a project.
- **Inohmic ecosystem in the cloud** can give full developmental work experience as experienced professional will worked real time chip applications guide along with the staff at the institution.
- **Team ecosystem** can give full AI development experience as our GPU in the cloud can help best for the inferen projects.
- **Our way of partnering with the institutions through MOU/Licensing** can lead best in class training & developme projects.
- **Partnering with institutions (staff, students) & working with industry professionals in the Inohmic cloud** can lead enormous possibilities.

**Report on One Day Online Technical Seminar on
"Java Programming for Beginners" on 19th June 2020.**

The Department of CSE in Association with ISE, organized one day online Technical Seminar on "Java Programming for Beginners" on 19th June 2020. The purpose of this Seminar is to expose the students to Object oriented programming language java. This Seminar provides practical foundation-level training that enables immediate and effective participation in "Java Programming for Beginners" and its related projects. The event began at 11.00 am, by using Zoom platform. Dr. Manjunath R Prof & Head, CSE & ISE welcomed the Guest and, the Guest addressed the students on Java Programming for Beginners and its related projects. The Resource person gave brief explanation about how to implement object-oriented designs with Java and to identify Java language components and how they work together in applications. He also explained to design and program stand-alone Java applications and to design a graphical user interface (GUI) with Java Swing.

Report on Student Development Program on "Internet of Things with Hands on Session" Online on 18th June 2020

Organised by ACRANTON Technologies Pvt Ltd for 6th semester students and 8th of CSE and ISE department. Prof. Dhananjaya MK welcomed the speaker MR. Saphagireesh D M also introduced the chief guest to the students and spoke about the significance of the topic where it plays the important role in several applied areas. Also gave exposure to industrial needs on the topic. "The Internet of Things hands on session", covers innovation patterns, organizations and joining. Figure out how to function with Building Connected Devices. IoT hands on session participants will find out about the elements of the IoT markets, innovation, patterns, arranging, outline and the meeting of stages and administrations, with an exceptional spotlight on the item plan, design and execution. This is a central IoT hands on session covering the innovations behind the Internet of Things and associated gadgets.

Concepts and definitions of the Internet of Things Applications, IoT standards Requirements, IoT enabling technologies IoT architecture Security Cloud computing. Overview of IoT Connectivity Methods and Technologies Evaluation of IoT. It is predicted that 50 to 100 billion things will be electronically connected by the year 2020. This Internet of Things (IoT) will fuel technology innovation by creating the means for machines to communicate many different types of information with one another. With all objects in the world connected, lives will be transformed. But the success of IoT depends strongly on standardization, which provides interoperability, compatibility, reliability, and effective operations on a global scale. Recognizing the value of IoT to industry and the benefits this technology innovation brings to the public. Presenting highly customized learning solutions is what we do. 46 students have participated on IOT hands on session.

Report On SDP

20-08-2019

The Department of Civil Engineering has organized Student Development

Program on **Revit software** in civil engineering for 5th and 7th semesters of Civil Engineering, at main block seminar hall on 20th August 2019 in association with CADD Mentors staff members Prof Ranganathan, Associate prof in Civil Engineering department made welcome speech Dr. Shankara G, HOD of civil Engineering Dept, spoke on importance of this SDP

High light of the SDP

What is the use of Revit software?

- Autodesk Revit Architecture is a robust architectural design
- documentation software application created by Autodesk
- for architects and building professionals.
- The tools and features to support building information modeling (BIM)

What is Revit good for?

- ✓ good way to look at the benefits of each tool is AutoCAD
- ✓ great for 2D drawing,
- ✓ only precise line work is needed,
- ✓ elevation detail drawings.
- ✓ Revit is great for modeling,
- ✓ generating cost schedules,
- ✓ collaboration and change management.
- In the industry of design and construction, competition is fierce.
- Revit as it supports surface, mesh and solid commands of Autocad
- it is stricter as the things require to be constructed correctly
- 3D model but also a model that will enable coordination of the job and lot more
- It can take around 3 days to get comfortable with the interface,
- 3 weeks to get comfortable with basic modelling

Department of Civil Engineering

- around 3 months to get fairly competent with all the common tools used in an everyday office environment
- Gain valuable exposure to BIM
- Both Revit and BIM are very important for your future.
- Revit helps designers design,
- simulate, visualize and collaborate
- to capitalize on the advantages of the interconnected data within a BIM model.

Vote of thanks by Prof B.A.Ranganathan.

Report on Two days Student Development Program entitled “The Flutter Development Bootcamp” on 27th & 28th May 2020

Two days online student Development Program on “The Flutter Development Bootcamp” was organized by the department of Computer Science and Engineering on 27th & 28th May 2020 at 2.00 pm through Zoom. Prof. Sumanth V, welcome the speaker, Mr. Amith K S, Managing Director, Manyathy Business Solutions, Bengaluru. He introduced the chief guest to the students and spoke about significance of the Program.

Flutter is a Cross-platform Native app-building framework build on Dart programming language and Dart was built by Google. **Flutter** is an app SDK for building high-performance, high-fidelity apps for iOS, Android, web (beta), and desktop (technical preview) from a single codebase. The goal is to enable developers to deliver high-performance apps that feel natural on different platforms. The Speaker gave the brief introduction how to code using Dart and build beautiful, fast, native-quality iOS and Android apps. On first day 72 students were present and on the second day 77 students were present. Student gave positive feedback for the program.

Department of Electronics and Communication Engineering

Date: 20/05/2020

REPORT

2 days Online Certified Faculty Development program on "MATLAB for Signal Processing Applications"

Event Date: 15/05/2020 and 16/05/2020

Platform: Zoom Meeting App and MATLAB tools

Resources Person: Dr. Kiranmayi G R

Associate Professor

Department Of Electronics and Instrumentation Engineering

Siddaganga Institute of Technology(SIT), Tumakuru

Overview:

The ERICA -Association of ECE ~~had~~ had Organized a 2 days Faculty Development Program on "MATLAB for Signal Processing Applications" to enhance the Knowledge in the MATLAB LAB tools Used for the signal Processing in Bio medical Applications.

The main objective of this Faculty development Programme is ^{to} impart the Simulation knowledge for Signal processing applications.

Signal processing is essential for a wide range of applications, from data science to real-time embedded systems.

MATLAB is an interactive technical computing tools environment for scientific and engineering applications.

Topics Covered:

Day 1:

- ❖ Welcome the participants and Resource Person by Dr. Sunitha H D
- ❖ Resource Persons ~~was~~ introduction to the Participants by Prof. Parimala Gandhi.
- ❖ Session was started by Dr. Kiranmayi G R in introducing to Signal Processing.
- ❖ MATLAB Tools
- ❖ Handson Session on signal Processing.

Day 2:

- ❖ Introduction to the Bio Medical Signal Processing
- ❖ Hands on Bio-Medical Signal Processing
- ❖ Working on EEG and ECG signals in MATLAB tools.

M. Lakshmi

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

Outcome:-

The FDP enabled participants to understand the fundamentals of Signal Processing in the field of Electronics, Instrumentations and Medical Applications. At the end of the FDP participants were able to simulate in the Signals in the Electronics processing Applications using MATLAB.

All the Participants expressed session was more helpful in learning the tools and expects advance technical events in future.

Photo Gallery:-

Bispectrum features (contd.)

- The bispectrum of the process $X(k)$ is defined as the Fourier transform of its third moment sequence

$$B(\omega_1, \omega_2) = \sum_{m=-\infty}^{\infty} \sum_{n=-\infty}^{\infty} R(m, n) \exp(-j(\omega_1 m + \omega_2 n))$$

$$|\omega_1|, |\omega_2| \leq \pi$$

Non redundant region of Bispectrum

Fig1. Non redundant triangular region of bispectrum in the $(\omega_1 - \omega_2)$ plane

Subject : Reimbursement towards the honorarium for Resource person.

Respected Sir,

With Reference to the cited Subject above, Two days online Certified Faculty Development Program was organized by ERICA on "MATLAB for Signal Processing Applications" on 15th and 16th May 2020 through Zoom Meeting App platforms. The Resource Persons Dr. Kiranmayi G R , Department of Electronics and Instrumentation Engineering ,Siddaganga Institute of Technology(SIT),Tumakur was Honoured with Sum of amount Rs. 4000/- for delivering the lecture.

In this regard, The Total registration amount Collected from the Participants is Rs. 3600/- (Three Thousand Six hundred) with individual Registration fee Rs.150/- (The details of the Registration is attached with this mail). So we kindly request for reimburse the balance Amount of Rs 400/ (Four hundred rupees) from the ERICA(Association of ECE).

Kindly oblige, Thanking you

Note: The Registration and Voucher is attached with this letter for reference

R R INSTITUTE OF TECHNOLOGY

R R Institutions, setup with a mission of imparting education to all sections of society, was established in the year 1993 to render highest standards of academic achievement with moral and social commitments under PKM educational Trust. R R Institutions spread across 27 acres with lush green gardens, for getting a peaceful and serious learning atmosphere, now ushering into Greater Bangalore, being the Head Quarter of Karnataka State, connected by air, rail and roads with all major metropolitan cities of India.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering was established in the year 2008 from the inception of the college. The department has a fine blend team of qualified, highly experienced faculty and committed staff members to maintain its position of leadership in Engineering and Technology. The department is currently offering B.E Program, and also has well-equipped Research Centre. The department has established a student forum to showcase the talent of individual students.

DEPARTMENT VISION

To Impart Technical Education Par Excellence and prepare Leaders to grow beyond leaps and bounds to serve the Growing Industries and Society.

DEPARTMENT MISSION

To train the students to emerge as outstanding skilled technocrats imbued with professional ethics engineering and managerial skills with commitment to the society and nation at large.

OBJECTIVE OF FDP

The main objective of this Faculty development Programme is impart the Simulation knowledge for Signal processing applications.

- Signal processing is essential for a wide range of applications, from data science to real-time embedded systems.
- MATLAB is an interactive technical computing tools environment for scientific and engineering applications.

RESOURCE PERSON

Dr. Kiranmayi G R

Associate professor in the Department of Electronics and Instrumentation Engineering, Siddaganga Institute of Technology, with vast experience of 30 years in the profession. She had done her Phd & Masters form the University of Mysore in the field of Instrumentation, She is active member in the IEEE Engineering in Medicine and Biology Society (EMBS), IEEE Signal Processing Society (SPS), Life Member of Indian Society for Technical Education (ISTE) Fellow of Institute of Engineers India (IEI). She has conducted many faculty development programs and demonstrated best practices in Higher Education.

PROGRAM SCHEDULE

Day 1 : Session I

- Introduction to Signal Processing, Introduction to MATLAB,

Session II

- Hands on session on signal Processing using MATLAB

Day 2 : Session I

- Introduction to Biomedical Signal Processing

Session II

- Hands on session using MATLAB
- Note : The participants should install MATLAB software for hands on session

RRIT/ISE/GEN/SEMINAR/2019-20/001

Online Technical Seminar On "Food Technology in Machine Learning"

Department organized one day Online Technical Seminar On **Food Technology in Machine Learning** on 26th May 2020. The program started with the scope of attending online seminar by Dr. Manjunath R ISE HOD, and Prof. Emmanuel Rajarathnam of ISE Dept..

An introduction and welcome speech was given by Dr. Manjunath R. The session was later handled by Dr. Gururaj H L Associate Professor VVCE Mysuru.

The session was about **Food Technology in Machine Learning**. In this session the speaker explained about the scope of new technologies like Artificial Intelligence (AI), and Machine Learning (ML). He explained the importance of Machine Learning and its implementation in Food Technology. The Speaker also explained about the need of Engineers in Food Technology Industries. Examples in Food Technology using Machine Learning was discussed by using PPTs. The session was very interactive since lots of queries from the students were discussed over audio and chat box.

Finally the session was winded up with Vote of thanks by Prof. Emmanuel Rajarathnam ISE. The online seminar sessions were recorded and snapshots were taken. Later the feedback was taken from the students by using online form.

Program Schedule:-

DAY	Session	CONTENT
DAY 1 02/03/2020 (Monday)		Ingauration
	Session 1	Company introduction with team ,Student Interaction, motto of workshop, Agenda of complete workshop ,Introduction to Embedded Systems and IOT
	Session 2	IOT Fundamentals, Protocols and Applications
	Session 3	IoT Application using NODEMCU (Demo)
	Session 4	IoT Application using Raspberry Pi(Demo)
DAY 2 03/03/2020 (Tuesday)	Session 1	Agenda Installation of Python and basic operation on python
	Session 2	Different Models of Raspberry Pi, Why Raspberry Pi. Peripherals of Raspberry Pi. Applications of Raspberry Pi.
	Session 3	Different Operating Systems for Raspberry pi, Getting Started With NOOBS, Getting things ready for first use NOOBS OS inside out, Booting for the First time.
	Session 4	Introduction to Scratch Programming ,History and basic of Scratch , My first program on scratch , Led Blinking using Scratch
DAY 3 04/03/2020 (Wednesday)	Session 1	Agenda Digital sensor interfacing, Analog sensor interfacing, Data Store on cloud (IOT)
	Session 2	Project 1
	Session 3	Project 2
	Session 4	Evaluate the projects developed by students

Subject: Proposal for 3 days Workshop on "Designing Embedded System with Internet of Things (IoT) Using Raspberry pi"

With reference to the above subject, ERICA-Association of ECE is planning to conduct a 3 days Workshop on "Designing Embedded System with Internet of Things (IoT) Using Raspberry pi" from 02nd March to 04th March 2020 in collaboration with Chira Information Technologies, Bengaluru.

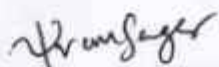

Inauguration On: 02/03/2020, At: 9.30AM
Venue: R. R. I. T. Seminar Hall

Objective:

- The Internet of Things (IOT) is aimed to unify everything in world including things, People, Place and Process under common infrastructure to provide information and control of state of objects around us.
- The Embedded system will play an important role in IOT due to their unique characteristics and features such as real time computing, low power consumption, low maintenance and high availability are becoming the key enabler of IOT.
- The aim of this workshop is understand how to setup a Electronic devices (Hardware and software) and to see how these devices Communicate with each other directly or Indirectly.

Outcome:

- Knowledge and understanding i Raspberry pi and Python language.
- Acquaintance on fundamentals of IOT and Applications of IOT.
- Illustrate techniques in Interfacing devices and Connecting these devices to cloud(internet).

RR INSTITUTE OF TECHNOLOGY

R R Institutions, setup with a mission of imparting education to all sections of society, was established in the year 1993 to render highest standards of academic achievement with moral and social commitments. R R Institutions spread across 27 acres with lush green gardens, for getting a peaceful and serious learning atmosphere, now ushering into Greater Bangalore, being the Head Quarter of Karnataka State, connected by air, rail and roads with all major metropolitan cities of India.

ABOUT THE DEPARTMENT

A warm and affectionate welcome from the Department of the Electronics and Communication (E&C) Engineering at R.R Institute of Technology. Electronics engineering is a most dynamically changing and ever evolving and widening branch of the engineering. The department has a fine blend team of qualified, highly experienced faculty and committed staff members to maintain its position of leadership in engineering and technology. The department is currently offering B.E program, and also has well-equipped Research Centre.

DEPARTMENT VISION

To Impart Technical Education Par Excellence and prepare Leaders to grow beyond leaps and bounds to serve the Growing Industries and Society.

DEPARTMENT MISSION

To train the students to emerge as outstanding skilled technocrats imbued with professional ethics engineering and managerial skills with commitment to the society and nation at large.

To create center of excellence in the field of Electronics with industrial and university collaborations.

OBJECTIVE OF WORKSHOP

The main objective of the workshop is to provide the basic understanding of Micro-controller and embedding with IOT, understanding the Raspberry pi Models, Peripherals and Applications of Raspberry Pi. The Workshop focus on the learning of Python programming language. Acquaintance Fundamentals, Protocols and Application of IOT. With this basic knowledge of the Micro-controller, the focus on Embedding the devices and Connecting to the Internet (Cloud server) is the aim of this workshop.

TOPICS TO BE COVERED &

PROGRAM SCHEDULE

Day 1. Introduction

- Introduction to Embedded Systems and IOT
- IOT Fundamentals, Protocols and Applications
- IoT Application using NODEMCU
- IoT Application using Raspberry Pi

Day 2. Interfacing

- Installation of Python and basic operation on python
- Different Models of Raspberry Pi.
- Peripherals of Raspberry Pi.
- Applications of Raspberry Pi.
- Different Operating Systems for Raspberry pi.
- Getting Started With NOOBS
- Introduction to Scratch Programming, History and basic of Scratch.
- My first program on scratch
- Led Blinking using Scratch

Day 3. Hands on Session

- Basic Python programming
- Digital sensor interfacing.
- Analog sensor interfacing.
- Data Store on cloud (IOT)
- Projects
- Evaluate the projects developed by students

REPORT

3 days Workshop on "Designing Embedded System with Internet of Things using Raspberry Pi"

Event Date: 02/03/2020 to 04/03/2020

Venue: RRIT Seminar Hall and DSP lab

Resources Person: **Mr. Sandeep Singh R**
Technical trainer
Chira Information Technologies
Vijayanagar, Bengaluru-90

Overview:

The ERICA -Association of ECE in collaboration with Chira Information Technology had Organized a 3 days Workshop on "Designing Embedded System with Internet of things using Raspberry Pi" to enhance the Knowledge in the Internet of Things(IOT) and the Microcontroller (Raspberry pi).

The main objective of the workshop was to provide the basic understanding of Microcontroller and embedding it with IOT, the Raspberry pi Models, Peripherals and Applications of Raspberry Pi. This program also focused on learning of Python programming language and IDE for Python.

Topics Covered:

Day 1:

- ❖ Resource Company introduction with team to the Participants,
- ❖ Student Interaction, motto of workshop
- ❖ Introduction to Embedded Systems and IOT.
- ❖ IOT Fundamentals, Protocols and Applications
- ❖ IoT Application using NODEMCU (Demo)
- ❖ IoT Application using Raspberry Pi(Demo)

Day 2:

- ❖ Different Models of Raspberry Pi,
- ❖ Peripherals of Raspberry Pi.
- ❖ Applications of Raspberry Pi.
- ❖ Different Operating Systems for Raspberry pi,
- ❖ The Installation of NOOBS- an Operating System Installation Manager for the Raspberry Pi.
- ❖ Working on Integrated Development Environment(IDE) for Python

M. Lakshmi
PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

- ❖ Installation of Python and basic operation on python

Day3: Hand on session on Embedding Raspberry pi with IOT

- ❖ IOT Security
- ❖ Introduction to Scratch Programming ,History and basic of Scratch
- ❖ Digital sensor interfacing, Analog sensor interfacing,
- ❖ Wi-Fi Module
- ❖ Data Store on cloud (IOT)
- ❖ Project 1: Led Blinking using Scratch and Python using Raspberry pi.
- ❖ Project 2: Checking humidity and temperature and connecting to the Cloud server using Think speak.
- ❖ Evaluate the projects developed by students

Conclusion:-

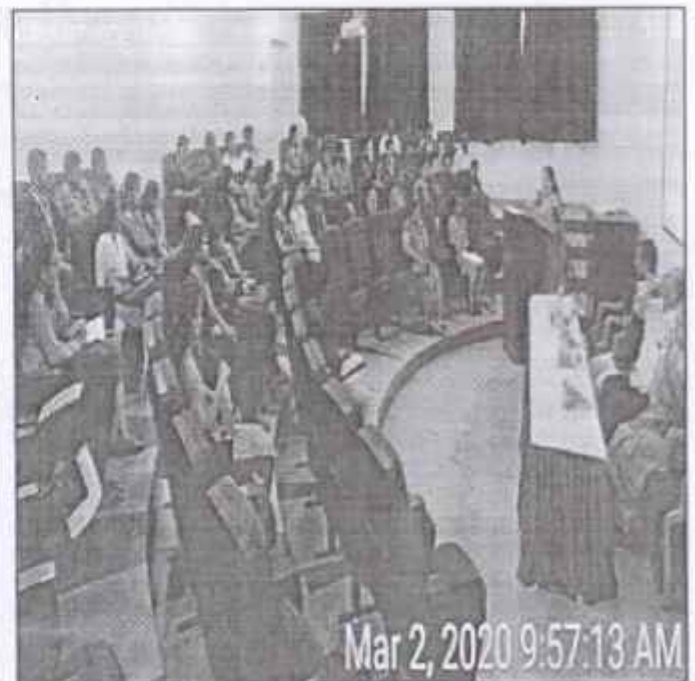

The Workshop enabled participants to understand the fundamentals of Internet of things and embedded System. The participants were briefed about sthe Protocols used in communicating and connecting the Things.

The Architecture, pin details and the software regarding the Microcontrollers (NodeMCU and Raspberry Pi) used in designing embedded system with Internet of Things were also discussed.

The participants had a hands on sessions in installing tools for supporting python and scratch Programming language used and also learnt the basic of the programming language used in Interfacing and controlling the devices connected to the microcontroller.

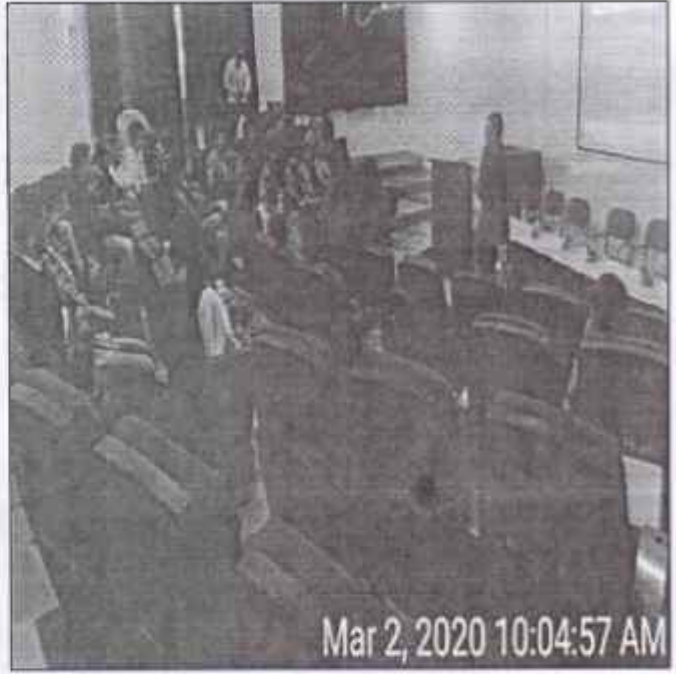

The workshop also provided an opportunity to do the Projects in embedding the devices (Things) to the Raspberry pi and uploading the data to the cloud server (Internet) for the analysis.

REPORT ON CERTIFICATE COURSE- E TABS & REVIT SOFTWARE

Department of Civil Engineering had organized three weeks certificate course on ETABS Software in Association with CADD Centre from 24/02/2020 to 10/03/2020. Dr S.G Bhat - Principal as Chief guest and Mr. Ameet Gogi, Business Head, CADD Centre, Basaveshwarnagar, Bangalore and Mrs. Shivani Patil, Design Associate & Course trainers main speaker for the Inauguration of certificate course. All the staff members from Civil Engineering Department and final year civil engineering students attended the Inauguration. HOD Dr. Sankara and Prof B.A.Ranganathan spoke on the importance of certificate course and presidential address by Principal. Vote of thanks was delivered by Prof Ravi Patil.

The course was conducted over a period of three weeks from 24/02/2020 to 10/03/2020. The classes were conducted 1.30pm to 4.30pm as per schedule in CAD Lab, Civil Engineering Department. Total 22 students of 8th semester civil engineering students enrolled to the program and were benefitted by the skills imparted during training.

ETABS(Extended Three-dimensional Analysis of Building Systems)

ETABS is a highly efficient analysis and design program developed especially for building systems. ETABS is developed by CSI America. It is loaded with an integrated system with an ability to handle the largest and most complex building models and configurations. The software has powerful CAD-like drawing tools with a graphical and object-based interface. It increases the productivity of structural engineers. It saves a significant amount of time and money over the general purpose programs. The leading structural engineering firms Wood & Grieve Engineers,

Somero Enterprises Inc, Ghafari Associates, LLC, The Library Corporation, Inc., Carey Group PLC, to mention few have extensively used this tool for design of various infrastructure related to interdisciplinary applications.

Course Objectives

The course aims to offer comprehensive knowledge on the ETABS software and its applications. The course will help the candidates to acquire in-depth details about the different procedures and simplified analysis aspects of the design models. The certification converts a candidate into an expert that is ready to work in the civil structures analysis & design industry.

The course contains a number of modules to empower the candidates with the knowledge to use ETABS. Some of the modules are mentioned below:

- Model creation and result reporting
- Push-over analysis
- Response Spectrum Analysis
- Response History Analysis
- Concrete Frame Design and Detailing
- Steel frame Design and Detailing
- Working with Composite Beam
- Dynamic Analysis

**Draft copy of Feedback
program on Three days Faculty Development Program on "Rapid Application
Development using Oracle ADF" on May 20th, 21st & 22nd 2020**

- The FDP met your expectations?
- The quality of Instructions given by trainer?
- Whether the FDP achieves the program objectives?
- The trainer was a good communicator?
- Participation interaction was encouraged?
- The event well pleased with the allotted time?
- Are you really enjoyed the training?
- What is your overall assessment of the event?
- You will effectively imbibe this learning in your profession?
- I would recommend this FDP to other people?

**Objectives and Outcomes of Program on Three days Faculty Development Program on
"Rapid Application Development using Oracle ADF" on May 20th, 21st & 22nd 2020**

Objectives:

- RAD has successfully achieved the objective of reducing costs on project whilst not compromising on quality by effectively reducing the project time-frame and the number of people involved in such project.
- RAD has also been successful in encouraging the involvement of customers in the entire process of its development lifecycle. This proves advantages in many respects but most importantly this improves the development process by ensuring full acceptance from the customer whilst the system is still being created.

M. Lakshmi
PRINCIPAL

P. N. H. S.
13/05/2020
HEAD OF DEPARTMENT
Department of Computer Science & Engg.
R.R. Institute of Technology
Hosur Road, Main Road
Chikkabanavara, Bangalore

- RAD has also demonstrated strength in being able to speed up the development process by appropriately fusing its methodology, people, management and high tech computer aided tools.

Outcomes:

- RAD is getting more complex and the complexity is accelerating. Applications today are moving towards the distributed systems model. And businesses themselves are increasingly customer focused.
- RAD emphasizes working software and user feedback. Once the requirements planning phase is complete, RAD brings in users early in the design phase. Users interact with analysts to produce models and prototypes that capture the expected inputs and outputs of all the desired system processes.

Date: 26/05/2020

Report of three days online FDP on Rapid Application Development using Oracle ADF on May 20th, 21st & 22nd 2020

The Department of CSE & ISE, organized a Faculty Development Program Rapid Application Development using Oracle ADF on May 20th, 21st & 22nd 2020. The purpose of this FDP is to expose the faculty members/research scholars to emerging technologies in the area of Rapid Application Development using Oracle ADF. This course provides practical foundation-level training that enables immediate and effective participation in "Rapid Application Development using Oracle ADF" and its related projects. This session was handled by Mr. Mohit Santhosh, Technology Director, Parvam Consultant Pvt.Ltd. He discussed the introduction of Rapid Application Development using Oracle ADF and later started with Oracle Application Development Framework, usually called Oracle ADF, provides a Java framework for building enterprise applications. It provides visual and declarative approaches to Java EE development. It supports rapid application development based on ready-to-use design patterns, metadata-driven and visual tools. The Oracle JDeveloper free Integrated Development Environment provides a graphical interface for creating data-management applications using ADF. Oracle also offers Eclipse based tooling for ADF in Oracle Enterprise Pack For Eclipse. Implementers can deploy Oracle ADF applications on Java EE-compliant containers. Oracle WebLogic and IBM WebSphere are officially supported. Users of the free ADF Essentials edition can buy support for these applications on GlassFish.

JDeveloper is a freeware IDE supplied by Oracle Corporation. It offers features for development in Java, XML, SQL and PL/SQL, HTML, JavaScript, BPEL and PHP. JDeveloper covers the full development lifecycle from design through coding, debugging, optimization and profiling to deploying. With JDeveloper, Oracle has aimed to simplify application development by focusing on providing a visual and declarative approach to application development in addition to building an advanced coding environment. Oracle JDeveloper integrates with the Oracle Application Development Framework (Oracle ADF) an end-to-end Java EE-based framework that further simplifies application development.

The core IDE exposes an API that other teams in Oracle use to build extensions to JDeveloper. BPEL, Portal, Business Intelligence and other components of the Oracle platform¹ all build their design-time tools on top of JDeveloper. The same IDE platform also serves as the basis of another Oracle product, SQL Developer, which Oracle Corporation promotes specifically to PL/SQL and database-developers.

Oracle ADF Essentials includes the following technologies: Oracle ADF Faces Rich Client Components a set of over

- 150 JSF components that simplify the creation of rich Web user interfaces. Also included are the ADF Data Visualization Tools. Oracle ADF Controller – an extension of the JSF controller
- With a focus on building complete reusable process flows and the ability to create dynamic regions with changing content in Web pages. Oracle ADF Binding – a layer that provides a simplified way
- To connect user interfaces to business services through metadata abstraction layer. Oracle ADF Business Components – a layer that simplifies
- Developing business services against relational databases by providing declaratively-configured, reusable components that implement common design patterns. Both of the free Oracle integrated development environments Oracle JDeveloper and Oracle Enterprise Pack for Eclipse provide specific features that simplify development with Oracle ADF through visual and declarative development experience.

Oracle ADF Essentials is provided with specific instruction and certification for deploying applications built with it on the open-source Glassfish server. The ADF Essentials license doesn't restrict deployment to a specific server.

Oracle ADF provides a complete Model-View-Controller framework for developing enterprise applications. The solutions provided by the various layers of Oracle ADF reduce the amount of code developers need to write, which result in faster development cycles and an easier learning curve. Oracle ADF Essentials offers advanced innovative functionality allowing developers to

build applications with richer functionality. Some of the key capabilities of Oracle ADF Essentials include: Ajax and HTML5 enabled UI components

- Reusable task-oriented controller layer
- Declarative binding of UI to business services
- Declarative relational database access layer

With the ability to deploy applications that are based on Oracle ADF Essentials to various servers, without paying a license fee, more developers can leverage the powerful Oracle Application Development Framework to speed up the creation of cutting edge applications.

19.02.2020

STUDENT INDUCTION PROGRAMME II SEMESTER 2019-20 RECREATIONAL MATHEMATICS / VEDIC MATHEMATICS BY Prof. Prabhudev

Vedic Mathematics program was conducted for the first year B. E students of RRIT, Bangalore by Prof. Prabhudev.

Dr. Anitha Shettar, Asso. Professor Dept of Basic Sciences formally welcomed all the dignitaries present on the dais, colleagues and students.

Melankar

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY

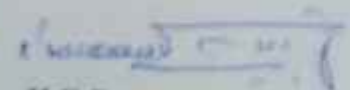

Chikkabanavara, Bangalore - 560 090.

We conducted the Vedic mathematics program for first year students on 19.02.2020 (Morning Session). The program was to make the student familiar with the basic knowledge of Mathematics. Professor explained the beauty of Mathematics. He explained the students how to simplify & observe the numbers in multiplication and resolve for the answer.

He was teaching the simple ways to multiply two numbers with the help of vedic maths . He taught the students how to find the square of any number in a simple manner . He taught us 6 simple ways for the multiplication of any number.

He explained how to divide two numbers in a simple way and how to take a reciprocal of a number using simple methods of Vedic mathematics .

Report On one day workshop "Block Chain Technology"

A Seminar
One day workshop entitled "Block Chain Technology" was organized by department of Computer Science and Engineering on 26th Febraury 2020 at 9:30 am *in the main seminar hall*. Prof. ManjunathR HOD-CSE, welcome the speaker, *Mr. Ramesh Gopal*, Blockchain Training Head at NvestLabs, Bengaluru and *Mr. Sharath Krishna*, CEO of Nvestlabs, Bengaluru, Staff and Students. Also introduced the chief guest to the students and spoke about significance of the topic. The Speaker highlighted the topic. A **Blockchain** is a decentralized, distributed, and oftentimes public, digital ledger that is used to record transactions across many computers so that any involved record cannot be altered retroactively, without the alteration of all subsequent blocks. A **block chain** has been described as a value-exchange protocol. **Block chain technology** is a structure that stores transactional records, also known as the block, of the public in several databases, known as the "chain," in a network connected through peer-to-peer nodes. For Example, A Bitcoin Block contains information about the Sender, Receiver, number of bitcoins to be transferred. The first block in the chain is called the Genesis block.

Report of Two Days Workshop on "Full Stack Web Development"

Report on entitled "Full Stack Web Development" was organized by Department of Computer Science and Engineering on 15th & 16th November 2019 at 09:15am in the main seminar hall. Prof. Manjunath R HOD-CSE welcomed the chief guest and introduced the chief guest to the students and spoke about significance of the topic. And later the session was started by Mr. Ameet Gogi, Business Head, Livewire Company, Bangalore, Karnataka, India. This Workshop on "Full Stack Web Development" students got explore the concept of Full Stack Development.

The Two Days Workshop is divided into three session :

- Development Tools
- Team Project Workflow
- Complete Web development

The objective of the Two Days Workshop on "Full Stack Web Development" is to make you familiar with the terminology and the tools that are used in modern web development. The first session will be about the essential tools required to build a project and set up a local environment. The focus is on the interaction between you, the developer and your machine. The more you know about your machine the faster you become at fixing problems. The second session we will focus on the interactions between you and your peers. It is a fact of modern development that all big projects are done in teams and development velocity is measured by the average velocity of all team members, not the velocity of any individual. In this week we will introduce some of the tools that help developers work simultaneously and effectively. Team development is all about increasing the Bus-factor of your team. The third session is going to take we will try to make you more familiar with the tools from the first session working through

a demo project. We will introduce the concepts of automated deployment and replication of the development environment in production machines. This course will discuss best practices when it comes to design architecture of web applications. We will also compare between IAAS and PAAS and how to take advantage of them.

Department of Civil Engineering

Report on technical seminar "Primavera, COSTX & Career Opportunities" on 12-10-2019

The Department of Civil Engineering had organized technical seminar "Primavera, COSTX & Career Opportunities" for 5th & 7th semester-students. Event was organized by Prof. R S Patil in association with Infinity PMC, Bangalore. Resource person of the event **Er. Janardhan Kumar** delivered technical talk on extensive use of software's Primavera and COSTX in the present day industry scenario.

About Primavera

Primavera is an enterprise project portfolio management software. It includes project management, product management, collaboration and control capabilities, and integrates with other enterprise software such as Oracle and SAP's ERP systems. Primavera was launched in 1983 by Primavera Systems Inc., which was acquired by Oracle Corporation in 2008. This software is the strong tool used in construction management.

About COSTX

CostX platform allows users to perform accurate and efficient measurement from 2D drawings, as well as generate automatic quantities from BIM or 3D models using the most advanced electronic takeoff system available on the market. Cost X users can prepare estimates, tenders and Bills of Quantity with ease using our fully integrated electronic environment for takeoff and estimating. The platform also features powerful spreadsheet-based workbooks that are live-linked to the drawings in question.

The program was conducted in Seminar Hall, main building, RRIT, Bangalore. Prof & Head Dr. G Sankara, welcomed the gathering, Prof. R S Patil introduced the speaker Er. Janardhan Kumar and Prof. Ranganathan B A presented vote of thanks. Prof. Gunasheela P, Prof. Sharmila H C, Prof. Bhoje Gowda V T, Priyadarshini H P Co-ordinated in organizing the event.

Report On "Student development program on Advanced Computer Architecture"

Student development program on Advanced Computer Architecture was organized by Department of Computer Science and Engineering on 8/11/2019 at 9:30am in the Room No.304. Prof. Jyothi R welcomed the speaker Dr Minal Moharir, Associate Professor, Department of Computer Science & Engineering, R V College of Engineering, Bengaluru and Dr. Sharvani G S, Associate Professor, Dept of Computer Science & Engineering, R V College of Engineering, Bengaluru, Dr. Manjunath R, HOD, Department of CSE, RRIT, Welcomed them. The Speaker Summarized about the parallel architecture and the software used for them. They also Described about the Parallel and Scalable Architecture, Principles of Vector Processing, concept of SIMD Computers. They did the Hands on session and showed how to run the parallel programs.

The hands on session were very impressive. The session was very interesting and we got very good feedback from students

Report on "Hands on Machine Learning using Anaconda Tool on 4th November 2019"

Report on entitled "Hands on Machine Learning using Anaconda Tool" was organized by Department of Computer Science and Engineering on 04th November 2019 at 09:15am in the main seminar hall. Prof. Mala.P Assistant Professor, welcome the speaker, and Prof. Manjunath R HOD-CSE introduced the chief guest to the students and spoke about significance of the topic. And later the session was started by Mr. Venkat Babu Viswandha palli, Programming Analyst Lead at Qualcomm Bengaluru, Karnataka, India. This Hands on Machine Learning using Anaconda Tool brought together researchers from various branches of computer science whose work involves learning by machines. It provided an opportunity for theoreticians to measure their models and results against demands and data that arise in applied machine learning, and it provided an opportunity for researchers in applied machine learning to initiate a more systematic and rigorous theoretical investigation of new learning approaches that have emerged from experimental work on application problems. One new learning paradigm that had received considerable attention at Hands on Machine Learning using Anaconda Tool is the Reinforcement Learning approach. This approach takes into account that in many practical machine learning scenarios no source of classified training examples is available to the learner. Another novel type of learning problems arises in the context of complex probabilistic models, which have turned out to be particularly useful for representing knowledge in a variety of real-world application domains. Apart from these two new directions the abstracts of this report demonstrate the vitality, sophistication and success of current work in theoretical and applied machine learning.

The Anaconda State of Data Science is strong. With 2 to 2.5 million downloads per month during January March 2018, Anaconda is easily the most popular Python distribution, with a growing R following. Below are key conclusions from the survey:

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

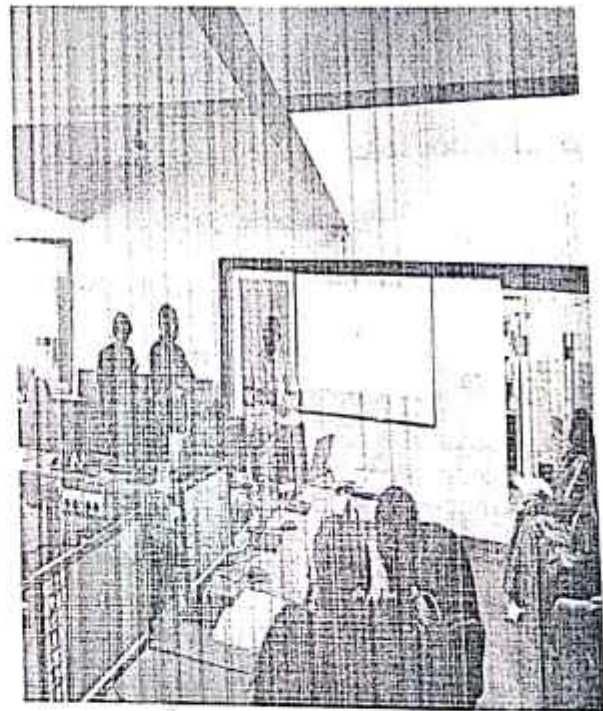

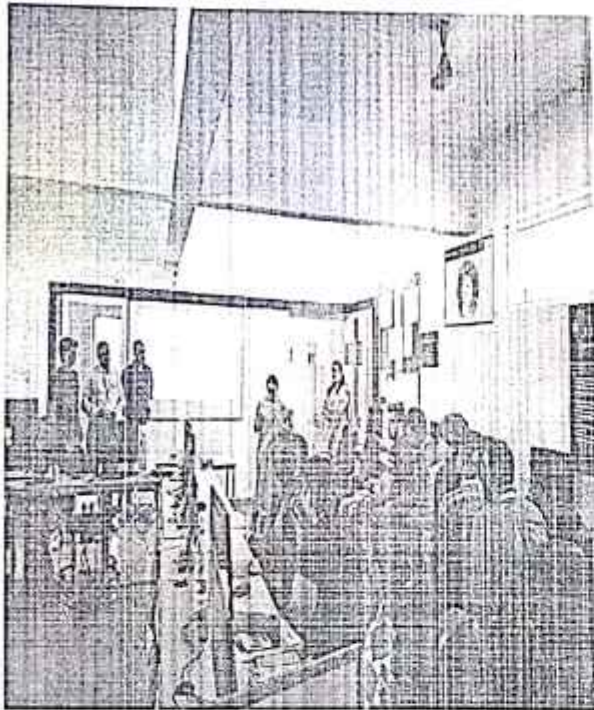

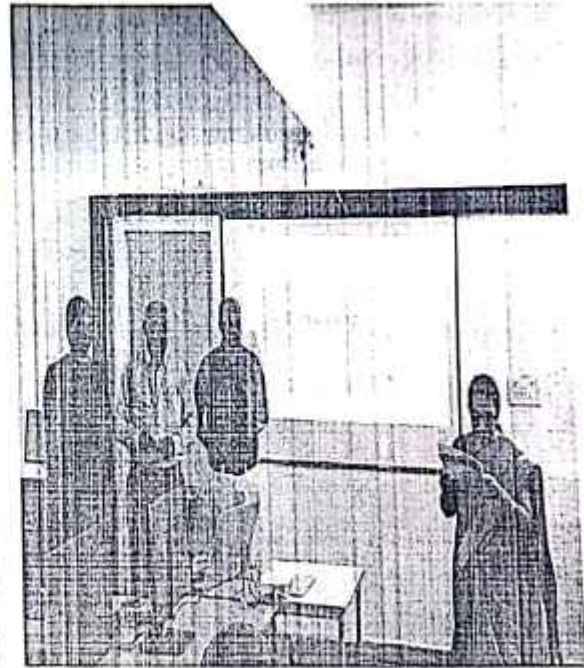

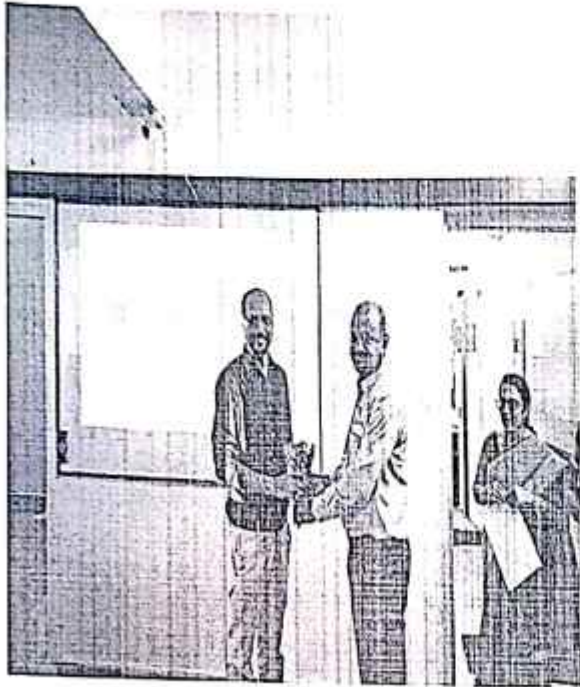

- The future is bright for Python and R. Students and academics are strong users of Anaconda, comprising 41% of the respondents. The future data scientists and machine learning experts of tomorrow are learning and using Python and R today.
- There is a Data Scientist/Software Developer crossover. Both Data Scientists and Software Developers write Python or R code, and the two job roles are not mutually exclusive: Data Scientists who write Python and R libraries can also be Software Developers. But we did not expect almost as many Software Developer users as Data Scientists (15% vs. 16%).
- Machine learning is a key application for Anaconda users. 14% of respondents are doing machine learning.
- Cloud-native data science and use of cloud services continue to rise, at the expense of traditional Hadoop-centric "big data" infrastructure. Responses concerning data sources and scale-out technologies indicate strong uptake of APIs, cloud data services, and container-based approaches to data science at the expense of traditional Hadoop deployments.
- Matplotlib continues to enjoy its first-mover advantage in visualization, sweeping the category. But it is still a highly crowded space with many strong competitors, both open source and commercial. Plotly, Tableau, Microsoft Power BI, and Tibco Spotfire are all strong commercial competitors to Matplotlib and other open source projects like ggplot, Bokeh, D3, and Altair.
- It matters a lot that Anaconda is free but not so much that it is open source. Free was ranked the most important attribute, while the open source licensing was second to last.

We wanted to understand the occupations of Anaconda users, so this was a single choice question where the results sum to 100%. The leading category is Student (26%), which is understandable given that Anaconda is very popular in the teaching realm due to its ease of use, as well as its ability to ensure that every student gets exactly the same Python and R environment and can reproduce the instructor's results. It also suggests that the growth of Anaconda Python/R users will continue to accelerate as these students graduate and put their expertise to work. Outside of students, Data Scientists (16%), Academics (15%), and Software Developers (15%) form the majority of users. Because Anaconda was born out of frustration with the difficulty of doing reproducible Python data science, we expected that Data Scientists and Academics would be popular user occupations, but we did not expect almost as many Software Developers as Data Scientists.

Report on Seminar on the topic "Search Engine Optimization in Digital Resource"

Seminar entitled on "Search Engine Optimization in Digital Resource" was organized by Department of Computer Science and Engineering in association with Library Department on 25/09/2019 at 3.00 pm in the main seminar hall. UOD staff also reproduced the chief guests to the facilities and spoke about significance of the topic. And the session started with following listed topics:

1. Introduction to D-Bookstore in general and D-Bookstore at RRIT in particular
2. Advantages of D-Bookstore from the student's perspective as well as the perspective of the faculty
3. How to download all existing content for free.
4. How to upload content and be recognized as authors.
5. Copyright and plagiarism
6. ISBN and ISSN
7. Digital publishing and publishing through the print media.
8. Search Engine Optimization for their digital content.
9. Multidimensional teaching using conventional content, audio and video through the D-Bookstore at RRIT.
10. Open house for discussion on anything regarding publishing matters.

BUDGET ESTIMATION

For

Five day Workshop on "Modeling Software - CREO"

24/09/2019 to 30/09/2019

Sl. No.	Particular/Head	Amount in Rs.
1	Fees (50 students x Rs.400/-)	20000/-
2	Food for 2 Guests for 5 days	500/-
3	Inauguration expenses (Flower bouquet etc...)	300/-
4	Tea and Biscuits for 5 days	3200/-
	Total	24,000/-

50% of the budget will be contributed by the students (i.e., 12000) and remaining 50% of the amount shall be contributed by the management

To conduct from Association fund only

Report on Five days workshop (Certificate programme) on
“Modeling Tool – CREO”

Date: 04th October 2019

About the Workshop—Department of Mechanical Engineering had organized five days workshop for 5th and 7th semester students of mechanical engineering on “**Modeling Tool- CREO**” from 24-09-2019 to 30-09-2019. This Workshop was intended to provide a platform for students to get enlightened about theoretical and hands on practice of CREO modeling tool.

Objectives of the workshop –

- To provide a platform to know basics of design and modeling of machine elements.
- To provide knowledge of G D & T.
- To make the students familiar with a modeling software.

Name and details of the resource person:

1) Mr. Shivakumar K

Mr. Shivakumar K has got 8 years of Experience in CAD/CAM training. He has worked in industry for several years and handled various projects in mechanical domain. He is involved in coaching CAD / CAM to several branches of engineering.

Program Outcome:

- It helped students to understand importance of design and basics of modeling.
- Students were able to understand G D & T and application to drawings.
- Workshop helped students to understand working on different workbenches of CREO software.

No. of participants: 50

Participants in a theory session of the v

Mahesh
PRINCIPAL

Date: 24/09/2019- (Day 1)

Morning Session:-

The FDP was inaugurated by Mr. Shivakumar K., Red Torn, Bangalore. Prof. S. Channabasavaraj, HOD, Mechanical Engineering Department, RRIT gave welcome address. Principal and all department HODs, mechanical Engineering staff and students were present in the inaugural session.

Theory Sessions were conducted by Mr. Shivakumar K., Red Torn, Bangalore. The following theoretical topic was covered.

- Basics of modeling and sketcher workbench.

Afternoon Session:-

Afternoon session was hands on session of the topics covered in the morning.

Date: 25/09/2019- (Day 2)

Morning Session:-

In the morning session the following topic was covered.

- Part modeling workbench.

Afternoon Session:-

Afternoon session was hands on session of the topics covered in the morning.

Date: 26/09/2019- (Day 3)

Morning Session:-

In the morning session the following topic was covered.

- Assembly workbench

Afternoon Session:-

Afternoon session was hands on session of the topics covered in the morning.

Date: 27/09/2019- (Day 4)

Morning Session:-

In the morning session the following topic was covered.

- Drawing workbench and G D & T

Afternoon Session:-

Afternoon session was hands on session of the topics covered in the morning.

Date: 28/09/2019- (Day 5)

Morning Session:-

In the morning session the following topic was covered.

- Sheetmetal Workbench

Afternoon Session:-

Afternoon session was hands on session of the topics cover

Report on Workshop

ERICA-The department of Electronics and Communication association and Electrical and Electronics Engineering jointly organized a Three day Workshop on "PIC Microcontroller" in association with LIVEWIRE from 19th to 21st September for the final and pre-final year students.

Objective: The main objective of the workshop is to motivate the students to use advanced simulator to simulate the basic circuits to advanced controllers in real time and see its output with respect to the design values. It helps them to design circuits for their final year projects and some hobby circuits without using real components. They will also learn to program the controller using c language in MPLAB and see the results using PROTEUS Design Tool.

External Resource Person: Mr. Vinay Sathyanarayana, Senior Architect, Dell Technologies, Bangalore. (CV enclosed with the report)

Internal Resource Person: Mr. Niranjan L, Assistant Professor, ECE Department, RRIT, Bangalore. (CV enclosed with the report)

Outcome: The students will be able to design their own circuits whatever they have learnt from first year to till date. They will be able see the 3D object of the circuit which they have design in PROTEUS Design Tool.

Total Students Attended

Report On "Career in Cyber Security" on 19th September 2019

Workshop entitled "Career in Cyber Security" was organized by the Department of Computer Science and Engineering in association with K-tech, KSCST on 19/09/2019 at 9:30 am in the Main Seminar Hall. CSE HOD welcomed the speaker Mr. Vishal Pradhan, Senior Security Engineer/Team Lead, QOS Technology, Bangalore. He covered how the career can be achieved by cyber security with all the below points: As the Internet grows, so does cybercrime. Luckily for cyber security professionals, this generates great demand for jobs.

Cyber security systems and principles are designed to safeguard websites and web applications from attackers seeking to disrupt, delay, alter or redirect the flow of data. These attackers vary in target, motive, levels of organization, and technical capabilities, requiring public and private organizations to adopt ever-increasing measures to prevent cyber-attacks.

- Governments maintain cyber security measures to protect the integrity of critical infrastructure for financial systems, public health, science, and safety institutions, and defense, aerospace, and intelligence agencies.
- Private enterprises use cyber security and online data protection to help prevent lost revenues, harm to brand reputation, and potential fines or legal liabilities.

He also explained, if you'd like to train to become a cyber security specialist, you should obtain a 4-year bachelor's degree in computer programming, computer science, information science or computer engineering. English, statistics and mathematics courses will be needed as well. Cyber security is one such niche within the field that offers plenty of exciting job opportunities for those who have the skills needed to carry out those duties. ... As happens with every other type of work, anyone can learn to become a cyber security expert with a basic level of intelligence and plenty of hard work.

Seminar On "EFFECTIVE CAREER PLANNING FOR ENGINEERING STUDENTS"

Department organized one day Seminar On **Effective Career Planning for Engineering Students** on February 13th 2019. The program started with the scope of attending seminar by Principal Dr.M B Manjunath, myself Prof. Emmanuel Rajarathnam ISE HOD and all the Faculties of ISE Dept..

An introduction was given by Ms. Vachana 3rd Sem ISE, followed by welcome speech given by Ms. Martha S 5th Sem ISE. Later Invocation song was sung by Ms. Aishwarya Rao 7th Sem ISE. A brief motivation speech was given by our beloved Principal Dr.M B Manjunath

The session was later handled by **PRAKASH CHAKRAVARTHY** Ex-employee of Citibank,
Japan

VANI INSTITUTE Bangalore.

The session was about **Effective Career Planning for Engineering Students**. In this session the speaker explained about the awareness for higher education and the demand for it in the Public Sector and MNC companies. The session was mainly focused on how the students can take up exams like GATE, TOFEL, etc. and the benefits of passing these exams. The session was very interactive since lots of queries from the students were discussed.

Finally the session was winded up with Vote of thanks by Ms. Pooja 3rd Sem ISE, followed by taking feedback from students.

REPORT

It is a well-known fact that a student's competency and excellence play major roles with regard to obtaining the readiness to prove himself/herself in the job market and here comes the purpose of holistic education. It is mandatory for a student to get a job in his respective field as his position and salary in various companies or industries act as the deciding parameters of his level of competence and excellence in education. In this way, placement classes on various topics equating with industry needs are arranged in each and every semester for all the students. The placement classes of the 8th semester students for the academic year 2018-2019 (Even Semester) were conducted from 1st February 2019 to 25th April 2018. The classes were arranged from 3:30 pm to 5pm.

Attendance were strictly monitored with a view to making all the students get benefitted by this programme and obtaining a very good job after the graduation. Totally the class duration was about 13 and half hours including both theory and practical sessions whereas the language lab was utilised for practical sessions. The syllabus was designed in a way of covering most of the key facets of communication under the banner Communication for Placement II, ranging from conversational skills, group discussion, interview questions and mock interview. It was made sure that the students must interact in each and every session so as to make the students more comfortable themselves in learning.

REPORT

It is a well-known fact that a student's competency and excellence play major roles with regard to obtaining the readiness to prove himself/herself in the job market and here comes the purpose of holistic education. It is mandatory for a student to get a job in his respective field as his position and salary in various companies or industries act as the deciding parameters of his level of competence and excellence in education. In this way, placement classes on various topics equating with industry needs are arranged in each and every semester for all the students. The placement classes of the 8th semester students for the academic year 2018-2019 (Odd Semester) were conducted from 3rd August 2018 to 26th October 2018. The classes were arranged from 3:30 pm to 5pm.

Attendance were strictly monitored with a view to making all the students get benefitted by this programme and obtaining a very good job after the graduation. Totally the class duration was about 13 and half hours including both theory and practical sessions whereas the language lab was utilised for practical sessions. The syllabus was designed in a way of covering most of the key facets of communication under the banner Communication for Placement I, ranging from designing the resume, presentation skills, non – verbal communication and communication etiquettes. It was made sure that the students must interact in each and every session so as to make the students more comfortable themselves in learning.

- The declaration for the celebration of International yoga day was done after the call by the Indian Prime Minister on the 27th September in 2014 in the United Nations General Assembly (UNGA).
- The then Indian Prime Minister Narendra Modi in the UN address suggested the date of 21st June, as it is the longest day of the year in the Northern Hemisphere and shares a special significance in many parts of the world.
- Hence United Nations General Assembly (UNGA) has declared 21st of June as an International Yoga (World Yoga) day on 11th of December in 2014. It is celebrated by the People of More than 177 countries including USA, Canada, China, Russia, etc.
- As per the directions from UGC (University Grant Commission) to celebrate International Yoga day on 21st of June Every Year.
- The 4th International yoga day (IDY-2018) was organized by Yoga club on 21st June 2018 at 11:30 Am to 1:00PM in seminar hall (B-Block). All the faculties, staffs, students from R R Institution gather to Practice Yoga, the ancient art originated from Indian which bring harmony and development for the body, Mind, and Spirit"

The Event as follows:

At 11.35 Am the students and faculties from all the departments, Institutions gathered in the seminar hall (B-Block), The function started by welcoming the gathering and the Chief guest, Guest Honor by Prof Jyothi R.

The Program was followed by lighting of lamp to bring.

The Significance of the day and yoga was presented by Prof Premsagar H, Coordinator, Yoga Club, RRIT

The demonstration and guidance on various yogahasna Pranayamas, Meditation were performed by Chief Guest Mr. Nagaraju H B and Akshya N Mohan (6th sem, CSE) for another 1 Hour minutes upto 12:50 PM.

guest was honoured by Principal, Finally vote of thanks was delivered by Prof Parimala Gandhi G, Dept of ECE, and function was ended with chant of OM.

Thank you

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding made and entered on 21th of June, 2018, between

**SGS INTERNATIONAL YOGA FOUNDATION COLLEGE AND
RESEARCH CENTRE, Bengaluru.**

AND

**Yoga Club
R.R. Institute of Technology,
Bengaluru.**

Whereas

SGS international yoga foundation college and research centre, Bengaluru is engaged in training and awarding Certificate in yogasana – First Party

R.R. Institute of Technology, Bengaluru is engaged in providing education to the students in the capacity of an educational institution– Second Party

SGS international Yoga foundation college and research centre, Bengaluru and R.R. Institute of Technology, Bengaluru have decided to work together for mutual benefit with respective expertise in their fields, in providing training to the students of the college. Both the parties intended to record the terms and conditions of the Memorandum of Understanding in writing.

Now this Memorandum of Understanding witnessed that in consideration of the mutual covenant contained herein, the parties have agreed as follows:

Period of Memorandum of Understanding:

This Memorandum of Understanding is valid for a period of 24 months(2 years) from the date it is signed by authorized representatives from both the parties.

Statement of mutual intention:

First Party and Second Party hereby confirm their mutual intention to work together and co-operate with each other

- The professional fee for the training is Rs. 200/- (Rupees Two Hundred only) per student for 2 hours of Training in Yogasana and Meditation for the Week on Wednesday and Thursday. And the strength of the students will be more than 50+
- The Monthly professional fees for the training should be paid as on 30th of every Month.

Mahesh

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY

Chikkabanavara, Bangalore - 560 090.

- The above mentioned price is inclusive of service tax and education cess.
- First Party would assist the Second Party in the following aspects:
 - Training in Yogasana, Pranayamas.
 - To teach and train the process of Meditation to bring oneness in body mind and soul.
 - To improve the mental ability of the student in order to focus and concentrate on Academies.
 - To enlighten the Students, staffs about health, diet, peace, harmony in society.
- The arrangement to conduct the class should be taken care by the second party
- Prior information should be given by the second party to the first party in the event of any classes being called off (At least a day in advance), else those hours will be considered for billing.
- The duration of the training program should be 2 hours per Week.

In witness whereof the parties hereto have hereunto set their hands and seals the day and year first above - written

This is the certificate of appreciation issued from **LIONS BLOOD BANK**, Bangalore for the concern shown by our organization towards motivating and inspiring the blood donors to ensure safe and adequate blood supply for patients in need by organizing **VOLUNTARY BLOOD DONATION CAMP** on 27th February 2019 at **RRIT INSTITUTIONS, Chikkabanavara, Bengaluru**.

The Total blood donated in our institution is 216 units

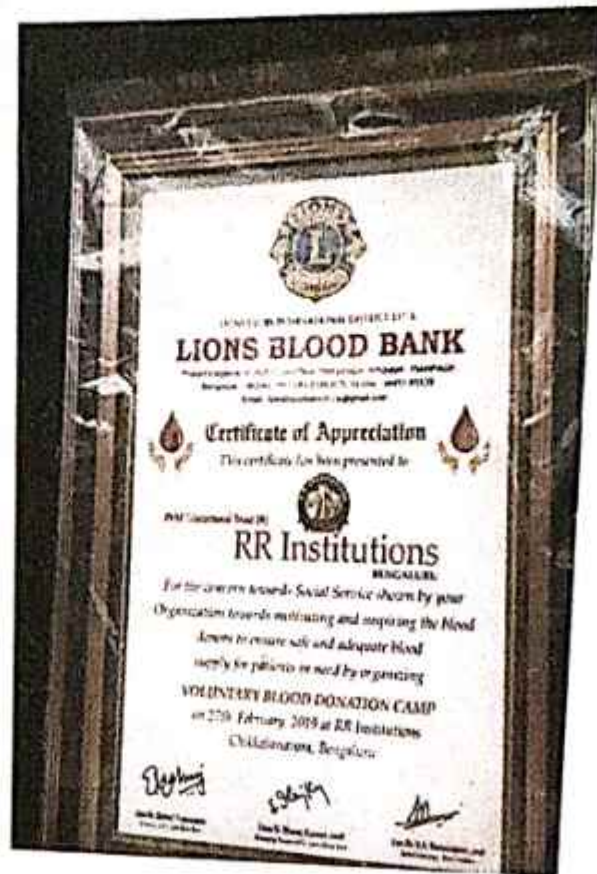

Eye screening Inauguration function held at seminar hall, Main block

Dr Thungappa told that the significance of eye screening will come to know the actual visibility of our eyes. The appropriate treatment for eye defected cases is provided free of cost to the students. They have also issued card for further testing in their hospital. Hence our students are greatly benefited to avail this humanitarian service.

Chikkabanavara, Bangalore - 560 090.

The event was organized in association with Lions blood bank . According to the survey, one donation can save as many as three lives, and someone in india needs blood every one seconds. It turns out that donating blood doesn't just benefit recipients. There are health benefits for donors, too, on top of the benefits that come from helping others. Read on to learn the health benefits of donating blood and the reasons behind them. Donating blood has benefits for your emotional and physical health. According to a report by the Mental Health Foundation, helping others can:

- reduce stress
- improve your emotional well-being
- benefit your physical health
- help get rid of negative feelings
- provide a sense of belonging and reduce isolation

Blood donation may lower the risk of heart disease and because it reduces the blood's viscosity.

Subject : Information regarding a movement "Drug Free India" - By "The Art of Living"

Sir/Madam,

We are well aware that repeated drug or alcohol use interferes with students' physical and mental health, hampering their overall development and a desired future. It is a matter of great concern that many of the drug addicts across India are educated and literate. As an educational institute it is our major responsibility to provide an environment which not only educates the students on the ill effects of drug abuse but also offers prevention measures before getting caught in this vicious circle.

I am pleased to learn that The Art of Living organisation has started a movement called "Drug Free India" across the country under the guidance of the world renowned humanitarian leader Gurudev Sri Sri Ravi Shankar ji.

We thank Hon'ble Human Resource Development Minister Shri. Prakash Javadekar ji for sharing an inspiring message urging all the educational institutes across the country to join the Drug Free India Campaign. (Video Message Link: https://tiny.cc/DFL_HRD)

Drug Free India is an integrated 360° movement bringing all the key influencers across multiple domains including Government bodies, NGOs, celebrities, social activists on an exclusive platform to help take this movement to the grass root level.

The launch of 'Drug Free India' will be on February 19, 11.00 am in the State of Haryana, which will be webcasted LIVE across India in presence of Gurudev Sri Sri Ravishankar Ji along with several Celebrities, Government Officials and Dignitaries.

AICTE would like to encourage Heads of Institutions/College Management/Students to participate in the launch event via Webcast in their maximum capacity. In this endeavour, every college may form a team of dedicated volunteers called S.W.A.T (Social Wellness & Awareness Teams) who will be closely mentored by the Art of Living faculties to drive the vision of Drug Free India and work for holistic development of students. In the past, Art of Living programs have helped many youths to overcome drug abuse.

A detailed outline of the events being planned as a part of this campaign and relevant links are attached for your reference and necessary action:

- Registration for the event: <https://tiny.cc/drug-free-india-register>
- Live Webcast Link: <https://tiny.cc/DFI1.live>

Anti Drug Abusing Committee

Program on

"Drug Free India" campaign by Art of Living

Drug Free India campaign by Art of Living and RRIT, Chikkabanavara, Bangalore jointly organized Live streaming campaign on 19.02.2019 at 11am at main seminar hall of RRIT.

The program commenced at 10:30AM by Dr. M B Manjunatha, Principal, RRIT, Mrs. Parimala Gandhi, IQAC coordinator, Mr. Pankaj, Mss Swetha, Mr. Arul, Mss. Swetha All Technical professionals and Members of Art of Living, Mr. Ravikumar R in charge Anti Drug Abusing Committee, all committee members & 4th sem students from all the branches of RRIT

The main agenda of "Drug Free India" by Art of Living, started a fight against drugs across the world. Our holistic interventions have given 25,000+ addicts a second chance to lead normal lives. Now we begin the biggest rebellion against drugs with a pledge for a #Drug Free India. The nationwide movement flagged off in Punjab and Haryana with thousands taking the pledge with Gurudev Sri Sri Ravi Shankar, Sanjay Dutt, Badshah and Kapil Sharma for a new beginning, a pledge for a Drug Free India: **Na Kareng Na Karne Denge**; No drugs - not for me, not for others, moreover 80 students are participated in this campaign and all are taking the pledge "**Na Kareng Na Karne Denge**". Finally the program ending with vote of thanks by Mrs. Parimala Gandhi, IQAC coordinator.

Anti Drug Abusing Committee

Report on "Debate competition on " Tobacco : A Threat to career and Life"

Department of Health government of Karnataka and RRIT, Chikkabanavara ,
Bangalore jointly organized a debate competition on " Tobacco : A Threat to career
and Life" on 15.11.2018 at main seminar hall of RRIT.

The program commenced at 10AM. Dr. M B Manjunatha, Principal, RRIT, Sri
Sidda Reddy, Senior health inspector, Miss. Saroja (BHE), Puttathayamma (JHI), Prof.
G Sankara In charge Anti Drug Abusing Committee, all committee members & Judges
Mr. Harish V & Miss. Poornima (from RRIT) Presided the function. Sri Sidda Reddy,
Senior health inspector spoke about the bad effects and various laws on tobacco
abuse. Later the debate program started. Around 40 students both male and female
from all the branches of engineering participated in the debate. Debate was very
interesting and lively as the contestants discussed for & against the topic.

At the end of interesting debate judges declared the following students as
winners. All the winners were awarded cash prize from Department of Health
government of Karnataka and Certificate from RRIT.

Prize winners list:

1. First prize Winners a) Andrew Augustine (7th Sem Civil)
b) Aishwarya Rao (5th Sem ISE)
2. Second prize Winners a) Martha (3rd Sem ISE)
b) Arpitha M R (5th sem CSE)
3. Third prize Winners a) Ashwini Deshpande (7th Sem CSE)
b) Kishore (7th Sem Civil)

Accordingly, 130 1st year students, 15 senior student coordinators, 10 supporting faculty, 4 Attenders left for the spot in 3 buses. At the spot only NSS Officer has divided them into 5 groups and named with 5 great leaders of India, and explained them the work to be done by them. Praja parivathana Vedike and international kabaddi player has been kind enough to start the programme with formal inauguration. The work went on well and progress of it was monitored by NSS officer, Faculty and Senior Students. At 1.30pm the work was stopped for lunch break. Students had delicious food and enjoyed the break with mutual greetings and introduction.

Maheshwari
PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

The work was resumed again giving final finishing to the cleaned area. The students were involved voluntarily in cleaning the weeds, shrubs and other unwanted growth of plants.

Date: 14/8/18

REPORT
ON
“WORLD ORGAN DONATION DAY”

World organ donation day was organized by the Department of Electronics and Communication Engineering on 11/8/18.

Significance of the Event:

The Organ Donation Day campaign is celebrated every year on August 13th to provide a great opportunity in everyone's life to come ahead and pledge to donate their precious organs. Organ Donation is the gift of an organ to a person who needs a transplant to improve his condition and health status. It is a procedure in which a healthy organ (donor) is taken from an individual who is either living or deceased and is transplanted into a person whose respective organ (recipient) is malfunctioning. Donated organs give the recipient the opportunity of a longer and better quality of life.

Objective of the Event:

- To create an awareness among the people about the need of organ donation.
- To distribute the message of organ donation.
- To remove hesitation of people about donating organs.
- To motivate and encourage more people towards organ donation in their life.

Resource Persons:

- 1) Mrs. Priyanka Shylendra, CEO, Gift Your Organ Foundation & Trustee of ASTHA
- 2) Mr. Sachin, Volunteer, Gift Your Organ Foundation

Venue: RRIT Seminar Hall, Time: 10:30AM

The main objective of the event was successfully delivered by the resource persons with the aid of presentations, videos and answering to the queries at the end of the session.

Participants: About 120, including students and faculty

PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

About "GIFT YOUR ORGAN FOUNDATION":

Gift your Organ Foundation is a registered Charitable Trust conceived in February 2011. The founding members were like minded individuals concerned about the glaring deficiency in the current scenario of organ donation in India. They jointly felt a civic responsibility to address this problem, to educate the community, and to promote the cause of organ donation. The dedication was so deep and passionate, that the vision came about to make a difference that would affect the fate of every single citizen of India. Those who fight for their life due to failing organs today deserve the gift of organ donation, if that's what it takes to win their fight. Gift Your Organ Foundation promotes Life. Our life, your life and once we're gone, the life of someone else.

FEEDBACK FROM OUR PARTICIPANTS (compiled):

- "I was inspired a lot to pledge my organs"
- "It's really a good program organized by the department of ECE, which save lots of life and that is a big challenge"
- "Thanks for wide spreading one's knowledge about organ foundation"
- "The programme of organ donation day is very good for the younger generation. This is really good"
- "I will think about it"
- "Against my religion"
- "Got some useful information and ideas about organ donation & motivated to donate organ which can save somebody's life"
- "It was a very useful session with great awareness, I hope everyone will donate their organs and for sure I will pledge to donate my organs if I face brain death or at least tissues in case of natural death"
- "I am so glad for this organization. I am so happy and excited by attending the programme. I am so happy to be a part of this Organization"
- "Thanks for educating about organ donation, and will pledge to donate organs"
- "I wish to donate my organs and inform my parents to inform about my death to nearby hospital"

Expenses:

The expenses towards conducting the event were supported by the Management of RRIT. We thank the Management for supporting the cause.

A handwritten signature in green ink, likely of the Principal, is written above the printed name.

A Report on "Python Application Development using Django & SQLite" held on 25th April 2019

A Workshop program entitled "Python Application Development using Django & SQLite" was organized by the Department of Computer Science and Engineering on 25/04/2019 at 9.30 am. The Prof. Manjunath.R, Head of the Computer Science and Engineering Department, introduced and welcomed the Resource Person Mr. Ashok Kumar K, Technical Head, XON Lab, Bangalore. The program was held on Seminar hall, RRIT.

Django is a powerful structure written with and using all the functionality of the Python programming language to create commercial and home websites of varying complexity. Django is an open source project that supports the implementation of the most popular packages and Python tools.

Many of the most modern and popular frameworks and libraries can be implemented using Django—Bootstrap, Angular, Vue.js, Backbone or others. Django, based on the MVC (Model-View-Controller) paradigm, has a default database—SQLite (lightweight DB), has a graphical administrator interface by default, which makes Django a convenient tool for creating and managing websites with minimal programming experience.

To create the first Django project, we need to install the Django and related packages (for additional functionality). You should also have Python installed. The best toolkit for Python and the working environment is Anaconda. Both `easy_install` and `pip` are Python Package Managers, which make it *much* easier to install and upgrade Python packages (and package dependencies). To download `easy_install`, go to the Python Package Index (PyPI). You need to download `setuptools`, which includes `easy_install`. Download the package egg (.egg), then install it directly from the file. `Pip`, meanwhile, is a wrapper that relies on `easy_install`, so you must have `easy_install` setup and working first before you can install `pip`. Once `easy_install` is setup, run the following command to install `pip`: `SQLite` comes pre-installed with Python, and most tutorials utilize `SQLite`—so let's push ourselves a bit and use `MySQL` instead.

Students of CSE and ISE had participated felt it useful for their academics.

Report on "Introduction to Data Science" held on 16/02/2019

A Seminar program entitled "**Introduction to Data Science**" Seminar was organized department of CSE on 16/02/2019 at 9.30 am. The Prof. Manjunath.R, Head of the Computer science Department introduced and welcomed the Resource Person Mr. Prithvi Raj GE-Digital, Bengaluru. The program was held Seminar hall, RRIT. "Data Science helps humans make better decisions; either quicker decisions or better decisions. Companies invest a lot of money in data science so they could get the right information to make the right decision.

Data scientists are a unique breed, focused on understanding and drawing specific business, medical, financial, manufacturing conclusions, using data. They are able to hypothesize, improving business outcomes, based on in analysis with continued proof points, through continuously testing those base conclusions and the iterative improvements to ensure the conclusions reached continue to be correct and true. The world of data science is changing our world in every business.

Two major challenges are facing the data science community: the ability to collect and manage the iterative models that represent the conclusions as well as formulate and ensure that the data collected is the right data to run the models on.

The role of *Data Science Applications* hasn't evolved overnight. Thanks to faster computing and cheaper storage, can now predict outcomes in minutes, what could take several human hours to process.

Data Science exploring various domains such as the following:

Fraud and Risk Detection, Healthcare, Internet Search, Targeted Advertising, Website Recommendations, Advanced Image Recognition, Speech Recognition, Airline Route Planning, Gaming, Augmented Reality. Students of C and ISE had participated felt it useful for their academics.

Respected Sir,

Subject: Proposal for organizing Certification Program "Hands on Training on Solid works".

With reference to above subject, the Department is planning to organize five days Certification Program on the topic "Hands on Training on Solid works". From 11/02/2019 to 15/02/ 2019. This Program was intended to provide a platform for students to get enlightened about theoretical and practice on Solid works Modelling Tools. In this regard we request to provide the permission and support to organize this event.

Thanking You

Program Schedule

Time	PROGRAM
11-02-2019	
9:30 To 10:30	Inauguration
10:30 To 10:45	Tea Break
10:45 To 11:30	Objective of the workshop
11:30 To 1:05	Solid works Basics and User Interface
1:05 To 1:45	Lunch Break
1:45 To 2:30	Working with Sketch and Basic part Modeling
2:30 To 4:15	Design Tables and Equations
4:15 To 4:30	Ending day One
12-02-2019	
9:30 To 10:45	Advance Part Modeling
10:45 To 11:00	Tea Break
11:00 To 1:05 1:05 To 1:45 (Lunch) 1:45 To 4:30	Multibody solids and other Advanced Tools, Basic Part Rendering and other Mapping Texture Appearances, Assembly Modeling, Large Assemblies, Motion manager, Surface Modeling
13-02-2019	
9:30 To 11:00	Advanced Surface Modeling
11:00 To 11:15	Tea Break
11:15 To 4:30	Master Model Techniques , Assembly drawing views
14-02-2019	
9:30 To 1:05	Drawing Sheets and Views , Bill of Material and Tables
1:05 To 1:45	Lunch Break
1:45 To 4:30	Dimensions and Annotations, Sheet Formats and Templates
15-02-2019	
9:15 To 1:05	Drawing References and Comparison, Sheet metal and Modeling Sheet Metal Parts, Sheet Metal Forming Tools, Sheet Metal design - BIW (body in weight)
1:05 To 1:45	Lunch Break
1:45 To 4:00	Dismantling, Detailing & Assembling of multi cylinder Diesel engine, Converting Parts to Sheet Metal , Wireframe and advanced surface-aerodynamic structure,
4:00 To 4:15	Quiz/Test for participants
4:15 To 4:30	Felicitation & Certificate Distribution

Department of Mechanical Engineering**

**Report on Five days workshop “Hands on practice on
SOLIDWORKS”**

Date: 22nd February 2019

About the Workshop—Department of Mechanical Engineering had organized five days workshop for final and pre-final year students of mechanical engineering on “Hands on practice on SOLIDWORKS” from 11-02-2019 to 15-02-2019. This Workshop was intended to provide a platform for students to get enlightened about theoretical and hands on practice of SOLIDWORKS modeling tool.

Objectives of the workshop –

- To provide a platform to know basics of design and modeling of machine elements.
- To make the students familiar with a modeling software.

Name and details of the resource person:

1) Mr. Shivakumar K

Mr. Shivakumar K has got 8 years of Experience in CAD/CAM training. He has worked in industry for several years and handled various projects in mechanical domain. He is involved in coaching CAD / CAM to several branches of engineering.

Program Outcome:

- It helped students to understand importance of design and basics of modeling.
- Workshop helped students to understand working on different workbenches of SOLIDWORKS software.

No. of participants: 70

Students in a hands on session

M. S. Srinivasan
PRINCIPAL

R.R. INSTITUTE OF TECHNOLOGY
Chikkabanavara, Bangalore - 560 090.

Date: 11/02/2019- (Day 1)

Morning Session:-

The FDP was inaugurated by Dr. Arulmani L, Associate professor, Mechanical Engineering Department, RRIT. Prof. S. Channabasavaraj, HOD, Mechanical Engineering Department, RRIT gave welcome address. Principal and all department HODs, mechanical Engineering staff and students were present in the inaugural session.

Theory Sessions were conducted by Mr. Shiva kumar K., Red Torn, Bangalore. The following theoretical topic was covered.

- Basics of modeling and sketcher workbench.

Afternoon Session:-

Afternoon session was hands on session of the topics covered in the morning.

Date: 12/02/2019- (Day 2)

Morning Session:-

In the morning session the following topic was covered.

- Part modeling workbench.

Afternoon Session:-

Afternoon session was hands on session of the topics covered in the morning.

Date: 13/02/2019- (Day 3)

Morning Session:-

In the morning session the following topic was covered.

- Assembly workbench

Afternoon Session:-

Afternoon session was hands on session of the topics covered in the morning.

Date: 14/02/2019- (Day 4)

Morning Session:-

In the morning session the following topic was covered.

- Surface workbench

Afternoon Session:-

Afternoon session was hands on session of the topics covered in the morning.

Date: 15/02/2019- (Day 5)

Morning Session:-

In the morning session the following topic was covered.

- Sheet metal Workbench

Afternoon Session:-

Afternoon session was hands on session of the topics covered in the morning.

Report on “Machine Learning Techniques” held on 30/11/2018

A one day Workshop program entitled “Machine Learning Techniques” was organized by department of CSE on 30/11/2018 at 9.30 am. The Prof. Manjunath.R., Head of the Computer science Department, introduced and welcomed the Resource Person Prof. Girish Babu C N, Assistant Professor Dept. of ISE, BMS Institute of Technology, Bengaluru and Prof. Vinutha K, Assistant Professor Dept. of ISE, BMS Institute of Technology, Bengaluru. The program was held at Seminar hall, RRIT. Main focus of the workshop was to do hands on practical with Machine learning tools. There is a wide range of open source machine learning frameworks available like orange tool, Apache Singa, Amazon Machine Learning (AML), Jupiter note book, Spider etc. in the markets, which enable machine learning engineers to build, implement and maintain machine learning systems, generate new projects and create new impactful machine learning systems. Machine learning explores the area of algorithms, which can make high end predictions on data. In recent times, machine learning has been deployed in a wide range of computing tasks, where designing efficient algorithms and programs becomes rather difficult, such as email spam filtering, optical character recognition, search engine improvement, digital image processing, data mining, etc.

Overall student learnt the basics of working with various machine learning framework. Feedback students was collected and it suggested that they welcomed this initiative and they are motivated to explore more dimension in this platform also they are willing to use this tools in their projects in future.

Thanks and regards

Report on "Big data and Hadoop" Workshop Held on 3/10/2018

A certificate program entitled "Big data and Hadoop" workshop was organized by department of CSE on 3rd October 2018 at 9.30 am. The Prof. Manjunath R., HOD, Department of CSE introduced and welcomed the delegate Mr. Nilesh Kumar gupta working as head of operations at EduNextgen. The program was held at lab No: 006A, CSE, RRIT. Students of CSE and ISE had participated 55 in number felt it is useful for their future. They are interested with the same concepts to gain in depth knowledge in future also. The Session ended at 4:30 PM by distributing the certificates from guest Mr. Nilesh Kumar gupta, Head of operations, EduNextgen, Begaluru, Prof. Manjunath R, HOD, CSE Dept. & Prof Sumanth V. Asst. Prof., Cse dept. The prof. Sumanth gave a vote of thanks & took feedback from all the students who are participated in the workshop. The feedback overall percentage is 80%.

Thanks and regards

Signature of participant

Signature HOD/Principal with Seal

Chief Patron

Shri. Y. Raja Reddy
Chairman, PKM Educational Trust

Patrons

Shri H.R. Kiran, Secretary, PKME Trust
Shri H.R. Arun, Director, PKME Trust
Shri. Ramakrishna Reddy, CEO, RRIIT

Rector

Dr. Manjunatha M.B.,
Principal, RRIIT, Bangalore

Organizers

1) Prof. Emmanuel K, HOD, ISE Dept.
2) Prof. M. Suresha, Associate Prof., ISE Dept.

Faculty Co-ordinators

1) Prof. Ganaha M, Assistant Prof, ISE
2) Prof. Vani Saptasagar, Assistant Prof., ISE
3) Prof. Sreetha K R, Assistant Prof, ISE
4) Prof. Vinod L B, Assistant Prof., ISE
5) Prof. Gautham, Assistant Prof, ISE
6) Prof. Arpitha Martin, Assistant Prof, ISE
7) Prof. Janhavi N L, Assistant Prof., ISE

Student Co-ordinators

1) Bikash Poudel, ISE, 3rd SEM
2) Rutima Shrivastha, ISE, 3rd SEM
3) Chochha Pawal, ISE, 3rd SEM
4) Mithun, K

PKM EDUCATION TRUST

PKM Educational Trust is setup with a vision of imparting education to all sections of society. The Trust was established in the year of 1993 to render services to mankind in the field of education by establishing schools & colleges, along with other facilities, highly qualified faculties and well equipped with sophisticated labs. We are proud to see that, many of our students after completion of their course, have been placed across the country and abroad in prestigious organizations.

R R Institute of technology

R R Institute of Technology, setup with a mission of imparting education to all sections of society, was established in the year 2008 to render highest standards of academic achievement with moral and social commitments. Converting the idea of providing high quality education combined with excellent infrastructure into a reality in Indian context, R R Institute of Technology have proved the capability of placing students after completing their course in prestigious organization across the country and abroad. Generating a synergistic relationship with the industry with a long term view where the college and the industry could have a mutually beneficial relationship; it aims a rigorous, relevant and rewarding education with a special emphasis on practical and technical inputs.

ABOUT PYTHON PROGRAMMING

Python is an interpreted high-level programming language for general-purpose programming. Created by Guido van Rossum and first released in 1991, Python has a design philosophy that emphasizes code readability, notable using significant whitespace. Python features a dynamic type system and automatic memory management. It supports multiple programming paradigms, including object-oriented, imperative, functional and procedural, and has a large and comprehensive standard library. Python interpreters are available for many operating systems. CPython, the reference implementation of Python, is open source software[29] and has a community-based development model, as do nearly all of Python's other implementations. Python and CPython are managed by the non-profit Python Software Foundation.

Why we should learn python?

- Simple
- Easy to learn
- Portable
- Free and open source

- High level language
- Object oriented

Why do we need python?

- For a software quality
- Developer productivity
- Support libraries

Uses of python

- Google makes extensive use of Python in its web search systems, and employs Python's creator.
- The YouTube video sharing service is largely written in Python.
- The popular BitTorrent peer-to-peer file sharing system is a Python program.
- Maya, a powerful integrated 3D modeling and animation system, provides a Python scripting API.

Functionality of python programming:

- Graphical user interface
- Multimedia
- Networking
- Databases
- Documentation

CHIEF PATRON:

Sri Y Raja Reddy,
Chairman RRIIT, Bengaluru.

PATRON:

Sri Kiran H.R.,
Secretary, PKMET, Bengaluru.

Sri Arun H.R.,
Director, RRIIT, Bengaluru.

Sri Ramakrishna Reddy,
CSC, RRIIT, Bengaluru.

RECTOR:

Dr. M.B. Manjunath,
Principal, RRIIT, Bengaluru.

CHIEF CO-ORDINATOR:

STAFF ADVISORY:

Prof. Emmanuel R.
HOD of ISE Dept., RRIIT

Prof. M. Suresha
Associate Prof., RRIIT

FACULTY CO-ORDINATORS:

Prof. Ganesh M

Prof. Vani S.

Prof. Swetha K R

Prof. Vinod L.B.

Prof. Gautham B.S.

Prof. Arpitha M

Prof. Jahnvi N.L.

Schedule for the Workshop on "PYTHON PROGRAMMING"

Sl No.	Date	Timings	Program
1	30-08-2018	09:30 AM - 10:00 AM	Registration & Inauguration
2		10:00 AM - 11:30 AM	Introduction and Basics
3		11:30 AM - 11:45 AM	Tea break
4		11:45 AM - 1:00 PM	Working with PYTHON
5		1:15 PM - 2:00 PM	Lunch break
6		2:00 PM - 4:00 PM	Hands on practice and conclusion

Workshop On

"PYTHON PROGRAMMING"

Department organized an workshop on Python Programming on August 30th 2018. The programme started with the scope of attending workshops by Civil Engineering HOD, followed by CSE HOD. An introduction was given by Prof. Emmanuel R of ISE Dept., and Prof. Suneetha M of ISE Dept.. The session was later handled by Prof. Janhavi N L of ISE Dept. The morning session was about introduction to Python program and various features and applications of Python program. The afternoon session was hands on session in the ground floor computer lab. The students of 3rd, 5th & 7th Sem students and also Faculties from various department learnt installation and wrote programs on Python and executed with confidence. The session was concluded with awards to best programmers and vote of thanks. Participation certificates were given at the end of the session.
