Online Quiz Report on "Data Warehouse" on 22nd July 2020

Online quiz on entitled "Data Warehouse" on 22nd July 2020 was organized by Department of Information Science and Engineering. 75 Students and 15 Faculties attended the Quiz. The quiz was for 25 points with 25 MCQ questions which will be very useful for cracking the technical rounds in their interviews and gain knowledge.

Online Quiz System is a web-based examination system where quiz is taken online that is through the internet using computer system. The purpose of Online Quiz System is to take Semester Quizzes in an efficient manner and no time wasting for checking the paper. The main objective of Online Quiz System is to efficiently evaluate the candidate through a fully automated system that not only saves lot of time but also gives fast results. Teachers can administer quizzes using the Online Quiz System. The system will show result after the examination is finished.

A teacher has control in the question bank and is supposed to make schedule for the quiz. The system carries out the examination and auto-grading for multiple choice questions which is fed into the system. Administrative control of the whole system is provided. The main aim of Online Quiz System Project is to facilitate a user friendly environment of Blue book implementation and reduces the manual effort. Providing an online comprehensive solution to manage quiz system where the individuals are participating in a team. The purpose of the system is to develop Online Examination System., used to test the Domain knowledge of the students, and employees with respect to the particular technology. The manual procedure used for conducting exam is time consuming process and error prone due to human limitations.

Online Examination System refers to service as conduct online examination or test. It will use for students progress evaluation using modern computer technology. It replaced the paperwork and overcome the outcomes of traditional way of examinations using paper or pen. It is web based platform can be used by Admin at any remote location. Online Examination System is fully developed automated system is to efficiently evaluate the candidate progress that not only save the time of Examination Controller and also gives fast result. The Administrator of the system has authority to propose tests or papers. It is cost effective and time effective.

Data warehouse is very important comes from operational environment in almost every case. Data warehousing provides architectures and tools for business executives to systematically organize understand, and use their data to make strategic decisions. A large number of organizations have found that data warehouse systems are valuable tools in today competitive, fast-evolving world. In the last several years, many firms have spent millions of dollars in building enterprise wide data warehouses.

Data warehousing is a more formalised methodology of these techniques. For example, many sales analysis systems and executive information systems (EIS) get their data from summary files rather than operational transaction files. The method of using summary files instead of operational data is in essence what data warehousing is all about. Some data warehousing tools neglect the importance of modelling and building a data warehouse and focus on the storage and retrieval of data only.

Report on Digital and Analog Transmission Quiz

Online quiz on "Digital and Analog Transmission" was organized by ISE department for 4th, 6th, and 8th semester students of CSE/ISE Department, RRII Bangalore on 20th July 2020. The quiz was conducted to know the Digital and Analog Transmission in computer networking, which will be very useful for cracking the technical rounds in their interviews and to update their knowledge. Thirty multiple choice questions (MCQ's) prepared for organizing the quiz on digital and analog transmission in the computer networks which are more related to Local Area Networks (LANs) and Wide Area Networks (WANs). Around 48 students participated in the quiz and given the participation certificates for all the participants. Three best students were selected and awarded with 1st place, 2nd place & 3rd place certificate.

This quiz also helped the students to crack questions in their main examinations conducted by the university, GATE, and other certification course in networking

The following are the toppers of the quiz:

Sl. No.	Marks Scored	Place	Name

Report on Data structures and Algorithms Quiz

The department of CSE organized an online quiz on Data structures and Algorithms for 4th, 6th and 8th semester students of CSE/ISE Department, RRIIT, Bangalore on 25th July 2020. The quiz was conducted to enhance the knowledge on fundamentals and applications of Data structures and Algorithms. The quiz covers the MCQs on the concepts of Stacks, Queues, Linked Lists, and Trees in Data structures. It also covers the concepts of time complexity, and various algorithms that are used in our daily lives. This Knowledge would help the students to crack their corporate level interviews, where the questions will mostly be on these agendas. Around 56 students participated in the quiz and given the participation certificates for the participants who scored more than 15. This kind of events would help the students to crack the questions in their main examinations conducted by the university.

Report on Machine Learning Quiz

Online quiz on "Machine Learning" was organized by ISE department for students and faculties of CSE/ISE Department, on 25th July 2020.

Today Machine learning plays a major role in all the industries to drive new business, increase productivity, reduce risk and improve Consumer satisfaction. Machine Learning a unique way of programming computers. Most programming that is not machine learning is procedural — it's essentially a set of rules defined by a human. This rule set is called an algorithm. In machine learning, the underlying algorithm is selected or designed by a human. However, the algorithms learn from data, rather than direct human intervention, about the parameters that will shape a mathematical model for making predictions. Humans don't know or set those parameters — the machine does. Put another way, a data set is used to train a mathematical model so that when it sees similar data in the future, it knows what to do with it. Models typically take data as an input and then output a prediction of something of interest.

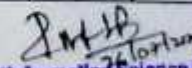

The quiz was conducted to explore the concepts of machine learning which is the trending and required subject currently with respect to all branches and also helps in cracking the technical rounds in their interviews and for the updation in their knowledge. Twenty-Five Multiple choice questions (MCQ's) prepared for organizing the quiz on Machine Learning which are more related to the algorithms and accuracy related concepts in ML. The total 84 participants attended quiz which includes 65 students and 19 faculties and given the participation certificates for the participants who scored more than 10.

Report on OOPS with JavaQuiz

Online quiz on "OOPS with Java" was organized by CSE department for 4th, 6th, and 8th semester students of CSE/ISE Department and for faculties of RRIT Bangalore on 29th July 2020. The main objective of this java quiz was to make the participants to know the object oriented programming, which will be very useful for cracking the technical rounds in their interviews and to update their knowledge. It also helped participants to learn why Java is useful for the design of desktop and web applications and how to implement object-oriented designs like GUI components, java API's, classes, objects, threads in Java. Twenty Five multiple choice questions (MCQ's) prepared for organizing the quiz On OOPS with Java which included the concepts of "objects" that contain data and methods, Inheritance, Constructors, Polymorphism, Exceptional handling etc. The primary purpose of object-oriented programming is to increase the flexibility and maintainability of programs.. also learn designed to be easy to use and is therefore easy to write, compile, debug, and learn than other programming languages. object-oriented . This allows you to create modular programs and reusable code. 77 Participant participated in the quiz in that 72 students and 5 Faculties are participated .

Report on Virtual Memory Management in Operating System Quiz

Online quiz on "Virtual Memory Management in Operating System" was organized by CSE department for Faculties and students of CSE/ISE Department, RRIT Bangalore on 20th July 2020. The quiz was conducted to know the virtual memory Concept and Paging concept and other memory management methods. Online examination on Virtual Memory Management typically used for assessing knowledge only, students may often memorize MCQs with rote learning. If assessors wish to use MCQs to assess deeper learning, careful attention (and many practices) on appropriate questions are required. Twenty Five multiple choice questions (MCQ's) prepared for organizing the quiz on Virtual Memory Management in Operating System to know freeing applications from having to manage a shared memory space, increased security due to memory isolation, and being able to conceptually use more memory than might be physically available, using the technique of paging. Online quiz on Virtual Memory Management helps the student and faculty to learn paging benefits like reduces external fragmentation, but still suffer from internal fragmentation. And simple to implement and assumed as an efficient memory management technique. And Due to equal size of the pages and frames, swapping becomes very easy. And also know the deep learning about CPU perform several tasks simultaneously. Hence, processes do not have to wait for too long before they are executed. 109 members participated in the quiz in that 103 students and 6 faculties are participated.

Software Engineering Quiz

CSE department organized a online Quiz on "Software Engineering" for students and faculties of CSE & ISE Department, RRIT, Bangalore on 24th July 2020.

The quiz was organized on topics such as Software process models, Requirement engineering process, Design process, Verification & Validation Process, Software project management and software development paradigms and Software metrics. From this quiz the participants will know the basics of software engineering process which are used in building a software system.

Twenty Five multiple choice questions are prepared for organizing this quiz. The number of participants attended 64 in that 60 students and 04 faculties. The participants who secured more than 15 (Score) has received the participation certificate

This quiz will also help the participants to crack questions in their main examinations conducted by the university, GATE, and other certification course in software testing, automation etc.

Report on Python for Data Science Quiz

Online quiz on "Python for Data Science" was organized by ISE department for students and faculties of CSE/ISE Department, RRIT Bangalore on 21th July 2020. The quiz was conducted to know the basics and application of Python language in Data Science, which will be very useful for cracking the technical rounds in their interviews and to update their knowledge. Thirty multiple choice questions (MCQ's) prepared for organizing the quiz on Python for Data Science. Around 59 students and 7 faculties participated in the quiz and given the participation certificates for all the participants. Three best students were selected and awarded with 1st place, 2nd place & 3rd place certificate.

This quiz also helped the students to crack questions in their main examinations conducted by the university, GATE, and other certification course in Data Science

The following are the toppers of the quiz.

REPORT ON TECHNICAL QUIZ AY – 2020

“Learning gives Creativity, Creativity leads to thinking, Thinking provides knowledge, Knowledge makes us Great. Main objective of Quiz competitions is always interesting and informative, which provide excitement among the students and also make them aware of more about subject.

Department of Civil Engineering organised a Technical Quiz on following different specialization for 6th and 8th semester students of our department. Objective of this technical quiz is to motivate students to actively involve and participate in competitive quizzes organised from any other different domain or organisations.

Department of Civil Engineering organized quiz competition through online during lockdown students to make more motivate and active in academic pandemic situation. Number of questions given – 30, Max Marks – 30.

The students showcased their brilliance by answering the questions. Students scored the good marks. It was very informative and knowledge enriching competition for the participants along with the encourages such positive competitions and hopes to bring out the best in all its students through such competitive events, while ensuring that the children learn through all possible ways- not just through books and classroom teaching.

Report on “Technical Quiz”

Date: 19th November 2019

About the Quiz–Department of Mechanical Engineering had organized Technical Quiz for 5th and 7th semester students of mechanical engineering department on Mechanical Engineering subjects on 30-10-2019. This Quiz was intended to provide an opportunity for students to check their knowledge about the subjects.

Objectives of the workshop –

- To check the understanding of the subjects learnt.
- To create awareness how the questions can be framed in technical subjects.

Program Outcome:

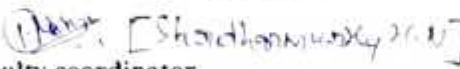

- Students were able to understand how the objective questions could be asked in theory subjects.

Total No. of participants: 67

Technical quiz was conducted to 5th sem and 7th sem separately. 5 teams each from 7th sem and 5th sem participated in the technical quiz. 25 students of 5th sem and 42 students from 7th sem attended quiz. Students were asked questions from already learnt subjects of Engineering. In 5th sem quiz team Qamruzzama won and in 7th sem Quiz team Sushil won the quiz. All the participants of winner team in 5th and 7th sem received prize from the department.

Report on Elocution competition

On occasion of World Forestry day, Energy club in association with Civil Engineering department organized Elocution competition on "Role of Students in creating Clean Energy and Green Environment" on 21.03.2019. The missing link in the vital connections between climate change, economic stimulus, energy security, and job training is the critical role of student's participation and higher education in helping to make the clean energy, green environment a reality. The objective of the program was to make students talk about the ideas and share their thoughts about clean energy and making environment much greener. 15 Students from various branch participated in the event, Dr. Arulmani, Associate Professor, Mechanical Engineering department and Prof. Parimala Gandhi, Associate Professor, Electronics and Communication Engineering department judged the competition. Dr. Dinesh, Director, IHHR, Bangalore and Dr. T S Aghora, Principal Scientist, IAHR, Bangalore being the guest of honor awarded the students with awards and certificates. Mr. Sheyas Nadig, Electronics and Communication Engineering awarded 1st place, Ms. Shilpa Mandal S, Electronics and Communication Engineering awarded 2nd place, and Mr. Noothan D N, Mechanical Engineering awarded 3rd place.
