Internship

To learn the best practice that are currently being followed in industries and to gain experience in a selected domain students are motivated to take up internship, field trip, study tour and industrial visit. Internship transforms the students to industry ready, when they take up job positions.

Industrial Visit

Industrial visit is one of the tactical methods of teaching. It lets students to know things practically through interaction, awareness on industry process and technology development and students can learn beyond academics. The industrial visit helps them to keep a step ahead in future to their needs in higher studies, research and in career.

Students are given the opportunity to work in live projects through tie-ups with organisations across a spread of industries. A walkthrough these systems approaches and business strategies gives students a feel of the real world preparing them to be contributors to the industries from day one.

NSS

The motto of the National Service Scheme is "NOT ME BUT YOU".

The NSS Volunteers are trained to:

- To understand the community in which they work
- To understand themselves in relation to their community
- To identify the needs and problems of the community and involve them in problem solving process.
- To acquire leadership qualities and democratic attitude and to practice national integration and social harmony.
