Report on “Earth Day -2022” on 28/04/2022

NSS & Green club – RRIT celebrated the Earthday 2022 on 28/04/2022 by visiting IIHR Bangalore . Coordinators of the NSS visited the IIHR and gained the knowledge regarding ongoing projects , research on social entities on our environment. The engineering based research in the field of agriculture for example Construction of mushroom room in the standard temperature naturally, ecofriendly vehicles for transportation and for harvesting etc.

The program was started with the introduction about the IIHR and its cultivation practices. Students visited the whole campus and understood the working procedure. Researchers of IIHR explained the need and scope of engineers in the field of agriculture and There is an increased demand for novel genes in germplasm/ genebanks collections for adapting agriculture to biotic and abiotic stresses, including the need of effective screening of germplasm for different characters like, quality traits and biofortification. Research on The changing climate, leads to increase in global warming temperature which dangerously affect the cultivation of crops in arid and semi-arid regions where, fruit based cropping system can be adopted successively. Visit was very much helpful and awakened the students about the need of engineering agriculture.

Number of Students participated :74

Number of Faculties : 4

REPORT

Date:16/2/2019

A rally on HELMET Awareness was organized by the department on 13th February 2019 at 3PM

Objective:

To create awareness among public, faculty and students regarding need of helmets in preventing head injuries and death and to promote safe riding habits.

The head and brain is most vulnerable to injury in a motorcycle accident. Drivers and passengers wearing helmets increase their chance of survival significantly over non-helmet wearers. It is important for motorcyclists to understand the risks of riding without a helmet. Riders who do not wear helmets are at risk of suffering a traumatic brain injury if they are in an accident. Without protection, the head is vulnerable to a traumatic impact in an accident even when traveling at low speeds. Because of the fatal risk of traumatic brain injury is so high, it is crucial for motorcyclists to take action to protect themselves while riding. Wearing a helmet that is approved by the Department of Transportation is one of many precautions a rider can take to increase safety on the open road. To create an awareness on the same a rally from RRIT campus to Saphthagiri medical college was organized. 27 students and faculty of the department actively participated in the rally.

Report on Walkathon

Walk for Women

The "Walk for Women" walkathon is an event that was organized by our college in association with Sparsh Hospitals. The aim of this walkathon is to raise awareness about women's health and empower women to take charge of their well-being. The event took place on 15th July 2021, and participants from all walks of life are invited to take part.

The event began with a warm-up session led by a fitness instructor, followed by a short speech by the organizers, who emphasized the significance of the event. The participants, who included students, faculty, and members of the public, were all enthusiastic and motivated to participate. The participants were given t-shirts with the logo of the event and some refreshments to keep them energized during the walk.

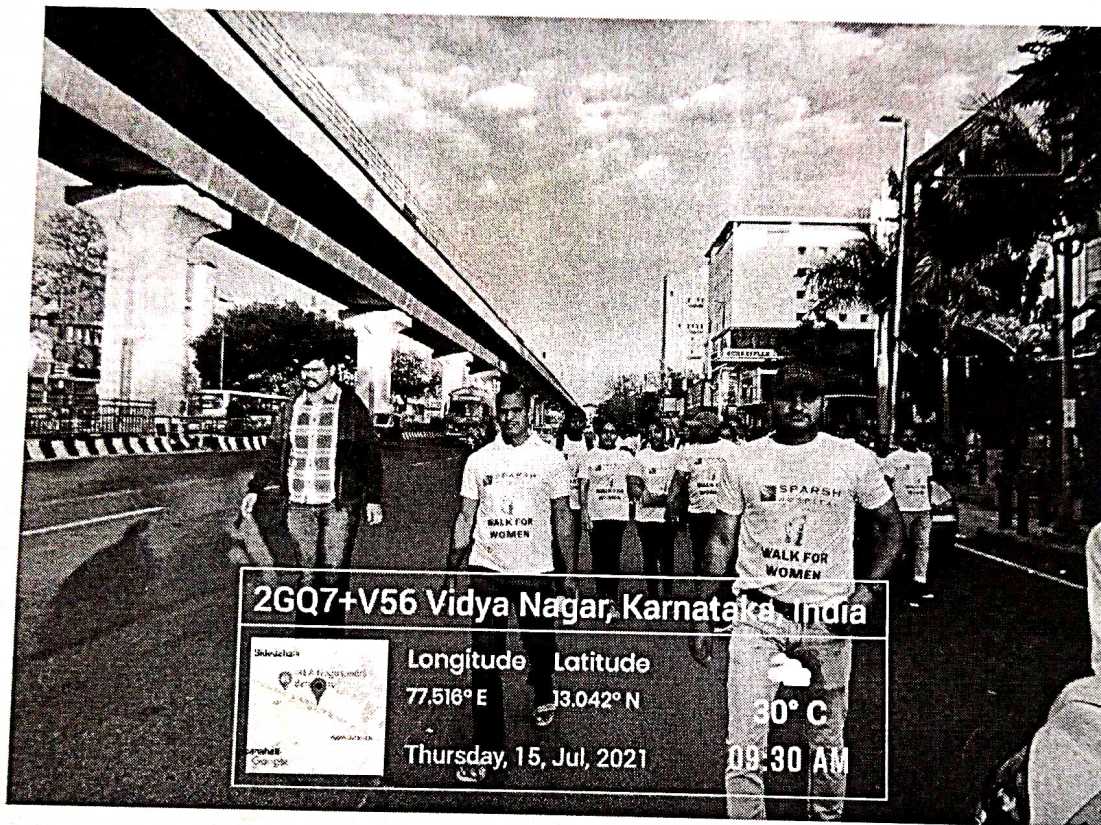

The walkathon will cover a distance of 10KM and will begin and end at the college campus. The route will pass through Bagalgunte, 8th Mile circle and Jalahalli Metro station giving participants a chance to enjoy the sights and sounds of the city while also supporting a good cause.

During the walk, the organizers distributed flyers promoting women's health and encouraging the participants to maintain an active lifestyle. They also had volunteers stationed at various checkpoints along the route to ensure the safety and well-being of the participants.

The walkathon was open to men and women of all ages, and participants were encouraged to bring their friends and family members along.

Overall, the "Walk for Women" event was a great success, with a large number of participants coming together to promote the importance of women's health and physical activity. The event not only raised awareness about these important issues but also provided an enjoyable and engaging experience for everyone involved.

The Total blood donated in our institution is 216 units

Eye screening Inauguration function held at seminar hall, Main block

Dr Thungappa told that the significance of eye screening will come to know the actual visibility of our eyes. The appropriate treatment for eye defected cases is provided free of cost to the students. They have also issued card for further testing in their hospital. Hence our students are greatly benefited to avail this humanitarian service.

The event was organized in association with Lions blood bank . According to the survey, one donation can save as many as three lives, and someone in india needs blood every one seconds. It turns out that donating blood doesn't just benefit recipients. There are health benefits for donors, too, on top of the benefits that come from helping others. Read on to learn the health benefits of donating blood and the reasons behind them. Donating blood has benefits for your emotional and physical health. According to a report by the Mental Health Foundation, helping others can:

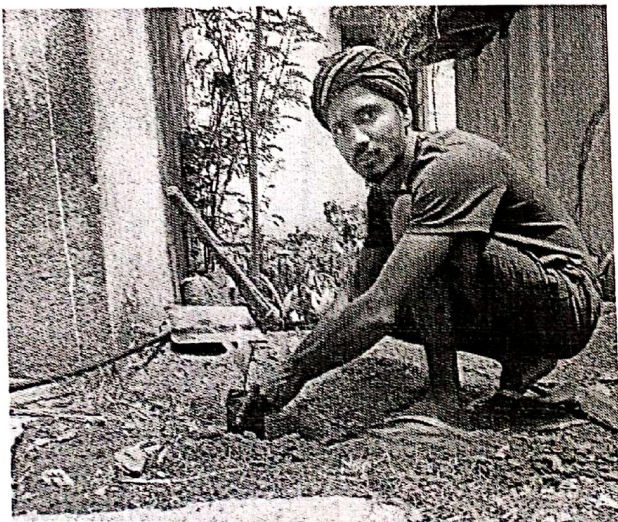

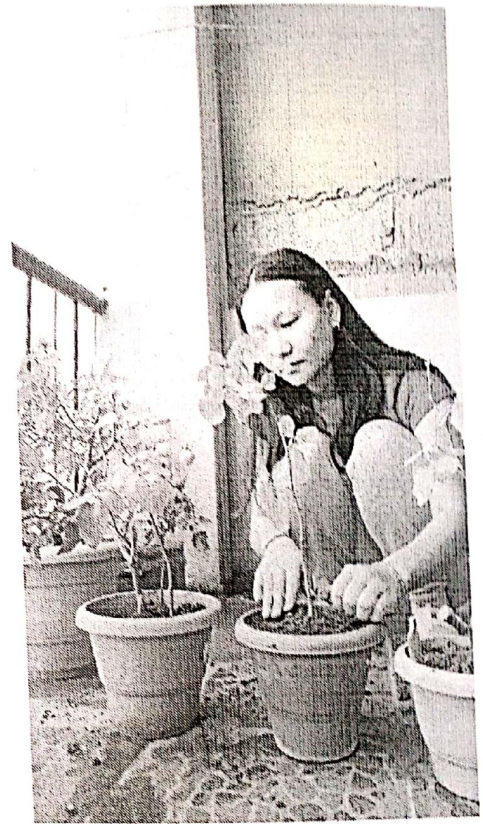

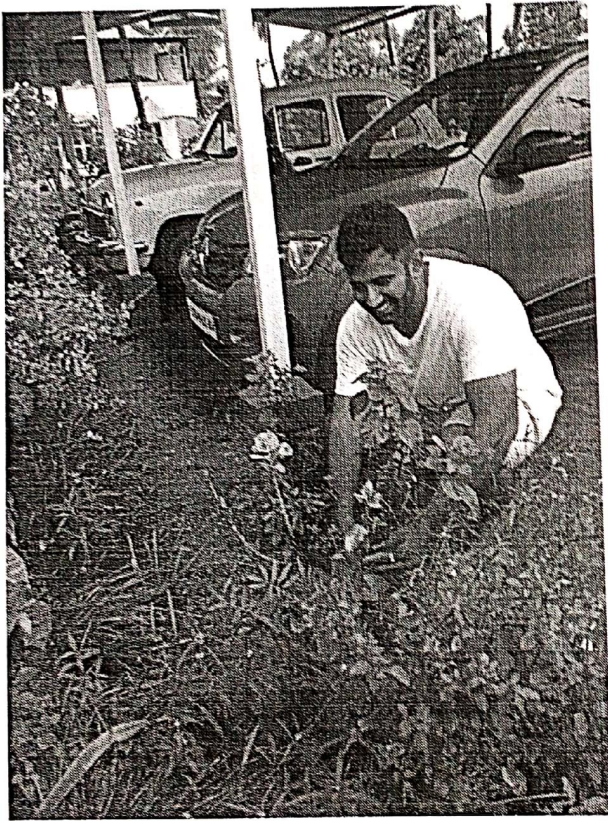

- reduce stress
- improve your emotional well-being
- benefit your physical health
- help get rid of negative feelings
- provide a sense of belonging and reduce isolation

Blood donation may lower the risk of heart disease and heart attack. This is because it reduces the blood's viscosity.

Report on Vaccination Drive

A free vaccination drive was organized by our college on June 28, 2021, as part of the efforts to combat the COVID-19 pandemic. The drive was aimed at providing free vaccinations to students, faculty, and their family members.

The drive was conducted at the college campus, and all the necessary arrangements were made to ensure a smooth and hassle-free experience for the participants. The participants were required to register themselves prior to the vaccination, and the college administration ensured that all the safety protocols were being followed. The participants were given proper guidance and were educated about the importance of getting vaccinated. The college administration also made arrangements for refreshments for the participants, to make sure that they were comfortable during the vaccination process.

The vaccination drive was a huge success, with a large number of participants turning up for the same. The college administration had arranged for enough doses of the vaccine to cater to the needs of all the participants. The vaccination process was supervised by a team of qualified medical professionals, who ensured that the vaccination was administered correctly.

The free vaccination drive was appreciated by all the participants, who expressed their gratitude towards the college administration for organizing such an initiative. The drive not only provided free vaccinations to the students and faculty members but also helped in creating awareness about the importance of vaccination.

In conclusion, the free vaccination drive organized by our college on June 28, 2021, was a huge success. The drive was aimed at providing free vaccinations to students, faculty, and their family members, and was conducted in a safe and hassle-free manner. The college administration must be appreciated for organizing such an initiative and helping in the fight against the COVID-19 pandemic.

World-Free-Plastic Day & Cleanliness Drive on 4/9/2019

RRIT NSS Unit Conducted World Free-Plastic Day & Cleanliness Drive at RRIT College surrounding roads and campus with the help of BBMP word No.12. Around 50 NSS volunteers assembled at 11.15am in front of civil block for a group photo. The NSS program Officer addressed the gathering and informed the importance of cleanliness and motivated the volunteers to the initiative of World Free-Plastic Day. The entire team of Volunteers were divided in to two groups, first group named as “Mahatma Gandhi” group and second group named as “Subhash Chandrabose” group. Six faculty coordinators monitored the two groups in their assigned work.

BBMP sent two BBMP trucks and 10 BBMP workers for the program. With the help of BBMP the RRIT NSS Unit successfully organized cleanliness Drive on 04/09/2019. The NSS volunteers removed plastic and partheniem plants along the roads. After completion of the work refreshment (Lunch) was arranged to all volunteers.
