Subject: Accreditation status of programs applied by RR Institute of Technology, Raja Reddy Layout, Heseraghatta Main Road, Near Chikkabanavara Railway Station Chikkabanavara, Bangalore-560090, Karnataka.

Sir,

This has reference to your application I.D. No's. 5885-18/08/2021 and 6102-22/11/2021 seeking accreditation by National Board of Accreditation to UG Engineering programs offered by RR Institute of Technology, Raja Reddy Layout, Heseraghatta Main Road, Near Chikkabanavara Railway Station Chikkabanavara, Bangalore-560090, Karnataka.

2. An Expert Team conducted onsite evaluation of the programs from 10th to 12th June, 2022. The report submitted by the Expert Team was considered by the concerned Committees constituted for the purpose in NBA. The Competent Authority in NBA has approved the following accreditation status to the programs as given in the table below:

Sl. No.	Name of the Program(s) (UG)	Basis of Evaluation	Accreditation Status	Period of validity	Remarks
(1)	(2)	(3)	(4)	(5)	(6)
1.	Computer Science & Engineering	Tier II June 2015 Document	Accredited	Academic Years 2022-2023 to 2024-2025 i.e. upto 30-06-2025	Accreditation status granted is valid for the period indicated in Col.5 or till the program has the approval of the Competent Authority, whichever is earlier
2.	Information Science & Engineering		Accredited		
3.	Civil Engineering		Accredited ✓		

3. It may be noted that only students who graduate during the validity period of accreditation, will be deemed to have graduated with an NBA accredited degree.

4. The programs have been granted accreditation for 3 years. RR Institute of Technology, Raja Reddy Layout, Heseraghatta Main Road, Near Chikkabanavara Railway Station Chikkabanavara, Bangalore-560090, Karnataka should submit the Compliance Report at least six months before the expiry of validity of accreditation mentioned above so as to be eligible for consideration by the concerned Committee in NBA for further processing of the accreditation status.

5. The accreditation status awarded to the programs as indicated in the above table does not imply that the accreditation has been granted to RR Institute of Technology, Raja Reddy Layout, Heseraghatta Main Road, Near Chikkabanavara Railway Station Chikkabanavara, Bangalore-560090, Karnataka as a whole. As such the

Contd./

Institution should nowhere along with its name including on its letter head etc. write that it is accredited by NBA because it is program accreditation and not Institution accreditation. If such an instance comes to NBA's notice, this will be viewed seriously. Complete name of the program(s) accredited, level of program(s) and the period of validity of accreditation, as well as the Academic Year from which the accreditation is effective should be mentioned unambiguously whenever and wherever it is required to indicate the status of accreditation by NBA.

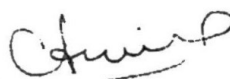

6. The accreditation status of the above programs is subject to change on periodic review, if needed by the NBA. It is desired that the relevant information in respect of accredited programs as indicated in the table in paragraph 2, appears on the website and information bulletin of the Institute.

7. The accreditation status awarded to the programs as indicated in table in paragraph 2 above is subject to maintenance of the current standards during the period of accreditation. If there are any changes in the status (major changes of faculty strength, organizational structure etc.), the same are required to be communicated to the NBA, with an appropriate explanatory note.

8. A copy each of the Report of Chairman of the Visiting Team and Evaluators' Report in respect of the above programs is enclosed.

9. If the Institute is not satisfied with the decision of NBA, it may appeal within thirty days of receipt of this communication giving reasons for the same and by paying the requisite fee.

Yours faithfully,

(Dr. Anil Kumar Nassa)
Member Secretary

The 18th Governing council meeting was convened on 16th December 2020 and the meeting began at 10.30 a.m.

Director, PKMET and Dr. Mahendra K V, Principal, RRIT welcomed all the GC members for the meeting.

Principal, RRIT officially introduced all the GC members and welcomed them for the meeting to discuss the following agenda.

1. Confirmation of proceedings of 17th Meeting of GC held on 9th November 2019.
2. Ratification of Appointments for the academic year 2020-21.
3. Budget approval for the year 2020-21.
4. Approval of VTU Research Centre in Physics, Mathematics, ECE, CSE & ME.
5. Any other matter with the permission of the Chair.

Principal read the proceeding of the previous meeting. The copy of proceedings of the previous meeting was given to all the members present. He mentioned about Journals to be made available for usage by the students. He read out the list of faculties appointed during 2020-21 for ratification. He briefed about the budget. Explained about the research centers. He explained about the knowledge to be gained in Education. He told that once the students gets a job, the mentality of the students reminds about their completion stage.

Principal told the members that involvement with Industries will be an added advantage. There should be good interaction with staff and Industry. He also stressed about working for Incubation Centre and Innovation by the students.

Principal asked GC members for suggestion and opinions.

Dr. Mrityunjaya V Latte, member of GC, VTU nominee thanked the team members for inviting him for GC the meeting. Outcome based education system (OBE) should be practiced and each student should achieve the goal. Outcome based methods have been adopted in education systems around the world, at multiple level. He told that we have recognition from many agency for accreditation. We should have NBA accreditation. He also told that from next academic year AICTE will take a tough decision on implementing accreditation by all the affiliated colleges.

He told that incubation and innovation has to be carried out in education system and a change in education system should be adopted. Most importance should be given to Research activities. Research paper publication should be given more importance for publication in Web of Science and Scopus. Initiative has to be taken for the final year projects. Research orientation publications should be published.

New Education Policy will be witnessed in near future. We should start a team for Education policy and need to appoint 3 to 5 members for the NEP. In that 2 of the members should be from external source. A plan should be executed for NEP. Next 5 years is very crucial as India-centric education system that contributes directly to transforming our nation sustainably into an equitable and vibrant knowledge society by providing high-quality education to all.

VTU nominee suggested to include all the existing faculty under the criteria 'Ratification of Appointments'. He also gave the suggestion that all the staff should work together in coordination with the pandemic situation.

VTU nominee suggested that faculty and students should start working on KSCST projects. They can apply to VGST and other bigger funded projects. He also suggested that we have crores of rupees being funded for such kind of projects. The Management should support faculty and students for good publication, projects and innovation.

Education shall be considered as non-profit service and rather should be considered as a social service to the needy. All of them should work for passion in the educational institution considering all the factor.

Shree L N Prasad, Member of GC, thanked all the team members for inviting him for the meeting. He said that he really appreciated what VTU nominee had suggested and told that we should definitely do social service activities to the people.

He gave an example of difference between education system in India and Canada. One who has studied in Canada has got thorough knowledge. He raised a question that why Indians lack in these criteria. Basic knowledge is very much important, and they must master in their specialization. Mechanical Engineering students should have the courage to lead the Industries. We must practice the skills and techniques to enhance our roll in highlighting our career. We should compete with that of foreign universities.

We should think of practical knowledge. If faculty involvement is more with the students, then the students can be well prepared. He told to make use of the Industries available in Peenya, Technology in Aerospace and Research and Developments practically. He also told to implement and adoption of handheld society. Research orientation should be done. Subject knowledge should go core into subjects. Students should utilize better facilities in the Industries and should have knowledge of the latest equipment's. It's no surprise that a number of the most profitable industries provide services rather than sell products, which means their operations don't require significant capital investments or major investments in raw materials.

Principal thanked Shree L N Prasad for his suggestion and assured him that we will bring industry oriented activity, once we begin the initiatives students can show good prosperity. We have also planned to apply for funded projects with Industrial partners to do better job.

Shree Somashekar H L told that an institution should go for Accreditation. Principal assured that NBA is planned as per scheduled with high priority.

Dr. Mrityunjaya V Latte also told that NBA accreditation is very important. Principal told that good number of quality papers will be published in near future.

Shree L N Prasad told that final year students should visit trade fare such as Airshow during February / March which will be very help for ECE students.

Shree Somashekar H L told that funding of research projects should be initiated.

Dr. Mrityunjaya V Latte suggested that funding of research projects should be initiated. He told that UGC and AICTE is parallel. Once the projects are started they can go for funding projects.

Principal told that we are planning to tie up with Industries for projects very soon.

Director told that we are following the policy of HR and we have already framed in the policy that minimum 2 papers should be published. One in peer reviewed journal and the other one in Conference. He told that registration charges will be refunded once the paper is published.

Dr. Mrityunjaya V Latte told that it will be a bonus to the staff.

Principal thanked all the members of Governing council.

The 17th Governing council meeting was convened on 9th November 2019 and the meeting began at 11.00 a.m. as scheduled with the following Governing Council members present.

Dr. Srinivas G Bhat, Principal welcomed all the GC members for the meeting. Our beloved Director Shri H R Arun welcomed delegates and special invitees on behalf of PKM Educational Trust with a bouquet.

Principal, RRIT officially introduced all the GC members and welcomed them for the meeting to discuss the following agenda.

1. Confirmation of proceeding of 16th meeting of GC.
2. Budget: Proposed budget for the academic year 2019-20.
3. Achievements of students and faculty

4. Starting of new research centre in Physics, Chemistry, Mathematics, ECE, Civil, CSE & EEE,
5. NAAC approval & AQAR
6. IQAC Closing report
7. Any other issue with the permission of the Chair.

Principal read the proceeding of the previous meeting. The copy of proceedings of the previous meeting was given to all the members present.

Principal gave the picture of Income and Expenditure statement for year 2018-19 excluding fees of 1st year students due to fee fixation of fees from the Government.

The proposed budget for the year 2019-20 was presented. There was a vital discussion on salary increments for staff.

CEO raised a point in proposing budget for Laboratories. A full-fledged report to be generated by respective departments with a projected scale of old and new budget. After consolidating the Laboratories budget including Assets and Liabilities a figure has to be displayed. There is some more requirement of finance for procurement of Laboratories.

Dr. KPJ Reddy suggested that to meet the requirement, service-oriented techniques to be used at much higher level in the field of Technology. A meeting at the department level should be conducted every week to discuss various plans to be executed. Sufficient time should be given to all the staff members to accumulate data.

Principal suggested that each department should have one supporting staff to maintain the entire database. Everyone is responsible for their particular department the outcome. Each department has to give its own requirement. Department wise expenditure has to be calculated.

Principal also suggested that a committee has to be formed to evaluate staff performance.

Principal then moved on with other topics for proposal of budget.

Principal briefed about the number of research papers in various National & International Journals. Papers which have been approved in Google scholar only been given importance and listed vice versa.

Director suggested that an impact factor column has to be added to the list, so at the Journal will have recognition. At this point several issues were discussed, whether the impact factors is globally defined or whether the Journal is a paid one is the Journal approved by the highest body of authority. All these factors have to be defined only through norms. Since norms for Impact factor has be detailed for distinguishing various papers.

Principal highlighted on the number of staff who have registered for Ph.Ds. Here he mentioned one point, a doctoral degree have its own stages for completion. A newly registered staff will have the same value of elated list with those staff who are the verge of completing Ph.D. A measure has been taken to define stages of Ph.D. for each staff. This helps in evaluating the staff where he stands.

Reports on achievement of students were briefed by Principal.

Details of Campus recruitment drives for the year 2018 were briefed. Here most of the members suggested having an input of salary being offered by companies. An alumni meet to be conducted every year to bring in more collaboration with outgoing and outstanding students for a good students strength.

Calendar of Events for odd even semester, Academic plan for odd semester was discussed in the GC meeting and was noted by the team.

Shri Somashekar suggested to implement more students project in these Research centers. Ad-Hoc Professor from different organization can help an addressing role to help students in preparing projects. These Professors can be contacted and can be hired for Research centres. Shri Somashekar aim was to have a 2-way flick, as let the academic role go on one hand and R&D on the other.

Any other issues were discussed in the meeting with topics related to Department Research Program, Library software, AQIS, Research Methodology Workshop, Faculty development workshop, National Conference, Kalatharanga, Sports & Cultural Activities.

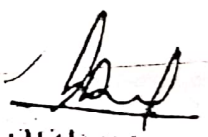

Mrs. Parimala Gandhi suggested for applying funding from KSCST (Karnataka State Council for Science & Technology). Further it is proposed to start Centre for Incubation, Innovation, Research & Consultancy an exclusive center catering the needs of students and faculties of RRIT. In general, it is proposed to have one common research center in RRIT to cater the needs of Industry also.

CEO advised faculty to maintain the disciplinary code of conduct which would enhance the overall impact on the image of RR Institutions.

All the appointments made are ratified by the Governing Council Mem
All the staff members who have completed probationary period as on today
been confirmed as per annexure enclosed. Based on self-appraisal salary incren
will be decided by the Management.

Principal also discussed about recruiting faculty for the next academic ye
fill the vacant positions for the next academic year. And expressed that nec
identify faculty for required positions as per the AICTE and VTU norms
respective intake.

Principal thanked all the members of Governing council.

LESSON PLAN FOR 4th SEM - ACADEMIC YEAR 2021-22

Significance of the Subject:

Digital logic design is the basis of electronic systems, such as computers and cell phones. Digital logic is rooted in binary code, which renders information through zeroes and ones, giving each number in the binary code an opposite value. This system facilitates the design of electronic circuits that convey information, including logic gates with functions that include AND, OR, and NOT commands. The value system translates input signals into specific outputs. These functions facilitate computing, robotics, and other electronic applications.

Verilog is a Hardware Description Language; a textual format for describing electronic circuits and systems. Applied to electronic design, Verilog is intended to be used for verification through simulation, for timing analysis, for test analysis (testability analysis and fault grading) and for logic synthesis.

Prerequisite: Basic Electronics

Course Objectives:

1. To impart the concepts of simplifying Boolean expression using K-map techniques and Quine-McCluskey minimization techniques.
2. To impart the concepts of designing and analysing combinational logic circuits.
3. To impart design methods and analysis of sequential logic circuits.
4. To impart the concepts of Verilog HDL-data flow and behavioural models for the design of digital systems.

Course Outcomes:

1. Simplify Boolean functions using K-map and Quine-McCluskey minimization technique.
2. Design & Analyze combinational logic circuits.
3. Design & Analyze sequential logic circuits.
4. Model Combinational circuits (adders, subtractors, multiplexers) and sequential circuits using Verilog descriptions.
5. Apply theory and techniques taught in the classroom through experiments and projects in the laboratory

LESSON PLAN FOR 4th SEM - ACADEMIC YEAR 2022-23

Significance of the Subject:

The motivation for offering this course is to make the students aware regarding the importance of control systems, controller design aspects and verification of designed systems. In order to have a system function as per the requirement, the understanding of control systems engineering is very essential

Prerequisite:

Basic Mathematics, Laplace transforms, Basic circuit analysis

Course Objectives:

1. Apply mesh and nodal techniques to solve an electrical network
2. Solve different problems related to electric circuits using network theorems and two port network
3. Familiarize with the use of laplace transforms to solve network problems
4. Understand basics of control systems and design mathematical models using block diagram reduction, signal flow graph, etc.,
5. Understand time domain and frequency domain analysis
6. Familiarize with state space model of the system

Course Outcomes:

CO1: Apply the knowledge of engineering fundamentals to form mathematical model and obtain transfer function/state space representation of a system.

CO2: Design LTI systems and Analyse the stability of LTI systems for given time/frequency domain specifications using different techniques.

CO3: Analyse and solve electric circuit by applying loop analysis, nodal analysis and by applying network theorems

CO4: Evaluate two port parameters of a network and apply Laplace transforms to solve electric network

CO5: Apply theory and techniques taught in the classroom through experiments and projects in the laboratory

Agenda:

- Plan for academic review:
 - As per the suggestions given by all the members committee will review the academic activities, 15 days prior to the internal test.

Resolution: Noted by all the members
- Result review:

As per the lacuna's identified through result analysis report and CO-PO attainment calculation of 2015-19 batch, all are informed to prepare gap analysis report

Resolution: Noted by all the members & HOD's.
- Orientation program for the students
 - All the departments have been informed to organize orientation program for the students and brief rules & regulations of VTU.

Resolution: Noted and Accepted by all the members & HOD's.
- Any other matter:
 - IQAC Coordinator Suggested to form DAC, DAB to understand the industry requirement & incorporate necessary components in curriculum activity to fulfill industry requirements.

Resolution: Resolution: All the members have agreed.

Vision & Mission

VISION

- "To be a Premier globally recognized Institute with ensuring academic excellence, Innovation and fostering Research in the field of Engineering."

MISSION

- To consistently strive for Academic Excellence.
- To promote collaborative Research & Innovation.
- To create holistic teaching learning environment that build ethically sound manpower who contribute to the stake holders operating at Global environment.

PRINCIPAL
R.R. INSTITUTE OF TECHNOLOGY

Information Science and Engineering

VISION

- To impart quality education in order to produce outstanding technocrats and to enhance Information Science & Engineering related research activities.

MISSION

- To provide excellent technical education in the field of Information Science & Engineering to meet the needs of industry.
- To be engaged in creative research and to learn from outreach activities.
- To impart ethical and leadership qualities to enhance professionalism and turn student to socially responsible citizens.

Basic Sciences

VISION

- To build a strong foundation for excellence in knowledge and spur the development of the institution to become a premier institution by igniting and nurturing enthusiasm, interest and passion, in the study of fundamental courses of Physics, Mathematics and Chemistry and their applications in professional studies, as a part of curriculum.

MISSION

- The department of Basic Science shall deliver the analytical and Mathematical concepts to engineering students effectively, which will enable them in the strengthening of innovative and creative skills during further studies.
- To inculcate the habit of increasing the power of reasoning and analytical ability for design and implementation of Novel Engineering Methods.
