Alumni meet Report

An Alumni meet was conducted online on 10th October 2020 Saturday at 10 Am.

Platform: ZOOM

Welcome speech and significance of the day was delivered by Prof. Anshu Deepak, Alumni coordinator of ECE department. Presidential address was delivered by the Principal.

It was followed by address from HOD of the ECE department. HOD requested alumni to significantly contribute towards the growth of the department. Final year students also attended the meet.

Suggestions made by Alumni:

1. More emphasis should be given on skill development
2. They suggested their juniors to learn various programming languages like C++ ,java and Python to be more competitive by the end of 4 years.
3. Much importance has to be given to improve their communication skills
4. They advised students to put more effort on embedded system and VLSI if they want to make their career in Electronics.
5. They happily accepted to deliver sessions on the current trends and technologies they are working on.

Report on "Hadoop Eco System" held on 02nd March 2019

A Seminar program entitled "Hadoop Eco System" Seminar was organized by department of CSE on 02/03/2019 at 9.30 am. The Prof. Manjunath.R, Head of the Computer science Department, introduced and welcomed the Resource Person Mr. Ramu K, Module Lead, Mind Tree & Vice President, RRIT Alumni Association Bangalore and Mr. VASANTH Application Developer, Accenture & Vice President, RRIT Alumni Association, Bangalore. The program was held at Seminar hall, RRIT.

"Apache Hadoop is a framework designed for the processing of big data sets distributed over large sets of machines with commodity hardware, Hadoop Ecosystem is a platform or framework which solves big data problems. You can consider it as a suite which encompasses a number of services (ingesting, storing, analyzing and maintaining) inside it. Storage we use *HDFS* (*Hadoop Distributed Filesystem*). The main components of *HDFS* are *NameNode* and *DataNode*.

NameNode: It is the master daemon that maintains and manages the *DataNodes* (slave nodes). It records the metadata of all the files stored in the cluster, e.g. location of blocks stored, the size of the files, permissions, hierarchy, etc. It records each and every change that takes place to the file system metadata. For example, if a file is deleted in *HDFS*, the *NameNode* will immediately record this in the *EditLog*. It regularly receives a Heartbeat and a block report from all the *DataNodes* in the cluster to ensure that the *DataNodes* are live. It keeps a record of all the blocks in *HDFS* and in which nodes these blocks are stored.

DataNode: These are slave daemons which runs on each slave machine. The actual data is stored on *DataNodes*. They are responsible for serving read and write requests from the clients. They are also responsible for creating blocks, deleting blocks and replicating the same based on the decisions taken by the *NameNode*. For processing, we use *YARN* (Yet Another Resource Negotiator). The components of *YARN* are *ResourceManager* and *NodeManager*.

ResourceManager: It is a cluster level (one for each cluster) component and runs on the master machine. It manages resources and schedule applications running on top of YARN.

NodeManager: It is a node level component (one on each node) and runs on each slave machine. It is responsible for managing containers and monitoring resource utilization in each container. It also keeps track of node health and log management. It continuously communicates with ResourceManager to remain up-to-date. So, you can perform parallel processing on HDFS using MapReduce.

MapReduce: It is the core component of processing in a Hadoop Ecosystem as it provides the logic of processing. In other words, MapReduce is a software framework which helps in writing applications that processes large data sets using distributed and parallel algorithms inside Hadoop environment. In a MapReduce program, **Map()** and **Reduce()** are two functions. The **Map function** performs actions like filtering, grouping and sorting. While **Reduce function** aggregates and summarizes the result produced by map function. The result generated by the Map function is a key value pair (K, V) which acts as the input for Reduce function.

Students of CSE and ISE had participated felt it useful for their academics.

Thanks and regards

REPORT ON INDUSTRIAL VISIT

A virtual industrial visit to “MESON” (Energizing Future) MFG & MKT PORWAL METALS Surat, Gujarat- 394540, was organized by the EEE department for the 5th and 7th semester students on 25/10/2021.

Resource Person : Mr. Malay Porwal,
CEO, MESON, Surat, Gujarat &
Alumni of dept of EEE, RRIT

About the company:

Meson is into creating batteries for vehicles. Meson Auto batteries are built to safe starting in any weather condition and resistant to high engine chamber temperatures.

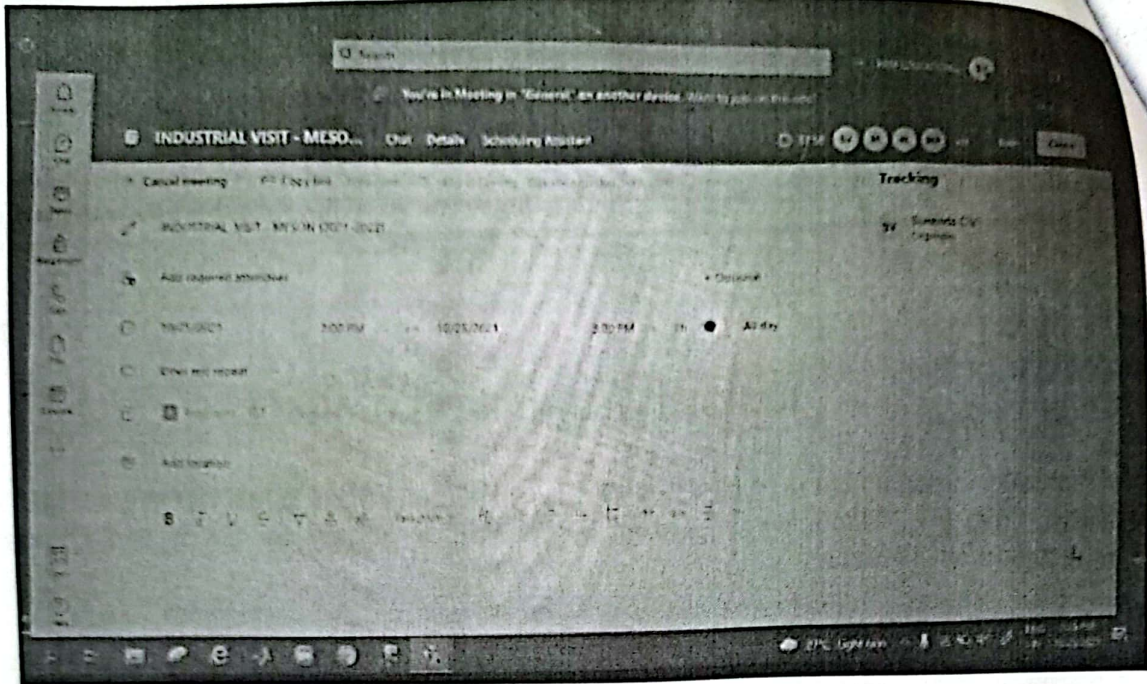

Intially there was an introduction by Mr. Malay Porwal regarding his journey at RRIT as a student and his struggles to reach for what he is now today. After that he gave a brief presentation about his company Porwal metals located in surat, Gujarat. The machineries and equipments used to manufacture batteries were shown online and the process was explained in detail.

Students were introduced to the following process:

- Oxide and grid production process.
- Parting and curing
- Assembly the elements
- Filling and formation
- Charging and discharging
- Final product testing

61 Students of EEE & ECE were benefitted by the virtual industrial visit and had a glimpse of actual manufacturing process of lead acid baterries, the materials used, techniques employed and also all the students of EEE deparment got inspired by the alumni of RRIT college leading such establishment.

EDUCATION

Jan 2021

R R Institute of Technology , Bangalore
Bachelor of Engineering, Computer Science & Engineering
Overall GPA: 7.7/10 (overall)

EXPERIENCE

Currently Working as Application Development Associate, Accenture Solutions Pvt. Ltd., Bangalore
QOS Technology Private Limited, Bangalore
14 Jan 2020 - 7 Feb 2020
INTERN

Project: Linux For Security
Project lead : Mr. murali M . Senior Security Specialist

- In this project I learned complete linux which was useful for security Purpose
- Cron , IPTables , SSH ,Vulnerability , and ect... this are the important modules in this project.
- kali linux and Parrot are the OS which i used in this project . cisco Packet Tracers was the basic module..

PARVAM Software Solution, chikkabanavara

01 Aug 2020 - 28 Aug 2020

Project: Android Development
Project lead : Mr. Deepak , Android Developer

INTERN

- learning to develop for Android is actually one of the trickier places to start. Building Android apps requires not only an understanding of Java (in itself a tough language), but also project structure, how the Android SDK works, XML, and more.
- Android Studio, the official integrated development environment (IDE) for Android app development.

PROJECTS

Agriculture-Crop-Management-System (ACMS) *Mala P*
Course : Database Management System - Mentor : Prof.

Sep 2019 - Oct 2019

- Developed a project using HTML-CSS for front end, PHP-SQLite for backend.
- The agricultural crop management system provides its users and reseatches to get online information about, the crop. Admin can delete the Crops and crop details.
- User can retrieve required details from the database, and User can send any crop details.
- ACMS then offers link to external site regarding modern agricultural techniques where user can see about considerable improvement and advancement in farming.

Simple - Village
Course : Computer Graphics - Mentor : Prof. Nitin K

Feb 2020 - May 2020

- Build a project using OpenGL, to Create a village environment, C++ is the language used.
- A simple village is a mini project in computer graphics which is simple, good looking and useful.
- We have mainly created some artifacts in this mini project, like a home, sun, clouds, trees, and birds.

May 2020 -Present

Human-Followers-Robot

- Developed Human-Followers-Robot using Arduino - UNO and Motor driver Arduino .
- Human Follower Robot using Arduino-UNO can follow a human effectively. Ultrasonic sensor like an 'eye' is used here to detect human being.
- The sensor is used to measure the distance of the human being from the robot.
- Attaching a transmitter to the object and a receiver on the follower is the usual solution, but we will only be using one ultrasonic sensor for a challenge.

Line Following versatile robot Obstruction Aversion utilizing gunsight innovation

Jan 2021 - Present

- Building an Obstacle-Avoidance-Robot using basic C/C++ Programming Language.
- Introduction to Obstacle Avoidance Robot An Obstacle Avoidance Robot is an intelligent robot, which can automatically sense and overcome obstacles on its path.
- contains of a Micro controller to process the data, and Ultrasonic sensors to detect the obstacles on its path.
- Obstacle avoidance is one of the most important aspects of mobile robotics. Without it robot movement would be very restrictive and fragile..

Report on Two Days Workshop on "How to Develop an E-Commerce Android Application Using XML Language"

Department of CSE has conducted Two Days Workshop on "How to Develop an E-Commerce Android Application using XML Language" on 21st and 22nd October 2021. The First day started at 10 am by welcoming the Management, QAC, Principal, HOD CSE, Students and Staff of RRIT by Dr. Sumanth V. The purpose of the first day workshop is to develop an Android application using XML Language. In this workshop, speaker gave a training how to build an e-commerce platform for all users. Using this application we can see the products, add a product or update a product. The First day session was ended at 4.30 pm. Second day the workshop started at 10 am by addressing the positive relationships with customers when they create a profile on Android app. From using their name in push notifications (which give them a friendly nudge to open up in app), to sending them a promo code on their birthday. Live chat and share features let customers to create a community around and spread products and brand to a wider audience. We all need live chat to answer user questions. Doing this in-app means we are less likely to lose a customer.

The Program highlights:

- In the real-world, all need to see the products, create new products, and update the products. So, will create 3 APIs. Later we will create many other real-world features like deleting, stocks, linking to categories, and adding tags. After this, we will create the UI.
- We are provided with the pre-built activity called Main Activity. Therefore, we need three more activities to list the products, add a product and update a product respectively. In this Workshop, we need to fetch all the products from the REST API, make a card view template, create a recycler view and dynamically add card view contents with the response from API and display the recycler view.
- In this program we are going to use **Card View** as the basic element for our recycler view. So, create a layout file called product_item.xml in the same location to design our card view. The contents of the card view element are as -- **An image view** to display the product's image. **Four text views** to display the product data. **A relative layout** to bind them all together.

The second day Session ended around 4.30 pm by answering to all the questions asked by the students. Finally, Professor Dhananjaya M K, given a Vote of thanks to speaker, students, HOD and staff of RRIT. The Total number of students attended the workshop from CSE and ISE are 58 numbers.

Report

Six days Certificate Programme on “Introduction to Java and its Applications”

Event Date : 13-11-2021 to 18-12-2021 (Only Saturday)

Venue: Offline

Resource Person: Ms. Sangeetha C

Alumina student (1RI13EC049)

Associate Consultant VLSI at VTU Extension Centre, UTL Technologies, Bengaluru.

Overview:

The programme is to provide basic knowledge of Java. The primary objective of Java programming language is to create portable, simple and secure programming language and also would help students in their placements

Topics Covered:

Day 1: 13-11-2021

Introduction to Java Programme

- ❖ What is Java?
- ❖ Java platforms, java applications, history of java

Day 2: 20-11-2021

Java Structure

- ❖ Features of java, internal details of programming, first program to print hello world
- ❖ Variable in Java
- ❖ Data Types in Java

Day 3: 27-11-2021

- ❖ Keywords in java
- ❖ Operations in Java
- ❖ Conditional statement in java

Day 4: 04-12-2021

- ❖ Java object class
- ❖ Encapsulation and inheritance
- ❖ polymorphism and abstraction

Day 5: 11-12-2021

- ❖ Strings and Arrays in Java

Day 6: 18-12-2021

Hands on :

- ❖ Working on Java – One Real time project
- ❖ Conduction of Test

Sangeetha C

sangeethacanu@gmail.com

+917483702113

I want to be a part of your esteemed organization and expose and explore my knowledge and talent to fullest with dedication in order to achieve success.

Academic Qualification

- M Tech(VLSI Design and Embedded Systems) from VTU Extension centre, UTL Technologies Limited with 77%
- BE(Electronics and Communication) from RRIT with 77%
- PUC from SGPTA PU College with 70%
- SSLC from GHGHS with 86.88%

Work experience

- Currently working as trainer at UTL Technologies LTD, Yeshwanthpur.
- Worked as a trainer in a one month training program organized by MSME at UTL Technologies LTD, for the courses "Hardware modelling using verilog" in VLSI and "ARM Cortex M3 Fundamentals" in Embedded systems.

Technical Skills

- C, HTML, CSS, JavaScript, React, SQL
- Cadence (ncsim, virtuoso ,encounter)
- XILINX
- KEIL
- MATLAB

Academic Projects

- **Analog VLSI Implementation of 2:2:1 Artificial Neural Network**
In this project the 2:2:1neural network architecture is implemented in cadence virtuoso 180nm tool by first designing the basic building blocks such as synapse, neuron and shift register and then constructing the complete architecture using these building blocks.
- **Nonlinear dynamic system identification using MRAN algorithm**
I have designed a control system which is used for online identification of the nonlinearities present in the dynamical system using the MRAN algorithm and compared the computational results with the EMRAN algorithm and found that EMRAN algorithm takes less number of hidden neurons and is fast for on-line identification of nonlinear plants.

Conference and publication

- Presented a paper titled 'Analog VLSI Implementation of 2:2:1 Artificial Neural Network' in International Conference on Emerging Trends in Electrical, Electronics & Computer Engineering in the domains of Renewable Energy Sources, Electric Vehicle and Smart grid (ICETEEC 2019) 25 July, 2019 Organized by School of Electrical & Electronics Engineering, REVA University.

- Presented and published paper titled "Nonlinear Dynamic System Identification Using MRAN algorithm" International Journal of Engineering Research in Electronics and Communication (IJERECE), ISSN (online) 2394-6849, vol 4, 6 June 2017

Trainings & Workshops

- Attended workshop on *Trends and Techniques in Artificial Neural Networks* on March 2017.
- Attended workshop on *Image Processing using Matlab* on March 2016.
- Participated in 'Embedasia 2016', an international conference held at BIEC on embedded system on September 2016

Achievements

- Represented RRIT in the quiz competition held at IISC in 2015.

Extra-curricular Activities

- Got 1st prize in dance competition.
- Performed a drama in Ravindra Kalakshetra.
- Obtained medals (athletics) in sports meet -2009.

Personal details

Name : Sangeetha c

DOB : 01-03-1996

Mother name: M T Rudramma

Father name : J C Channabasavaiah

Address : #628/10, Sri rama nilaya, 5th cross, near vegetable market, Babanna Layout, Mallasandra, Bagalagunte, Bangalore-57

Marital status : Single

Religion : Hindu

Declaration

I hereby declare that all information made above in my resume are true and complete to the best knowledge and belief.

Date: 02/08/2021

Place: Bangalore

Sincerely
Sangeetha C

REPORT ON "Online SDP on Introduction to Android Application Development"

Event Date: 10/07/21

Venue: ONLINE

Resources Person : Mr Madhu J.
Senior Software Engineer,
Capgemini India

Objectives:

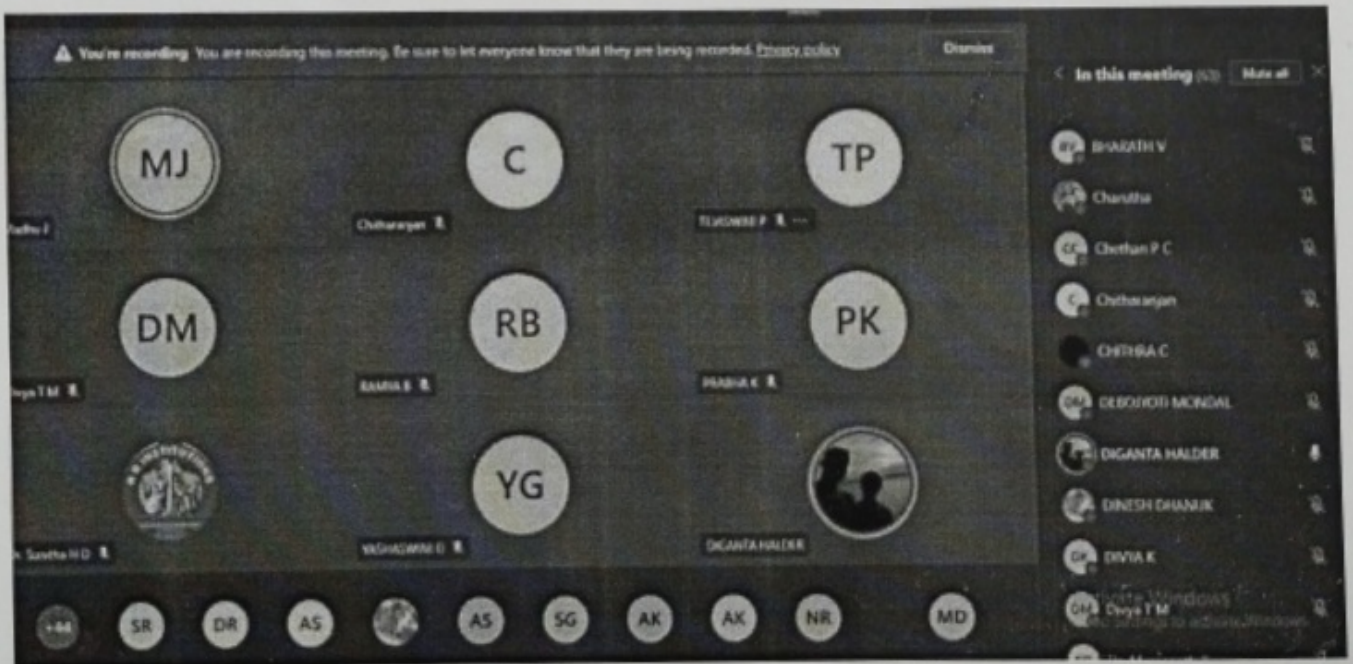

1. Students learnt the development of android (mobile) application using android studio framework.
2. Opportunities in the field of product development start-ups were being informed.

Outcomes

1. Student learnt to use android studio for developing mobile application.
2. Simple application demo was given during sdp.
3. They were able to explore the opportunities in the field of mobile application development and, to change the real-time problem into a mobile application.

Resource person is an alumni of the department of ECE, RRIT

WORK EXPERIENCE

Senior Software Engineer Capgemini, Bangalore

03/2020 - Present, Bangalore

Relevant experience in IT sector for Development on ETL Designer/ Developer (Informatica Powercenter) in Insurance Domain / HealthCare.

Responsibilities:

- Worked on Informatica Power Center tool - Source Analyzer, Data warehousing designer, Mapping & Mapplet Designer and Transformation Designer.
- Project experience on implementing and migrating mappings on Informatica environment.
- Design, Development, Testing and Implementation of ETL processes using Informatica power center.
- Solve different business request (Change Requests)
- Good exposure to the knowledge of Oracle database.
- Investigating and fixing the bugs occurred in the dev environment and providing the support. Managing job failure analysis for various developments.
- Excellent troubleshooting and problem-solving skills and communication (oral and written) skills.
- Quick learner, adaptable and flexible to the ever-changing technology. Possess good communication skills, productive listener and have ability to work in a team or individually

Android Application Developer

Apogee Global Tech (01/2020 - 02/2020)

Developed and implemented personalized client solutions using JAVA development, Agile.

Android Developer Intern

Mahindra First Choice Wheels (09/2019 - 01/2020)

Developing the Android Application using Android Studio.

EDUCATION

REPORT ON

" Online Seminar on Tips to crack interview"

Event Date: 22/05/21

Venue: ONLINE

Resources Person : Mr Shreyas Nadig S.
Q.A. Engineer (Trainee)
Encora Innovation lab

Objectives:

1. To make aware the students, how the interview goes and about the rounds in the interview.
2. To make students familiar with frequent interview questions.
3. To give ideas on how to answer frequent questions.

Outcomes:

Students will gain confidence and answer to crack interview.

Resource person is an alumni of the department of ECE, RRIT. He was wonderful in interacting with students of different branches. The session was very informative and helpful for the students in this present scenario of Covid 19. Students asked lot of questions with the Resource person. He gave lots of tricks and tips to crack the interview.

150 participants were benefitted from the session.

RESUME

Name: Shreyas Nadig S

Phone: 9164765078

E-mail id: shreyassnadig@gmail.com

Profile Summary:

- B.E in Electronics and Communication at R R Institute of Technology.
- Pursued a course on Embedded systems.
- Currently working as QA Engineer(Trainee) in Encora.

Achievements:

- Certified by AMCAT as eligible for IT jobs & Technical operations.
- Secured 537 all India Rank and 46 Zonal rank in UIEO-2013(Unified International English Olympiad).
- Secured 5783 all India Rank in UCO-2009(Unified Cyber Olympiad).
- Participated 4th National level science Fai ATROB'13 organized by Department of Science and Humanities in the year 2012.
- Best questioner award in Inspire Internship camp by Department of Science and Technology, New Delhi on aug-2016.
- Certified for securing centum in mathematics.

Training:

- Certified course in Diploma in Office Automation.
- Certified course in C programming.

Educational Status:

- Secured CGPA of 7.2 till 8th semester.

Scholastic:

Qualification	Stream	School/College	University	Score	YOP
B.E	ECE	R R institute of Technology	Visveswaraya Technological University	7.2	2020
12 th	PCMB	Sri Vidya Bharati	State Board	89.4%	2016
10 th	-	Sri Vidya Bharati	State Board	95.2%	2014

Extra Curriculum:

- Participated in State Level Chess Tournament.
- Identified as best Singer during School days.
- Hosted the Kalatranga event in college days.

Projects:

- Blind Navigation
- Self-power Generation in smart vehicle
- Contact updating program in DS.

Workshops:

- Attended Workshops on
 - i. PCB designing,
 - ii. Computer Communication networks,
 - iii. ARM embedded controller,
 - iv. Proteus Design tool,
 - v. 3D Experience tool.

Skills:

- Selected by Ekalakhya through VTU.
- Programming Skills in
 - i. C language
 - ii. Embedded C.
 - iii. microprocessor-8086,

- iv. **MATLAB,**
- v. **Xilinx (Verilog & VHDL),**
- vi. **C++ language(beginner)**
- vii. **Python(Beginner)**

- Worked on lpc2129, programmed CAN, UART, I2C.
- Possess Skills in designing circuits in **Proteus & PSpice.**
- Good in **MS Office.**

REPORT ON ALUMNI MEET 2019

Alumni Meet 2019 was conducted on 24-2-2019 at RRIT auditorium. The Alumni's started arriving in college by 10.00 a.m. and they were received by the registration team and were taken on a campus tour where they revisited the familiar place where they had studied and were shown the various developments that had taken place since then. Alumni's registered near the entrance of the auditorium fill up registrations forms, getting to know each other.

Meet started with an invocation song seeking the blessings of almighty by Aishwarya Rao, 3rd Year, ISE. The hosts of the event, Shreya, 1st year CSE invited the dignitaries to occupy the dais. Dignitaries and Alumni have proceeded to the dais for the lighting of the lamp.

A total of 160 alumni attended this function. The program started with welcome address. All the alumni's were excited to be part of the RRIT alumni meet. They shared their experience and the interesting moments of their campus life with the audience. At the end of the function, lunch was served to all the Alumni members at the auditorium. The alumni meet is conducted in order to reconnect with the Alumni and celebrate their success and various achievements. Principal RRIT delivering the college report high milestones reached by RRITAA. This led to the Alumni sharing their experiences in and after their college life.

The entertainment programs, games and musical concert were conducted by students of RRIT. It was well received by the Alumni and garnered a huge applause from the audience. The Alumni's felicitated 25 old faculty's of the organization as a token of honor. President of RRITAA proposed the vote of thanks. He thanked the Alumni for taking the time to come for the Alumni Meet who have made it a very special and memorable one. He thanked the various organizers of the event (teaching, non-teaching staff and the enthusiastic student volunteers) whose hard work and dedication made the event possible. He also thanked the management of RRIT for the support and guidance which has made Alumni Meet 2019 a grand success.

RR INSTITUTE OF TECHNOLOGY

RRIT Alumni Association (RRITAA)

With Registration No: DRB1/SOR/51/2018-2019.

ABOUT RRITAA

Today, alumni relations are an important part of an Institution's advancement activities for many reasons: **Alumni** are an institution's most loyal supporters. **Alumni** are fundraising prospects. ... They take their knowledge of your institution to their hometowns and countries and into their professional and social networks. The **purpose** of an **association** is to foster a spirit of loyalty and to promote the general welfare of your organization. **Alumni associations** exist to support the parent organization's goals, and to strengthen the ties between **alumni**, the community, and the parent organization. RRIT Alumni Association (RRITAA) started in the year 2017 and got registered with board of members in the year 2018 by the government of Karnataka.

FROM THE PRINCIPAL DESK

RRIT takes pride in launching its Alumni Association Newsletter with record of eminent students passing out, their pursuing education at institutions of excellence across the globe and many of them being well placed, it is only natural to provide them with a forum for interaction.

Alumni associations provide a platform for rich and diversified interaction with those who share an alma mater, shaped by the infant nurture and shared values that are abundantly endowed from their formative years. We are proud to acknowledge the numerous successful students who have made a mark for themselves in the world and are delighted to invite all the alumnus to come and share their success stories and network with their ilk through this forum.

Dr. Manjunath M B
Principal, RRIT

FROM THE PRESIDENT & VICE PRESIDENT DESK

Mr. Darshan B P
President, RRITAA

Dear Alumni Members,

It's always a great pleasure to converse with you.. We are now no more a struggling organization.. There's much more in the works, so stay tuned to your inbox and to social media (we're on Facebook, Instagram) for more ways to get involved. In the meantime, mark your calendars and plan to join us for annual tailgate, which has quickly become one of the society's flagship events and a wonderful opportunity to reunite with friends and meet other alumni and students. Personal note of thanks and gratitude to few individuals without whom the society and college would not have been nearly as successful over that past year.

Provide an organizational framework for alumni and those associated with the R R Institute of Technology. Encourage & coordinate engineering alumni activities and interests. Create an ongoing relationship between engineering students and alumni so as to develop further active engineering alumni. Foster moral, spiritual and material support for RRIT and to promote the interest and affairs of this collage. As alumni who truly love and faithfully support this Association of great institution, I know you share my pride in what we are doing and where we plan to go... Stay tuned as we roll out an exciting line up of events that will extend across the country.

Mr. Ramu K
Vice-President, RRITAA

FROM EDITORS' DESK

Prof. Jyothi R
Member. RRITAA

As a member of RRITAA it is my immense pleasure that I was given opportunity to work on this Newsletter "Sankalpa". This Newsletter mirrors a RRITAA vision mission, college activities, Alumni's messages and student's achievements. I do hope that the newsletter encourages many more to use it as a platform to express their creativity.

Happy Reading.....

Our Proud Alumni

It was a great journey at RRIT, four long years gave me a lot of exposure and opportunities to discover my hidden talents and excel in them. I am proud to be a part of this esteemed Institutions

-Kiran Kumar, CSE
Software Developer, IBM

Well, it was really an awesome journey here at RRIT, Special thanks to all my faculty members who were strict when I was a student, but today I realize the value of their scolding's. I thank RRIT from the core of my heart for making me what I am Today, for Shaping my Future.

- Ashwin M, EEE
Associate Engineer, DXC

Journey at RRIT has been an important part of my life. Along with good academics, I was able to grab some good skills being a coordinator. I would like to thank my professors and the management team who gave me such an amazing opportunity and made my bachelor's life special

-Anjan C S, Mech
University of Pavia,
Master's in industrial automation engineering
